

DR. C. V. RAMAN UNIVERSITY KARGI ROAD KOTA BILASPUR (C.G.)

KARGI ROAD KOTA BILASPUR (C.G.)				
	An Interactive Talk on "Energy, Climate Change & I" using Solar Energy	140	Prof. Chetan Singh Solanki, The Solar Man Of India, Prof, IIT, Bombay	
	"Understanding of Tribal Rights"	113	Mrs Reema Ganguly, UNICEF, Coordinator, Bilaspur 9861713230	
	One Day Awareness Programme on Cyber Fraud and Role of Law to Curb It	53	Mrs. Gita Athanere, Asst. professor, Motilal Nehru Law College, Khandwa (M.P.), Mo. No 9179525850	
	Guest Lecture on Current Trends in Indigenous Technology Used by Farmers	50	Professor M. S. K. Khokhar, Former Vice Chancellor, Guru Ghasidas University, Bilaspur (C.G.)	
	Guest lacture on QBD in Analytics Method Development	173	Department of pharmaceutical sciences Dr. C V Raman University	
	Expert Talk On Symmetry And Spectroscopy Of Coordinated Complex	100	Dr. Arnab Kanti Giri Asst. Prof. Dept. Of Chemistry Karim City College, Jamshedpur (J.H.)	
	One Day Awareness Program On Climate Change on electricity demand	43	Dr. Anurag S.D Rai, Associate Professor LNCT, college, Bhopal	
	Special Talk on New Trends and Technology of soil Analysis	53	Dr Sapna Pawar Assistant Professor Department Of Chemistry Govt Niranjan Kesharwani College Kota Bilaspur (CG)	
	Guest Lecture on "BASIC KNOWLEDGE OF COMPUTERS"	30	Ms. Nikita Vashwani Asst. Prof. Computer Science Department LCIT, Bilaspur Ph. No. 8602930732	
Awareness of trends in	Expert Talk On Pile Foundation	60	Dr.M.K.Tiawari ,Asso.Prof. Shree Shankaracharya Institute Of technology ,Durg ,C.G.	
technology	Guest Lecture on Complex Analysis	63	Prof(Dr.) G. K. Singh, Professor of Mathematics, VGC, UP. Contact No 7395077759	
	Guest Lecture on 'Importance of Artificial Intelligence'	67	Mr. Satyaprakash Assistant Professor Department of Computer Science PNS College, Bilaspur (C.G.)	
	One Day Awareness Program On " New Generation With The Power Of Solar"	62	Mr. V.P. Gupta , Govt. Polytechnic Mahasamund , 9981355508	
	One day seminar on Information security awareness	60	One day seminar on Information security awareness, Dr.Anupam tiwari, Dept.of Rural technology Baster university C G 9301554506	
	Interactive Session on "Ms-Office"	44	Mr. Nilesh GuptaAssistant Professor Dpt. Of Computer Science Eng., Chouksey Eng. College, Bilaspur (C. G.) Ph. No. 9039600036	
	Guest Lecture on STAAD-Pro.	65	Mr. Mahesh Tiwari, Director of CAD Center Bilaspur (C.G.)	
	An Interactive Session on "The Role of Technology in Science"	83	Mr. Vivek Joglekar Science Communicator, Bilaspur, Mob +91 9300312366	
	Seminar "Present Automotive Two & Three Wheeler Technologies"	190	Mr. Ashish Paul, Prof., LCIT Bilaspur, 9685092040	
	Guest Lecture on AI & Machine Learning	90	Dr. Rohit Raja, 7000559696	

DR. C. V. RAMAN UNIVERSITY KARCI ROAD KOTA BILASPIJR (C.C.)

	KARGI ROAD KOTA BILASPUR (C.G.)			
	Updating With " Trends of Non Conventional Energy Sources"	35	Mr. Prashant Singh Rajput ,LCIT. Bilaspur,7000857466	
	An Informative Session on "Nano - Technology Past-Present-Future"	94	Dr. Anchal Shrivastava, Professor Department of Physics, Banaras Hindu University Kashi, Mob +91 9453203122	
	Guest Lecture on Real Analysis.	61	Prof(Dr.) Dilip Kr.Jaishawal, Professor of Mathematics, SRSU(UP). Contact No 9182992328	
	Seminar on "3D Printing Technology"	185	Mr. Ashutosh Kumar Jaiswal, Asst. Prof., LCIT Bilaspur, 9827964781	
	Guest lecture on Diversity of Vegetation of India	102	Shri Krishna kumar, Verma Assit. Professor, D.L.S. College Bilaspur C.G. 7000949391	
	One Day Guest Lecture on "ICT in Teaching"	73	Mrs. Manju Kanujae Assistant Professor, Department Of Education, Swami Swaroopanand College, Hudco, Bhilai, 9407706308	
	Special Talk on Carbon Nanotube and Its Application In Chemical Technology	77	Dr Janita Saji, Department of Physical Sciences, Christ University Bangalore, India	
	Guest Lecture On S.E.D.	60	Mr.Nadeem Pasha , Ex. Executive Engineer ,PHE Department C.G.	
	Guest Lecture on Pavment Design	60	Mr.Vidya Fulzele ,Assistant Prof. RIT Raipur C.G.	
	Expert talk on Green Computing	90	Dr. Rajkumar Patra, 9893305671	
Awareness of trends in	Guest Lecture on 'Cyber Security'	63	Dr. Amit Singh Asst. Prof. Govt. College, Fasterpur, Mungeli, Bilaspur (C.G.)	
technology	The Expert Talk On Cannizzaro reaction and its applications with new trends and technology	45	Dr Gauri Shankar Roy Mahapatra Associate Professor, School of Science and Humanities, Haldia Institute of Technology Haldia (WB).	
	Guest lecture on Recent Trends on Trichoderma and Pseudomonas in Agriculture	92	Dr. Avinash Kumar Sharma, Assistant Professor, Govt.N.P.G.Collage of Science Raipur C.G. 9329101633	
	Guest Lecture on Internet of Thing (IoT)	63	Mr. Vishnukant Soni, 9630524888	
	Expert Lecture on EDM	60	Mr. L.N. Swarnakar ,Director Of GS Survey Of Associate ,Bilaspur	
	One Day invited lecture on " Virtual Reality"	67	Prof. Anupama Pandey, Assistance Professor, D P Vipra PG College, Bilaspur (CG), 9770622840	
	Guest Lecture on 'Global Trends in ICT and Education'	83	Mrs. O.P.Kashyap Assistant Prof. Govt. College, Baloda	
	Seminar on "Understanding Automotive Industry"	202	Dr. Devesh Shrivastava, Asst. Prof., BIT Durg, 0788- 2321163	
	One day seminar on Information security awarness programme	85	One day seminar on Information security awarness programme, MS Richa Handa ,Dept. of Computer Science D P PG College Bilaspur C. G. 9893629888	
	Expert Talk on "Software Development Lifecycle & Methodology"	35	Mr. Asish Rajput,CTO ELANAR Technocrates Private Limited, Bilaspur (C. G.) Ph. No. 9770102888	

DR. C. V. RAMAN UNIVERSITY KARGI ROAD KOTA BILASPUR (C.G.)

A BRIEF REPORT

<u>ON</u>

1) Name of The Event/Activity: An Interactive Talk on "Energy, Climate Change & I" using Solar Energy

2)Organized By: Department of Engineering, Center for Renewable Green Energy & IQAC

3) Date: 18/06/2022

4) Venue: Conference Hall (B-Block)

5) Collaboration/Association (If Any): Nil

6) Sponsored Body (if Any): Nil

7) Duration in Nos.: 1

8) Total No. of Participants: 140

9) Mode of Conduction (Offline/Online): Offline

10) Type/Nature & Level of the Event: Seminar

11) Details of Resource Persons/Keynote Speakers/Experts etc.: Dr. Chetan Singh Solanki, a professor from IIT Bombay, brand ambassador of Solar Energy for Govt. of MP, and Founder of the Energy Swaraj Foundation

12) Session-wise/stepwise/Day-wise description: 12:00 PM to 02:00 PM

Brief Description:

An interactive talk session on "Energy, Climate Change & I" had been organized by the department of engineering, Ceter for renewable green energy and IQAC of Dr. C. V. Raman University, Bilaspur.

Energy is Everything and Everything is Energy. Gandhiji's statement that "Earth has enough for everybody's need but not for anybody's greed" is as fundamental as the fact Sun rising from the East. However, in contradiction, the world economies are increasingly trying to

produce more and consume more. **Dr. Chetan Singh Solanki** explained this contradiction is fueled mainly by fossil energy (80-85%), leading to another contradiction wherein increasing energy consumption is required to maintain economic growth, while rampant use of fossil energy is causing climate change.

Climate change is threatening not only sustainable life but the sustainability of life on the planet. We have only 7-9 years left before we reach global warming of 1.5° C (IPCC report). Therefore "drastic" and "immediate" actions are required to mitigate climate change.

The solution lies in adopting Energy Swaraj or generating and consuming energy locally. Adopting Energy Swaraj will also help in skill development, livelihood creation, energy independence, local economy strengthening, and of course, climate change mitigation. To create a public movement and establish Energy Swaraj across, an 11 years long Energy Swaraj Yatra (2020-30) through a solar bus is undertaken by Prof. Chetan S. Solanki, IIT Bombay.

Hon'ble Pro Vice Chancellor Dr. Jayati Mitra expressed their views on current scenario of climate change. Need to resolve it. Respected Registrar Mr. Gaurav Shukla expressed their views for student to take challenge as such to reduce energy consumption. Climate has changed as a result of use of fossil energy (coal, oil and gas) directly through electricity, LPG and petrol diesel, and indirectly by using products and infrastructure.

At the end Dr. M. K. Tiwari gave vote of thanks.

Archives: (Brochure/Photographs/Snapshots/Glimpses/Screenshots/)Sample copy of Certificates Issued (if any) & Notice/Circular issued : Copy of the Press Release/Media Coverage.

Date: - 16/06/2022

Notice

It is to inform you that the Department of Engineering (Mechanical Branch) is going to conduct An Interactive Talk on "Energy, Climate Change & I" on 18/06/2022.

We request you all the staff and students of our department to attend the expert talk. Your presences are compulsory.

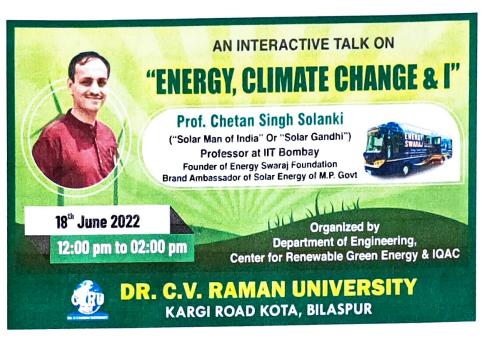

Thanking you!

एनर्जी, क्लाइमेट चेंज और मैं विषय पर सीवीआरयू में एक दिवसीय व्याख्यान

ऊर्जा साक्षर बनें, कम एनर्जी को फैशन बनाएं तभी प्रदूषण रुकेगा : प्रो. चेतन

सिटीरिपोर्टर विलासप्र

देश में सोलर गांधी के रूप में विख्यात आईआईटी मृंबई के प्रो. चेतन सिंह सोलंकी अपनी बस यात्रा लेकर डॉ. सीवी रामन युनिवर्सिटी पहुंचे। उन्होंने एनर्जी, क्लाइमेट चेंज और मैं विषय पर अत्योजित कार्यक्रम में पर्यावरण प्रदूषण से होने वाले दुष्प्रभाव एवं बिजली के उपयोग पर बंद करके सोलर ऊर्जा के उपयोग के लिए जागरूकता व्याख्यान दिया। उन्होंने कहा कि सम्बसे पहले सभी को उर्जा साक्षर बनाना होगा। तब ही हम विश्व में लगातार बढते प्रदुषण को रोक पाएंगे और मानव जीवन सुरक्षित रहेगा। वे सौर ऊर्जा के उपयोग के जगरूकता को लेकर अभी 11 साल की भारत यात्रा पर हैं । उन्होंने कहा कि धरती पर मनुष्य के जीवन के अस्तित्व पर प्रश्न चिन्ह लग गया है,

सबसे पहले हमें अपने आप को बदलना होगा: डॉ. चटर्जी

सम कुलर्पत डॉ. जयित चटर्जी ने कहा कि एनर्जी, क्लाइमेट चेंज और मैं, इन शब्दों के बोच में बहुत स्पेस है। इस स्पेस को हम सभी जागरूकता के माष्यम से ही दूर कर सकते हैं। इंजीनियरिंग के प्राचार्य डॉ. एमके तिबारी एवं डॉ. नीतिन शुक्ता सहित विवि के प्राच्यापक अधिकारी, छात्र उपस्थित थे। आयोजन इंजीनियरिंग विभाग, सेंटर फॉर रिनिब्यूएबल ग्रीन एनर्जी एवं आईक्यूएसी द्वारा आयोजित किया गया था।

सौर ऊर्जा के क्षेत्र में विवि करेगा काम: गौरव

कुलसचिव गौरव शुक्ता ने कहा कि प्रो. चेतन सोलंकी 11 साल की यात्रा में लोगों को जागरूक करने निकरते हैं। यह बहुत ही अद्भुत और साहस का कार्य है। उन्होंने कहा कि विश्वविद्यालय सौर कजों के क्षेत्र में कार्य करेगा और लगातार जागरूकता की चैन बनाएगा। सबसे पहली जिम्मेदारी विश्वविद्यालयों और शिक्षण संस्थानों की होती है। इस विश्वविद्यालय की जिम्मेदारी को हम पूरी निष्ठा और ईमानदारी से निभाएंगे।

"Understanding of Tribal Rights"

Organized by Department of Education

Date: 24/05/2022

Timings: 11:30 to 12.30 pm Venue-Conference Hall

Mode of Conduction: Offline

Guest Speaker: Mrs. Reema Ganguly, UNICEF, Coordinator, Bilaspur (C.G.)

Mobile No-9861713230

REPORT OF THE PROGRAM

The main aim of this program was to introduce the concept of "Understanding of Tribal Rights" to the student teachers and faculty members. The main objective of this guest lecture was to explain the key role and significance of Understanding of Tribal Rights" in Teacher Education

This Program was inaugurated by DeanDepartment of Education; Prof. Jayshankar Yadav,Dr. C.V.Raman,University, Bilaspur (C.G.) Mrs Reema Ganguly,UNICEF coordinator,Bilaspur Invites as an expert. The whole session was very interactive students actively participated as well as they asked and discussed so many key points related to **Tribal Rights**with expert. The main purpose of the lecture was to better trainee teachers for authentic teaching situations. Pre- service teachers should become familiarized with the application of **Understanding of Tribal Rights**theory in their training programs expert ma'am presented detailed aspects of tribal right sanddiscussed how the students of training colleges have become more prepared to face the challenges of diversity of student's tin school. She also explained how we construct a curriculum which shows the equalityTotal 79 participants were present in programe.

At the end of the session she answered all the quires of student and the end of the session vote thanks presented by Dr.Ritesh Mishra, HOD, Department of Education

One Day Awareness Programme on Cyber Fraud and Role of Law to Curb It Organized by: DEPARTMENT OF LAW and IQAC

Date: 12th March 2022 Time: 12:00 pm to 02:00 pm

Detailed Report

An awareness programme on Cyber Fraud and Role of Law to Curb It wasconducted on 12th March 2022. 53 participants have actively participated in the programme. Programme started with the brief introduction of invited keynote speakerMrs. Gita Athanere, Asst. professor, Motilal Nehru Law College, Khandwa (M.P.) by Dr. J. K. Patel (Head Department of Law) to all the participants. The resource person gave a brief introduction on the topic and detailed about the cyber fraud and associated laws.

Figure 1: Mrs. Gita Athanere addressing to the programme

Respected keynote speaker gave her address on cyber fraud awareness for attendees, which was a lovely start. She underlined the need of maintaining good network manners in

daily life. She discussed the rising e-

frauds and security concerns as well as the internet standards, which were important pieces of knowledge for everyone in attendance.

Further Mrs. Gita Athanere explained that every citizen is concurrently a part of two universes. The "REAL" world is the first, and the "VIRTUAL" world is the second. We take all reasonable security measures when residing in the real world to stay safe and secure.

Additionally, we are familiar with all laws, rules, and regulations that apply to the industry in which we work. Despite the residents' best efforts, mistakes still happen, which leads to acts of crime (either deliberate or inadvertent).

She provided in-depth knowledge of the various types of cybercrimes, including access without authorization, data theft, computer damage, denial of access, access to an unauthorised person, identity theft, cyber staking, and cyber terrorism, as well as strategies for protecting oneself from these crimes, which are on the rise right now.

She also emphasised the need to follow safety precautions when using the internet to browse transact or business.precautions likeProfessionally and sparingly using personal information, be cautious before downloading anything, selecting secure passwords, using secure websites, such as

Figure 2: Students attending awareness programme

shttps, to conduct online transactions or purchases, Careful social media sharing of the data, to fully understand the other person when conversing, updating antivirus software.

She spoke on a few incidents involving the effects of social media as well as the availability of legal action for cybercrimes. The programme finished with a wealth of knowledge and a vision of safety and security in the online world.

Dr. J. K. Patel gave a vote of gratitude to the keynote speakers to close the programme. The programme taught the students about the various scams, dangers, and vulnerabilities that exist in the online world as well as how to protect oneself from such dangers.

This report is certified by Head of the Department.

Report of Guest Lecture on Current Trends in Indigenous Technology Used by Farmers

Guest Lecture was conducted by the Department of Rural Technology, Dr. C. V. Raman University on 18.2.2022 from 11.30 am to 01.30 pm. Chief guest Professor M. S. K. Khokhar, Former Vice chancellor (Acting) of Guru Ghasidas Central University, Bilaspur has taken a lecture on topic "Current Trends in Indigenous Technology" for second year students in Seminar Hall. He has published many numbers of papers in National and International Journals. He has delivered lectures in various organizations and Universities. He founder professor of rural technology in Guru Ghasidas Central University, Bilaspur, C.G., Total of around 55 students and staff participated in this programme.

The speaker explains the Basics of indigenous technical knowledge in agriculture. Indigenous Technical Knowledge (ITK)) is specifically concerned with actual application of the thinking of the local people in various operations of agriculture and allied areas and discussed in detail Indigenous Technical Knowledge Applications like Medicinal Plant, Remote Sensing. Mushroom Production, Organic Farming, Traditional Agriculture Equipment etc. The lecture also discussed about the possibilities and reach abilities of research and development in Indigenous technology field, opportunities in core technical areas with authenticated explanations.

Professor M. S. K. Khokhar delivered his lecture on virtual mode

Deptt. of Rural Technology
C V Raman University
Kota Bilaspur (C G)

The recent works on Rural Development projects handled by their team are discussed and finally research directions in the area of Indigenous technology are shared with the participants. After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. At the end of the guest lecture, two students gave their feedback, and explained how they were benefited.

"GUEST LECTURE ON "QBD IN ANALYTICAL METHOD DEVELOPMENT"

Dr. C. V. Raman University, Kota, Bilaspur, (C.G.)

Dr. C.V. Raman Institute of Pharmacy
Kargi Road,, Kota, Bilaspur (C.G.)

A BRIEF REPORT

1) Name of The Event/Activity: Guest Lecture On "Qbd In Analytical Method Development"

2) Organized By: Department Of Pharmaceutical Sciences

3) Date: 18.01.2022

4) Venue: Department Of Pharmaceutical Sciences

5) Duration in Nos.:15 September to 15 September.

6) TotalNo.ofParticipants:173

7) Mode of Conduction(Offline/Online): Offline

8) Type/Nature & Level of the Event: Guest lecture for One Day

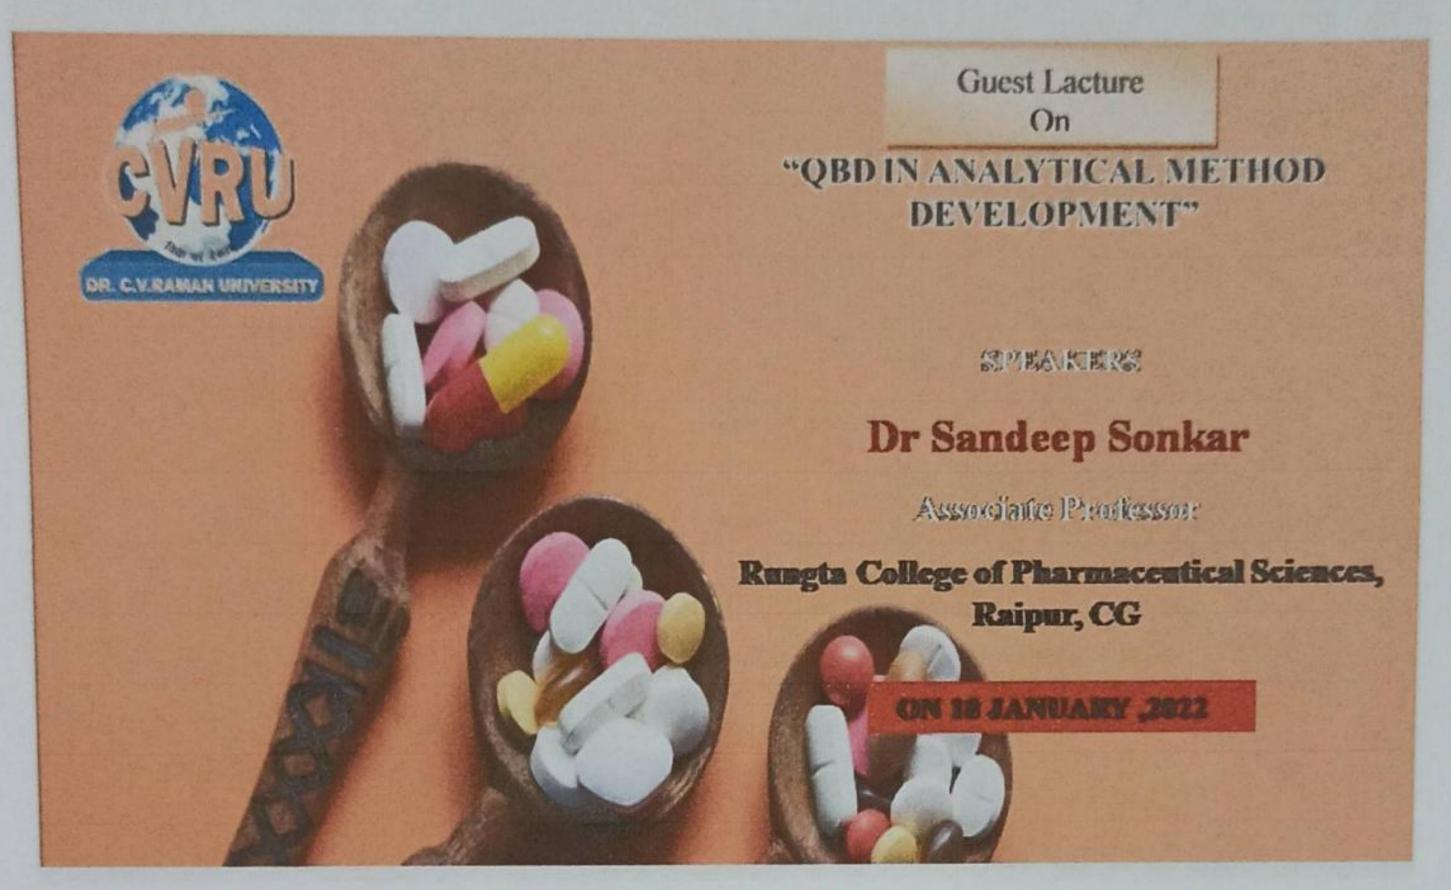

9) Brief Description:

This Guest lecture was organized on the topic "QbD in Analytical Method Development" at Department of Pharmaceutical Sciences. This lecture gives the detail about basic concept of QbD and ICH Q14 guideline and guideline on analytical method development is under consideration at ICH. The one guest lecture was organized on topic "QbD in Analytical Method Development" by Dr Sandeep sonkar on date18.01.2022 for students of B. Pharm Sem and Name of the Speaker: Dr Sandeep sonkar, Associate Professor, Rungta College of Pharmaceutical Sciences, Raipur, CG.Detail about basic concept of QbD and ICH Q14 guideline in Pharmacy.

To know about the role of analytical method at various product development stages and problems faced in development of method and various steps involved in Analytical Quality by design, importance of risk identification and analytical target profile.

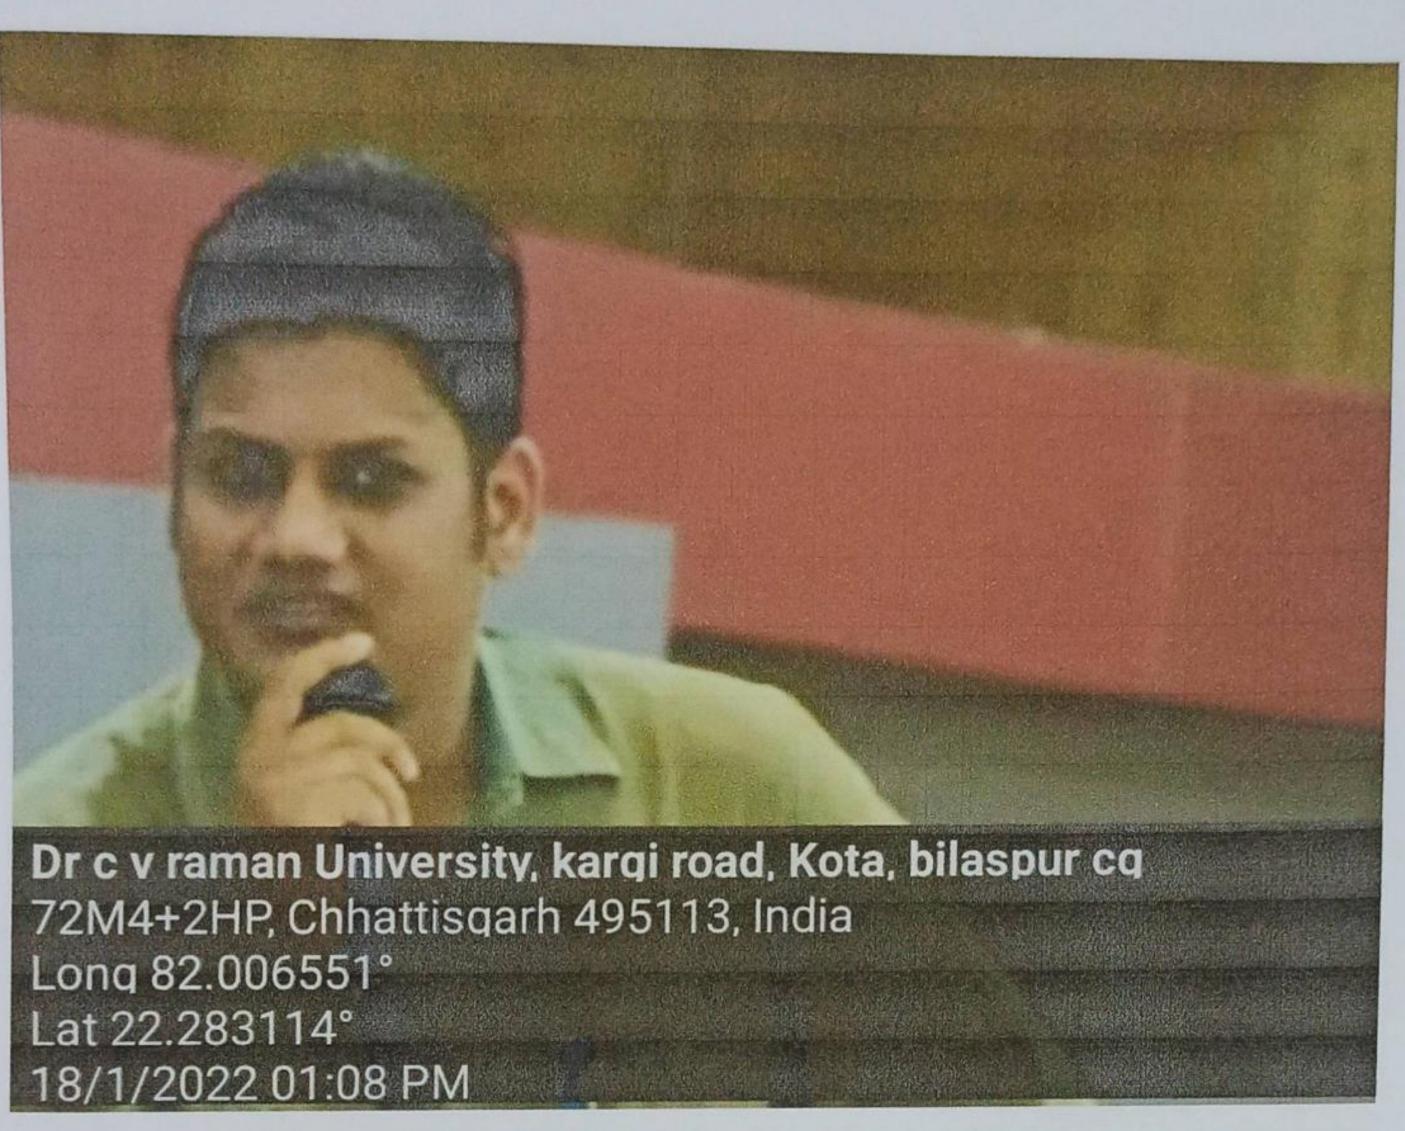

Our Guest Speaker Dr. Sandeep Sonkar Associate professor From Rungta college of pharmacy Bhilai (C.G) Wellcome by Prof. (Dr) Saket Singh Chandel, The Chief Guest addressed the participants with his valuable speech and enumerated about "The Pharmacy Profession". The Session was revoked by Dr Sandeep Sonkar sir "QBD in analytical method development" aspects in pharmaceutical formulations. All the delegates actively participated in interactions and raised various points which were clarified by the speaker. The Organizing Secretary Mr. Aayush Vaishnaw has reported about full day events and expressed gratitude to all the resource persons, delegates, members of various committees and management of Dr. C.V. Raman institute of Pharmacy. How QbD concept can be applied in analytical method development and critical

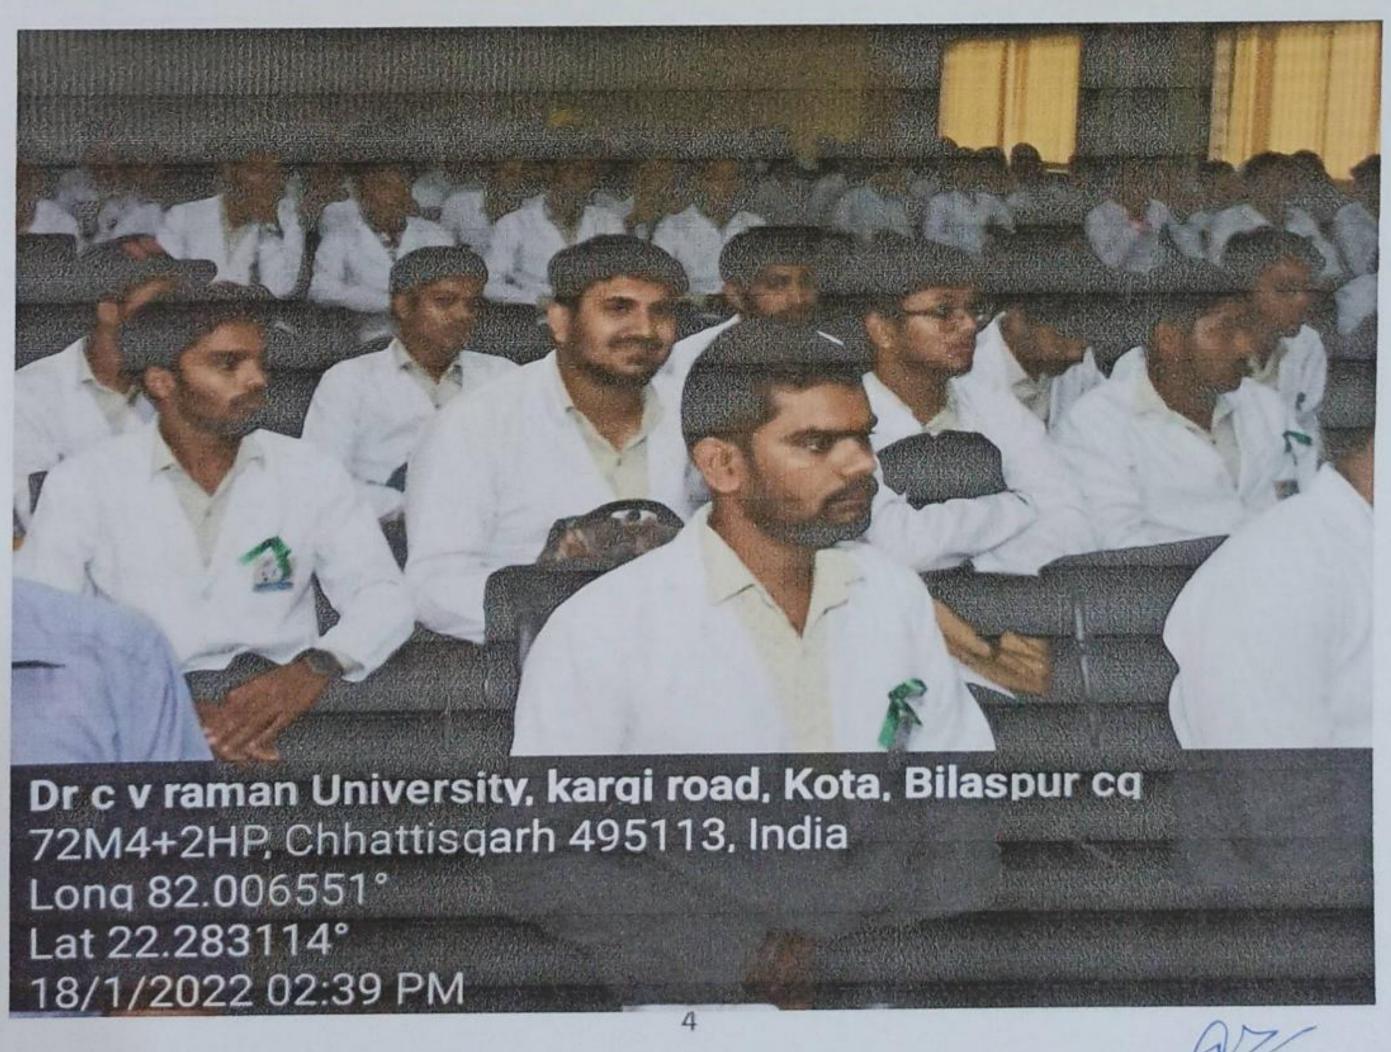

parameters identification in pharma profession.

BRIEF REPORT OF THE EXPERT TALK ON SYMMETRY & SPECTROSCOPY OF CO-ORDINATION COMPLEX

Dr. C. V. Raman University, Kota, Bilaspur, (C.G.)

Head
Department of Chemistry
Dr. C.V. Raman University
Kota, Bilaspur (C.G.) - 495113

A BRIEF REPORTOF EXPERT TALK ON SYMMETRY & SPECTROSCOPY OF CO-ORDINATION COMPLEX

- 1) Name of The Event/Activity: Expert Talk on Symmetry & spectroscopy of co-ordination complex
- 2) Organized By: Department of Chemistry, Dr. C. V. Raman University
- 3) Date: 13/01/2022
- 4) Venue: SMART CLASS ROOM
- 5) Collaboration/Association (If Any): IQAC, Dr. C.V. Raman University
- 6) Sponsored Body (if Any):
- 7) Duration in Nos.: 1.5 hrs
- 8) Total No. of Participants: 100
- 9) Mode of Conduction (Offline/Online): Online
- 10) Type/Nature & Level of the Event: Guest (Workshop/Seminar/Conference/Symposia/Other)

11) Brief Description:

Introduction:

The Department of Chemistry organized an online invited talk to faculty and students for the enhancement of the students' encouragement towards education, which was scheduled on January 13th, 2022 from 12:00 pm to 1:30 pm through the online mode Google meet. The topic of the invited talk was based on the M.Sc. syllabus of the students. On that day, the topic Symmetry & Spectroscopy of Co-ordination Complex was presented by Dr. Arnab Kanti Giri from Karim City College, Jamshedpur (J.H.).

Objectives:

The aim and objective of organizing invited talks on the abovementioned topics were to provide more and more knowledge to the students.

Department of Chemic Dr. C.V. Raman University Kota, Bilaspur (C.G.) - 499 119

Guest Lecture

4

Significance:

The students have benefited greatly from the guest lecturers because they are able to gain insight from those who have experienced similar challenges. Students learned a great deal from hearing from professionals in a variety of fields. There may be opportunities for students to network with experts in formal and informal way. Teachers can help their students learn new information and ideas quickly by giving them lectures on the subject. Lectures are as effective as other methods, but not more so, when it comes to imparting fundamental knowledge. There's a chance that students' expectations about what a classroom should be like are best met by the standard lecture format.

Details of Experts: Dr. Arnab Kanti Giri from Karim City College, Jamshedpur (J.H.). Session-wise/stepwise/Day-wise description:

Expert talk was started with the inauguration address by Dr. Milan Hait and expressed the speakers short bigraphy. Dr. Arnab Kanti Giri, Assistant Professor, Dept. of Chemistry, Karim City College, Jamshedpur had successfully delivered his expert talk on Symmetry & Spectroscopy of Co-ordinated Complex. He went over all there is to know about symmetry and spectroscopy, from the most fundamental concepts to the most advanced research-level ideas; as a result, our pupils benefited from his presentation. The session was quite interesting as well as participatory. The students have the opportunity to communicate with an expert and clear up any confusion regarding their understanding through questioning. During this presentation, our students picked up a lot of new ideas, concepts, and pieces of knowledge. Expert talk came to a close with a vote of gratitude given by Dr. Rakesh Yaday, Associate Professor, Department of Chemistry.

Outcome:

With the information presented in this lecture, our students' understanding and knowledge expanded significantly. Because of this opportunity, students can connect with working professionals and develop valuable learning relationships. The speaker energized the group, inspired them to take action, reaffirmed the event's overarching themes, added depth to the occasion by sharing their unique perspective, and provided enjoyable diversion. One benefit is that students are more engaged and attentive when lectures are interspersed with discussions. By analyzing the similarities and differences in their responses, they gained new insights into the topic.

A brief Report of One day Awareness Program on "Effect Of Climate Change On Electricity Demand"

- Name of The Event/Activity: One-day Awareness Program on "Effect of Climate change on electricity demand"
- 2. Organized by: Department of Engineering and IQAC
- 3. Date: 09-12-2021
- 4. Venue: Smart Room, B- Block, Dr. C.V. Raman University, Kargi Road, Kota, Bilaspur, (C.G)
- 5. **Duration in Nos.:** 01 day (11AM 02 PM)
- 6. Total No. of Participants: 43
- 7. Mode of Conduction (Offline/Online): Online
- 8. Type/Nature & Level of the Event: Awareness of Trends in Technology
- 9. Brief Description:

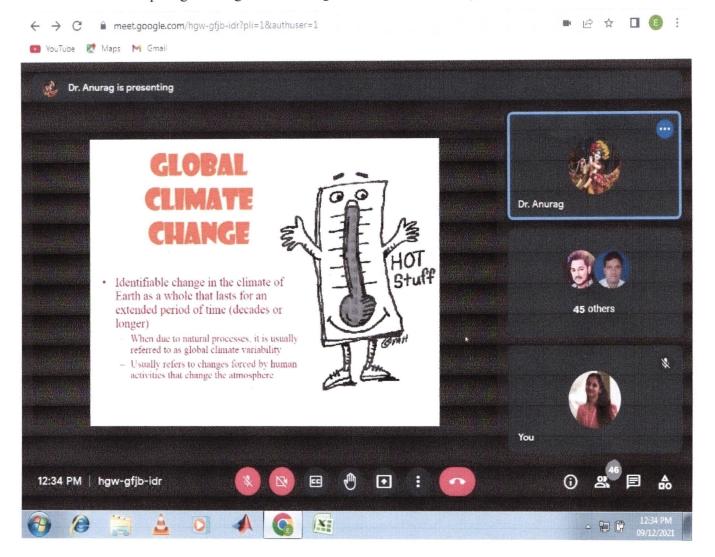

This awareness program was inaugurated by honourable Vice Chancellor, Professor Dr. R.P. Dubey, Dr. C.V. Raman University, Bilaspur (C.G.). Respected Registrar, Mr. Gaurav Shukla, Dr. C.V. Raman University, Bilaspur (C.G.), Respected Principal, Dr. M. K. Tiwari, , Dr. C. V. Raman Institute of Science & Technology were present as dignitaries in the program. All the faculty members from Department of Engineering were present in the Program. Dr. M. K. Tiwari gave the welcome note and invites the resource person to initiate his lecture. Dr. Anurag S. D. Rai, Associate Professor LNCT Bhopal (M.P.), Introduced about the reasons, effects and remedies of Climate Change and Sustainable Development, and also discuss that how climate change increase the load demand.

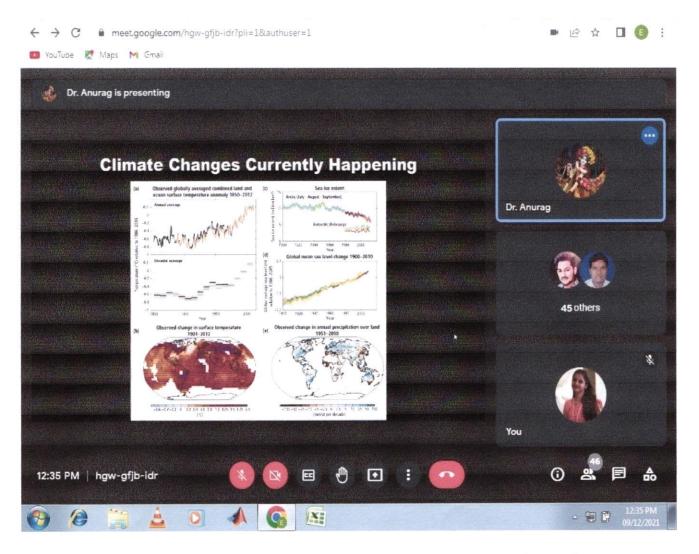

OBJECTIVES: Climate risk/opportunities posed to investments and role of the business community, How to combat Climate change, adaption to climate change for reducing load demand.

SIGNIFICANCE: Climate change effect is likely to both increase electricity demand for cooling in the summer and decrease electricity, natural gas, heating oil, and wood demand for heating in the winter. New infrastructure investments may be necessary to meet increased energy demand, especially peak demand during heat waves.

DETAILS OF RESOURCE PERSONS: Dr. Anurag S.D Rai, Associate Professor LNCT College, Bhopal.

OUTCOME: Achieving less consumption of electrical energy from carbon reductions, and also inspiring future generation to go for Renewable energy sources which is eco-friendly.

(Dr. Anurag was presenting the effects of temperature change)

Special Talk on "New Trends And Technology Of Soil Analysis"

On

08-07-2017

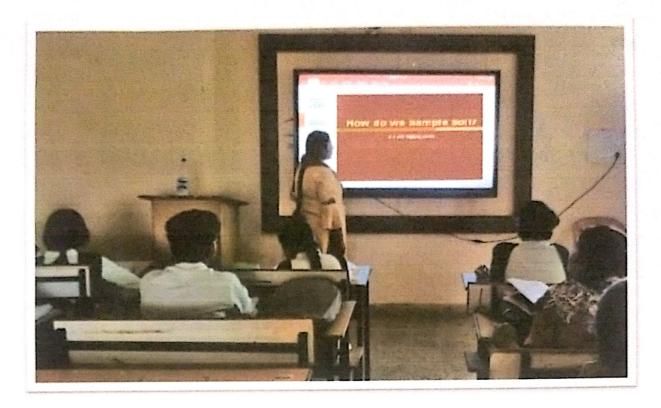

Organized By

Department Of Chemistry

Department of chemistry organized "special Talk on New Trends and technology of Soil Analysis" on 08-07-2017. The topic of the talk was very relevant for the researchers and students for upgradation of their knowledge in the field of soil pollution determination and its remediation. The expertof this Talk was Dr Sapna Pawar Associate Professor Department of Chemistry Govt Niranjan Kesharwani College Kargi Road Kota Bilaspur CG. The introductory speech Delivered by Dr Manish Upadhyay, Head Of The Department Of Chemistry, Dr C V Raman University. The key points ofthe talk were Properties of soil, soil sampling techniques, Soil pH. Soil Conductivity, Soil Organic Carbon, Soil Moisture, NPK value. Heavy metals in soil. The lecture was very excellent and covered all most all soil quality parameter and its determination, expert also explained about the ICAR and its criteria for soil quality parameter.

Circular

This is to inform that the Department of Civil Engineering is going to organize one day Expert talk on "PILE FOUNDATION" dated on 22nd August 2017 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate.

Kindly circulate this information to all the students, faculty and staff members of other institutions also.

Name of the program: Expert Talk on Pile Foundation

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 22nd August 2017

Detailed Report

The Department of civil engineering has organized a one day Expert Talk on Pile Foundation
This program included an Expert by the guest, Dr. M.K. Tiwari (HOD of Civil Engineering
Department, Shri Shankaracharya Institute of Engineering and Technology Bhilai, Durg,
Chhattisgarh

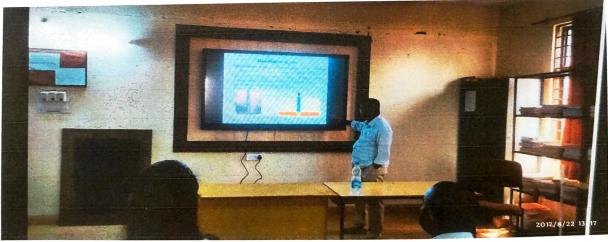

Dr. Tiwari has delivered very thought full Knowledge in the field of Pile Foundation. In his deliberation he has given very important information of Foundation. The guest is very use full knowledge of students and also brief them Historical, Function of piles, Classification of piles, Advantages and disadvantages of different pile material, design of pile group, pile spacing and pile arrangement, pile installation methods, load test on piles, In the Guest opinion, there are a number of points that can be considered "ready for use" in design:

- To increasing the number of piles is generally beneficial but does not always produce the optimum solution. There is an upper limit to the useful number of piles, beyond which further increase is useless or even detrimental. Conventional design results generally in a number of piles beyond this limit.
- To control the average settlement, an optimum performance is achieved by the use of piles with a length L larger than the width B of the raft, uniformly spread below the whole raft area. This is practicable for small and medium rafts, but not for large ones. In this latter case, the average settlement is but slightly reduced by the addition of piles.

- To control the differential settlements, an optimum performance is achieved by a suitable location of a relatively small number of piles, rather than using a larger number of piles uniformly spread or increasing the raft thickness. The most suited location depends on the distribution of the load; for instance, in the case of uniform load over the raft, the piles are best concentrated in the central zone (Ag/A = 0.20 to 0.45). Again, the longer the piles, the most effective they are in reducing the differential settlement.
 - the thickness of the raft affects the bending moments and the differential settlement, but has little effect on the load sharing between raft and piles and on the average settlement.

In this event more than 55 students, faculty and staff members were present .The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Complex Analysis

Program Date: 25-08-2017 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava

Keynote Speakers: Prof(Dr.) G. K. Singh, Professor of Mathematics, VGC, UP

Audience: UG and PG students and Faculty members.

[Program Details]

A Guest lecture on Complex Analysis was organized by Department of Mathematics for UG and PG students on 25-08-2017 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) G. K. Singh.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Sumana Mondal and Miss Deepalee Pandey Students from Mathematics Department welcomed the all guests.

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) G. K. Singh, started his session with the introduction of Applications of complex Analysis. Prof(Dr.) G. K. Singh, also motivate PG students for NET/SLET examinations and relate the weighted of complex Analysis in this exams. He taught each and every basic about the subject by taking relevant examples & tried to clear the concepts. He focuses on NET/SLET examinations syllabus based some MCQ's. He also cleared the doubts of students by taking real time examples.

In this program total 63 numbers of students and all faculty member of Mathematics were present.

At the end, Anchor Mrs. Yamini Yaday delivered vote of thanks to the dignitaries.

Deptt. of Mathematics Dr. C.V. Raman University Kota, 3ilaspur (C.G.)

A Report

Importance of Artificial Intelligence

Guest lecture on the topic "Importance of Artificial intelligence" was organized under the auspice of the Department of Linguistics on 31-08-2017 at Dr. C. V. Raman University, Kota, Bilaspur (C.G). Mr. Prakash Mishra welcomed our keynote speaker Mr. Satya Prakash, Assistant Professor, Department of Computer Science, Bilaspur (C.G.). Then he handed over the session to our keynote speaker Mr. Satya Prakash.

Our keynote speaker Mr. Satya Prakash started the session with an introduction to Artificial Intelligence. He told us that Artificial Intelligence is the field of study that describe the capability of machine learning just like humans and it is the ability to respond to certain behaviors also known as 'A.L'. He told that the need of Artificial Intelligence is increasing every day. Since AI was first introduced to the market; it has been the reason of quick change in technology and business fields. He told that computer scientists are predicting that by 2020, "85% of customer's interactions will be managed without a human". This means that human's simple request will depend on computers and artificial Intelligence just like when we use Galaxy to ask about weather temperature.

Then our keynote speaker talked about some of the applications on Artificial Intelligence like:

- Voice recognition
- Virtual agents
- Machine learning platform
- Ai optimized hardware
- Decision management
- Deep learning platform
- Biomatters

Robotic process automation

Text analytics and NLP

Adaptive Manufacturing

He talked in detail on the above mentioned applications. Then he talked about Artificial Neural Network (ANN). He said that Artificial Neural Network is a representative model of understanding thoughts and behaviors in terms of physical connections between neurons. He told that ANN has been used to solve a variety of problems through enabling the machine to build mathematical models to be able to initiate natural activities from brains perspective. Then he presented some uses of Siri virtual assistant .He told that siri is the well-known virtual assistant which uses voice recognition and typed command in order to perform a certain task within a device .He told that Siri is considered one of AI most used applications. He said that AI applications are a lot around us ,over the past few years smart assistants are becoming a very common technology in most of the smart devices and most importantly ,that these assistants are getting smarter than ever. In addition to the awesome help they provide us with, is that every one of these apps has unique features. At the end of the session he let the participants ask questions to quench their queries and he gave satisfying answers to the participants.

The lecture made the participants came to know more about the Artificial Intelligence and its role in our day to day life. Now they should be able to proceed with knowing and understanding the consequences of every technological trend. At the end of the session Dr.Om.Prakash Tiwari thanked our keynote speaker Mr. Satya Prakash for providing such useful information.

Report on One Day Awareness Program on "New Generation with the Power of Solar"

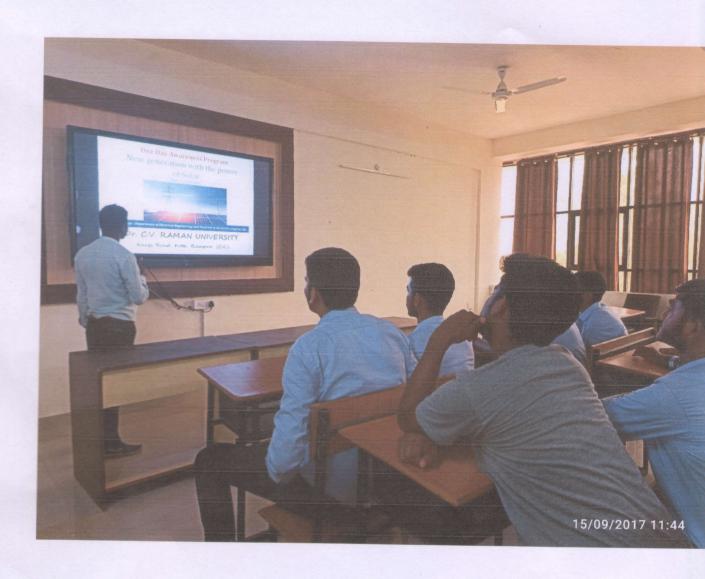

One Day Awareness Program On "New Generation With The Power Of Solar" was conducted by Department of Electrical Engineering and IQAC ,Venue Dr. C.V Raman University ,kargi road kota Bilaspur. On 15-Sep-2017.

The resource person was Mr. V.P. Gupta, Govt. Polytechnic Mahasamund. He described that the Indian solar energy sector has been growing rapidly, in the past few years, majorly due to Government's initiatives such as tax exemptions and subsidies. Due to technical potential of 5,000 trillion kWh per year and minimum operating cost, Solar Power is considered the best suited energy source for India. Today the Solar power has an installed capacity of 9.84 MW which is about less than 0.1 percent of the total installed renewable energy capacity of India as per MNRE.

In his concluding part, it was said that the future of renewable solar energy in India, is very bright, because of our strong leadership policies on clean energy programs, together with the economic and legal policies, which facilitate the use of solar energy as the main source of energy. We need a dedicated approach towards developing a structure for allowing solar panels, and solar technology to be used on a large scale in India.

The event has been a great success and beneficial to students. The coordinator of the program Mr. Amit Agrawal and supporting members were thanked for organizing such a knowledgeable lecture related to solar energy.

Name of Programme- One day National seminar on Information security awareness

Organized by- Department of Social Science and IQAC.

Date- 16th September, 2017

Detailed Report:

A one Seminar was organised on September 16, 2017 by the Department of Social Sciences and IQAC Cell of Dr C.V. Raman University.

The title of this seminar was "Information security awareness. The keynote speaker of the program was Dr. Anupam tiwari, Department of Rural technology Baster university Chhattisgarh.

At the beginning of the program, Professor Dr. Kajal Moitra, Head of the Department of Social Sciences, explained about the program outline.

The keynote speaker of the program, Dr Anupam tiwari In his lecture, explained the expansion of the information security awareness

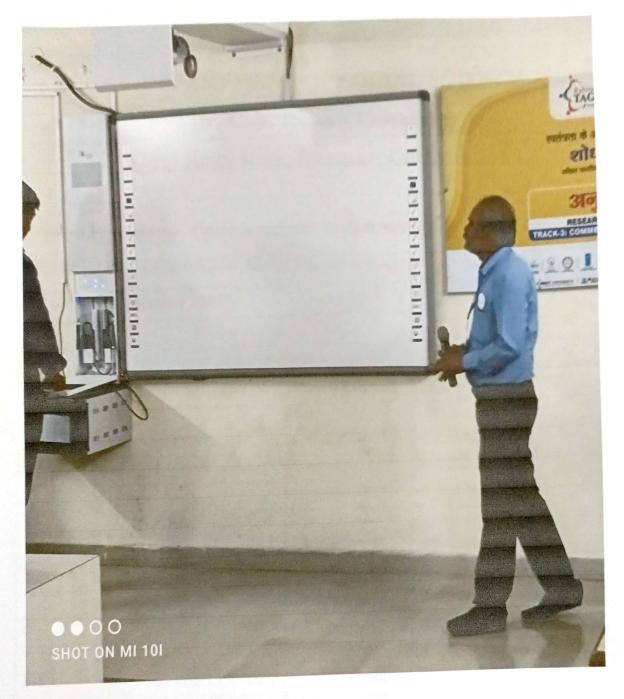

> Department of Social Science Dr. C.V. Raman University Kargi Road Kota, Bilaspur (C.G.)

at the present time and also said that by using what kind of techniques we can make our life easier.

At the end of the program, Dr. R,R.Sahu,

Department of Social Sciences proposed vote of thanks. 45 students participated in the program and all the teachers of the department were also present.

Report on Awareness on Technology

Academic Year 2017-18

To cultivate student learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students. The program was initiated to create the awareness of Computers since their usage have almost become Omni present and a part of every bodies daily lives and also important in the field of education.

Mr. Nilesh Gupta, Assistant Professor Dpt. Of Computer Science Eng., Chouksey Eng. College, Bilaspur (C. G.) on 20th Sep 2017, faculty member of Department of Computer Science Engineering. Dr. C. V. Raman University gave a session on the basic knowledge and working of computers the session was interactive. The students were also given basic practical knowledge of MS office in Computer science lab from the faculty member of department. The session has proven to be very inspiring and informative for the students.

He discussed about the significance, important features and functions of MS Word. He trained the students through a live demo of working on MS Word. He helped students to clear their doubts and at the end of this session, an assignment (Prepare a Resume) was handed by him., the Presentation of the Assignment was done by the students. He analyzed the assignments & suggested required corrections, importance and need of MS PowerPoint in the present scenario. He trained the students in using different features and functions of MS PowerPoint through a live demo of working on MS PowerPoint. He also informed about different do's & don'ts while making PPT's. He trained the students through a live demo of working on MS Excel. He helped students to clear their doubts and at the end of this session, an assignment.

Name of the program: Guest Lecture on STAAD-Pro.

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 29th September 2017

Detailed Report

The Department of civil Engineering has organized a one day Guest lecture on the topic "Guest Lecture on Software STAAD-PRO" This event was included guest lecture by the guest Mr. Mahesh Tiwari, Directorof CAD Center Bilaspur (C.G.)

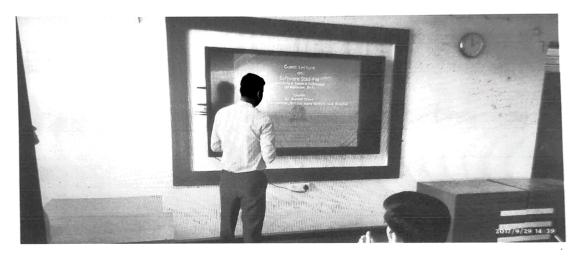

Mr. Mahesh Tiwari had given a very fruitful and informative lecture of STAAD-Pro. Software. He had delivered and focused on Function of an advanced 3DStructural Analysis and Design. Quickly solved the most complex design and analysis problem.

STAAD- Pro is one of the most widely used structural analysis and design software products worldwide. It supports over 90 international steel, concrete, timber & aluminum design codes. It can make use of various forms of analysis from the traditional static analysis to more recent analysis methods like P-delta analysis, geometric non-linear analysis, Pushover analysis (Static-Non Linear Analysis) or buckling analysis.

It can also make use of various forms of dynamic analysis methods from time history analysis to response spectrum analysis. The response spectrum analysis feature is supported for both users defined spectra as well as a number of international code specified spectra.

Additionally, STAAD-Pro is interoperable with applications such as RAM connection, Auto pipe, SACS and many more engineering design and analysis applications to further improve collaboration between the different disciplines involved in a project. STAAD can be used for analysis and design of all types of structural projects from plants, buildings, and bridges to towers, tunnels, metro stations, water/wastewater treatment plants and more.

In this event more than 40 students and faculty members were present. The event was concluded by vote of thanks which was given by the Mr.Vivek Chandel, Assistant Professor, Branch of Civil Engineering, Dr. C.V. Raman University, Bilaspur (C.G.)

REPORT OF AN INTERACTIVE SESSION ON "THE ROLE OF TECHNOLOGY IN SCIENCE"

Prog Date: 06.10.2017 Date: (07.10.2017)

An Interactive Session on "The Role of Technology in Science" on 06.10.17 had been conducted by the Department of Physics and IQAC of Dr. C. V. Raman University, Bilaspur in association with IAPT, RC-10.

The Resource person were Mr. Vivek Joglekar, Social Scientist & Science Communicator, Bilaspur Division.

The programme were started under the Chairmanship of Hon'ble Vice Chancellor Dr. R. P. Dubey Sir and delivering his lecture he said that the role of technology in science plays pivotal role of students. 83 Students were present in this esteemed event.

The resource person Mr. Vivek Joglekar expressed from first step to roof in relation to technology in science. He explored mechanics and its importance for society in the large interest of student as well as society. He said that present students are the builder of the Nation. In future such types of student's make a new India with the help of technology.

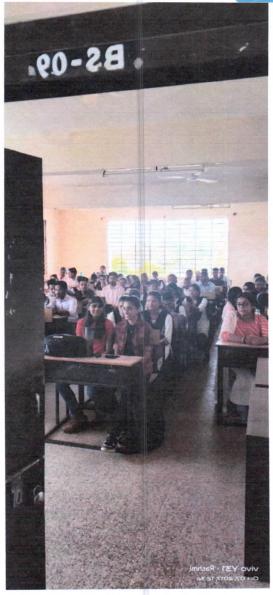

Dr. A. K. Shrivastava shared his views about the relation of technology and science very comprehensively. Dr. Manish Upadhyay, Dr. Namita Bhardwaj, Dr. S. K. Tiwari, Mr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. Satish Mishra, Mr. D. V. K. Narasingham, Mr. Sushil Kumar Sharma, Mr. Nitesh Kumar and Miss Priyanka Shukla were present all along.

Mr. Ashutosh Pandey delivered the vote of thanks at last. All the members of academic staff were presented and encouraged a lot of.

The list of students participated in the event is listed below:

S. No.	NAME	PROGRAMME	SEMESTER
1	ABHISHEK MANDAL	M.Sc. (Physics)	I
2	AMRUTANJALI HOTA	M.Sc. (Physics)	I
3	ANANDA MAHATO	M.Sc. (Physics)	I
4	ARADHANAPRIYA MAHANTA	M.Sc. (Physics)	I
5	BHOJRAM	M.Sc. (Physics)	I
6	DAVID KUMAR MAHIPAL	M.Sc. (Physics)	I
7	IYOTIRMAYEE MOHANTY	M.Sc. (Physics)	I

Notice

All the respected Deans and Hods of their respective department and students of the Mechanical Engineering are hereby informed you that Mechanical Engineering Branch is going to organize interactive session on "Present Automotive Two & Three Wheeler Technologies" on 08/10/2017. All the students can register their name in the department.

Students can get knowledge about these technologies.

Thanking you!

Report of an Interactive Session on "Present Automotive Two &

Three Wheeler Technologies"

Program Date: 08/10/2017

Venue: Conference Hall (B-Block)

An interactive session on recent scenario of energy storage systems entitled as

"Present Automotive Two & Three Wheeler Technologies" had been organized by

the department of mechanical engineering and IQAC of Dr. C. V. Raman

University, Bilaspur.

The three wheelers cater to the mobility need of those not using private transport

and not being served by existing public transport system.Mr. Ashish Paul, Prof.,

LCIT Bilaspur delivered a lecture on Present Automotive Two & Three Wheeler

Technologies and provided the Knowledge of awareness of Present Automotive

Two & Three Wheeler Technologies which is very useful. He explained the proper

application of Present Automotive Two & Three Wheeler Technologies.

In the way they serve the need of a section of the society by acting as cheap

taxis. They have smaller engine capacity and higher mileage rates than the regular

car texis.

Hon'ble Vice Chancellor R. P. Dubey also addressed for energy management

and instructed to follow applications, Mr. Harsh Pandey inspired listener to follow

proper application of Present Automotive Two & Three Wheeler Technologies.

More than 100 participants were present in this program. Mr. Nitin Shukla, Mr.

Narendra Kumar Patel, Mr. Abhijeet Gupta, Mr. Amit Kacchwaha, Mr. Manoj

Dewangan, Mr. Sandeep Kumar Sharma were present in the program all along.

At the end Mr. Manoj Kumar Devangangave vote of thanks.

SUMMARY REPORT

Name of the program:

Guest Lecture on AI & Machine Learning

Organized by:

Jointly Organized by Department of Computer Science and

Engineering & IQAC, Dr. C.V. Raman University

Date:

02nd December, 2017

Detailed Report:

The Department of Computer Science and Engineering was organized one day Guest lecture on the very interesting area which was AI & Machine Learning dated 02-December-2017. The programme started at 11:00 am with the welcome address by Dr. Rohit Miri, the expert for the event was Dr. Rohit Raja, Professor, Department of Computer Science & Engineering, Sreyash Institute of Technology, Hyderabad.

Dr. Raja had delivered a very interactive and informative session in the field of Artificial Intelligence and Machine Learning. He started the session by introducing the benefits of artificial intelligence and machine learning in today's era and explained the reason for its popularity in very simple words that Artificial intelligence is a technology that enables a machine to simulate human behavior. It is comprised of two words "Artificial" and "intelligence", which means "a human-made thinking power". The Artificial intelligence system does not require to be preprogrammed, instead of that, they use such algorithms which can work with their own intelligence. It involves machine learning algorithms such as reinforcement learning algorithms and deep learning neural networks. On the other hand, Machine learning is a subset of AI which allows a machine to automatically learn from past data without programming explicitly. The goal of AI is to make a smart computer system like humans to solve complex problems. Finally he concluded by saying that this area is huge and there is a lot of scope for research in this area.

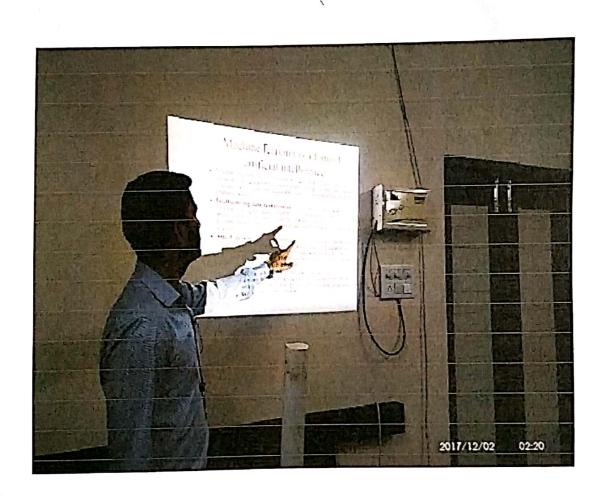

He has done one of his research work in the field of AI and ML, that is Computer Vision Application. And he also told that there are many possibilities of doing research in this field. The session was extremely motivated for Students & ended with the queries raised by the students. In this event more than 90 students, faculty members were present.

At the end of the session Dr. S.R. Tandan Assistant Professor, Department of Computer Science and Engineering presented a appreciate of token to Dr. Rohit Raja.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Head, Department of Computer Science and Engineering, Dr. C. V.Raman University, Bilaspur (C.G.).

Department of Electrical Engineering and IQAC Guest lecture On" Trends of Non-Conventional Energy Sources"

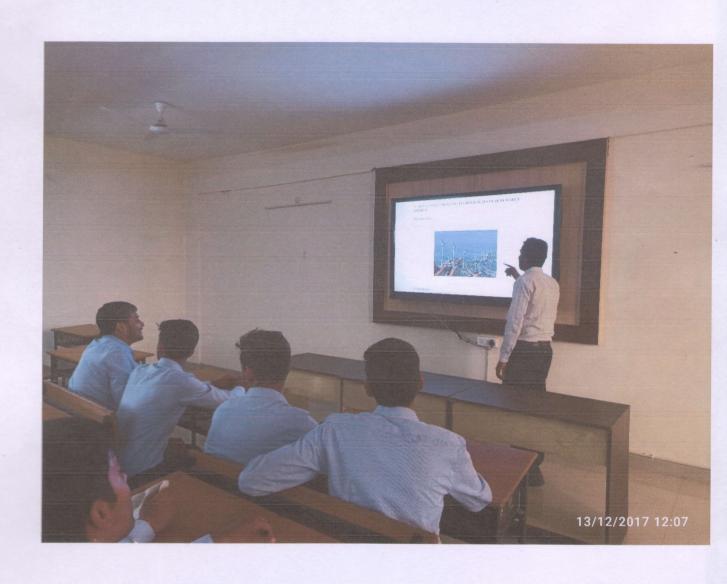

Guest lecture on "Trends of Non-Conventional Energy Sources" was conducted by Department of Electrical Engineering and IQAC, Venue Dr. C.V Raman University, kargi road kota Bilaspur. On 13-Dec-2017.

The resource person was Mr. Prashant Singh Rajput, LCIT. Bilaspur. Thirty Five students of EE branch participated in the program and enriched their knowledge and skill in Updating with "Trends of Non Conventional Energy Sources". He discussed about the Benefits of Using Renewable Energy Sources, Green Hydrogen Is Expected to Grow, Promote hybridization of solar and wind energy and build ancillary markets, Build enhanced evacuation infrastructure and Develop battery storage solutions.

Students enjoyed the lecture and got informative session.

Mr. Prashant Singh Rajput congratulated the students for enrolling in the program in large numbers. The resource person mentioned about the awareness of Smart Energy Consumption with Renewable Energy. Number of Participants was around 35, Session ended with positive feedback from all.

Notice

All the respected Deans and HODs of their respective department are hereby informed that the Department of Physics is going to organize AN INTERCTIVE SESSION ON "NANO-TECHNOLOGY PAST-PRESENT-FUTURE" 12 JAN. -2018. We are going to conduct various events in this occasion.

We request you to please circulate this information to all the students of your department as well encourage them to participate in the events.

The detail of the events has been attached herewith.

Thanking you!

REPORT OF AN INFORMATIVE SESSION ON "NANO- TECHNOLOGY PAST-PRESENT-FUTURE"

Prog Date: 12.01.2018 Date: 13.01.2018

An Informative Session on recent topic entitled "Nano- Technology Past-Present-Future" had been organized by the Department of Physics and IQAC of Dr. C.V. Raman University, Bilaspur in association with IAPT, RC-10 with August gathering.

The resource person is Dr. Anchal Shrivastava, Professor of Physics, B.H.U., Varanasi.

Now in present scenario the role of Material Science, Nanotechnology, Biomaterial Science are really very important. India has marked his achievement with long lines. Dr. Anchal Shrivastava with the slide show presentation demonstrated very nicely.

He delivered from definition of nanotechnology to preparation of nanomaterial with 360⁰ view. The properties, characteristics, importance, history, occurrence of nanomaterials presented in detail. The UG, PG, research scholars were present where all total attendees are 94. Especially the PG students and research scholars learnt a lot. They gave feedback in interactive session.

Hon'ble Vice-Chancellor expressed their view on nanotechnology and shared also the research importance of nanomaterials. Dr. A.K. Shrivastava shared his view and suggested about connectivity of nanomaterials in the research world.

Dr. A.K. Thakur, Dr. Rashmi Verma, Dr. Lata Sharma, Mr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. D.V.K. Narasingham, Mr. Sushil Kumar Sharma, Mr. Nitesh Kumar, Mr. Rajesh Kumar and Miss. Priyanka Shukla were present all along during the session.

At last Mr. Vikas Mishra gave with vote of thanks.

The list of total 94 student attendees is given below:

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Real Analysis.

Program Date: 07-02-2018 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava **Keynote Speakers:** Prof(Dr.) Dilip Kr. Jaishawal, Professor of Mathematics, SRSU(UP)

Audience: UG and PG students and Faculty members.

[Program Details]

A Guest lecture on Real Analysis was organized by Department of Mathematics for UG and PG students on 07-02-2018 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) Dilip Kr. Jaishawal.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Archana and Miss Awantika Sahu, Students from Mathematics Department welcomed the all guests. Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) M. M. Singh, started his session with the introduction of Applications of Real Analysis. Prof(Dr.) M. M. Singh, also motivate PG students for NET/SLET examinations and relate the weighted of Real Analysis in this exams. He taught each and every basic about the subject by taking relevant examples & tried to clear the concepts. He focuses on NET/SLET examinations syllabus based some MCQ's. He also cleared the doubts of students by taking real time examples.

In this program total 61 numbers of students and all faculty member of Mathematics were present.

At the end, Anchors Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

Notice

All the respected Deans and Hods of their respective department and students of the Mechanical Engineering are hereby informed you that Mechanical Engineering Branch is going to organize interactive session on "3D Printing Technology" on 15/02/2018. All the students can register their name in the department.

Students can get knowledge about this technology.

Thanking you!

Raman (C.G.)

Report of an Informative Session on "3D Printing Technology"

Program Date: 15/02/2018

Venue: Smart Classroom- DF-05

An informative session on "3D Printing Technology" had been organized by the department of mechanical engineering and IQAC of Dr. C. V. Raman University, Bilaspur.

In 3D printing, one creates a design of an object using software, and the 3D printer creates the object by adding layer upon layer of material until the shape of the object is formed. The object can be made using a number of printing materials, including plastics, powders, filaments and paper. The proper uses and the knowledge of 3D printing technology is very essential.

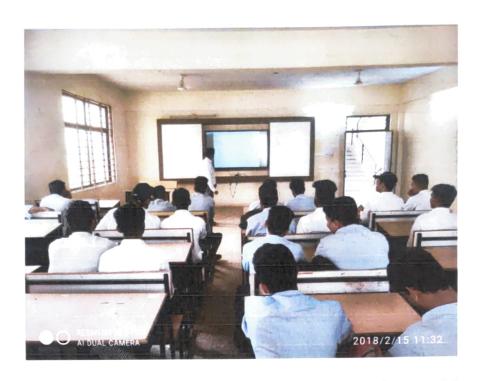

Mr. Ashutosh Kumar Jaiswal, Asst. Prof., LCIT Bilaspur delivered a informative talk on 3D printing Technology. He explained Stereolithography makes use of a liquid plastic as the source material and this liquid plastic is transformed into a 3D object layer by layer.

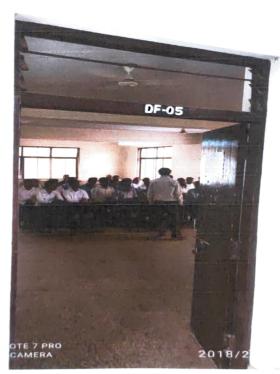

He gave example with animated video for example; the printer can extrude a second material that will serve as support material for the object being formed during the printing process. This support material can later be removed or dissolved.

Hon'ble Vice-Chancellor expressed their view on 3D printing technology and shared also the research importance of layered materials. Mr. Harsh Pandey shared his view and suggested about connectivity of printing material in the research world.

More than 100 participants were present in this program. Mr. Alok Kumar Pandey, Mr. Nitin Shukla, Mr. Narendra Kumar Patel, Mr. Abhijeet Gupta, Mr. Amit Kacchwaha, Dr. Rohit Miri, Mr. Sandeep Kumar Sharma, Mr. Dilip Kumar Yadaw were present in the program all along.

At the end Mr. Manoj Kumar Dewangan gave vote of thanks.

ONE DAY GUEST LECTURE

DIVERSITY OF VEGETATION OF INDIA

Date 06/03/2018

Department of Life Science from Dr. C.V. Raman University organized One day Guest Lecture on 06 March 2018 on Diversity of Vegetation of India on conference hall. Guest lecture focused on branches, application and area of research of science. The programme started at 12:00 pm with the welcome address by Dr. Lata Sharma. The guest speaker was Dr. Krishna Kumar Verma, Asst. Prof., D.L.S. Post Graduate, College, Sarkanda, Bilaspur(C.G.)

Dr. Krishna Kumar Verma delivered lecture

He gave some knowledgeable talk on the vegetation of India is one of the richest of the world due to the wide range of climatic condition and environment. Our country is very much rich with large number of trees, shrubs and herbal plants. He talked about these wild plants meet most requirements from food to medicine, both men and domestic animals. He said that the develop long-term institutionalized mechanism for conservation of vegetation of India, assessing their degree of threat, population status along with identifying threatened medicinal plant species and undertaking measures for their recovery. He explained the use of large number of wild plants species to fulfill diverse requirement is largely due to the prevalence of diversity of vegetation in this subcontinent with dense humid tropical and temperate forest. Vote of thanks delivered by Dr. Shweta Sao to our guest Dr. Krishna Kumar Verma.

Guest Lecture On
"ICT in Teaching"
ORGANIZED BY

DEPARTMENT OF EDUCATION

17/03/2018

REPORT OF THE PROGRAM

Department of Education of Dr. C.V.Raman University, Kota, Bilaspur (C.G.), organized an invited talk on the topic "ICT in Teaching" on 17/03/2018. The main theme and objective of this lecture was to enable teachers to become competent in innovatively employing the tools of technology to supplement their traditional teaching methods and thereby achieving enhanced student learning. The talk induced awareness amongst the students and faculty members about the uses of the ICT in teaching and its effective implementation among future students.

This Program was inaugurated by the respected Dean of Education Department Prof. Pramod Kumar Naik, Dr. C. V. Raman, University, Mrs. Manju Kanuje Assistant Professor at Swami Swarupa College, Hudco Bhilai was Invited as an expert in this program. The session was very interactive. Students actively participated in all activities and discussion. Expert addressed this critical Question: How can ICT be integrated most effectively and innovatively to support enhance and assess learning and she covered topics Digital literacy (Basic skills), Innovative teaching and ICT integration in classroom.

At the end of the session, she answered all the queries of student and there after, ended with vote of thanks presented by Dr. Senhalata Nirmalkar.

The lecture was attended by 73 B.Ed. and M.Ed. students and faculty members.

Of

ASpecial Talk

<u>On</u>

Nanotube and its application in chemical Technology

On

12-04-2018

Organized By Department of Chemistry

Dr C V Raman University

A Special talk on "Nanotube and its application in chemical Technology" Organized by Department of Chemistry on 12-04-2018. Expert for the talk was Dr Janita Saji, Department of Physical Sciences, Christ University Bangalore, India. The aim for organizing this expert talk was that over three decades, carbon nanotubes have been used in important applications, such as microelectronic circuitry and microscopy, as well as in tools designed to model biological systems and test quantum mechanics. Dr Manish Upadhyay Head of the Department of chemistry delivered the welcome speech and introduced the expert for her talk, the expert explained about nanomaterial and then explained about the nanotube and its types The key points of the talk were Materials and preparative techniques for carbon nanotubes, Synthesis of carbon nanotubes, application of carbon nanotube. The contents of the lecture were very nice and it was an excellent lecture and very significant for the students and researchers.

After the talk in questionanswer session many questions asked for the research trends in the nanomaterials and very well answered by the expert.

Circular

This is to inform that the Department of Civil Engineering is going to organize one day guest lecture on "STRUCTURAL ENGINEERING DESIGN" dated on 04th Dec. 2018 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate.

Kindly circulate this information to all the students, faculty and staff members of other institutions also.

Name of the program: Guest Lecture on Structural Engineering Design.

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 4th Dec. 2018

Detailed Report

The Department of civil engineering has organized a one day guest lecture on Structural Engineering Design. This program included a guest lecture by the guest, Mr. Nadeem Pasha Ex. Executive Engineer PHE Department C.G.

Mr. Pasha has delivered very thought full Knowledge in the field of Structural Engineering Design. In his deliberation he has given a very useful and informative lecture of Structural Engineering Design on Retaining Wall. He had delivered and focused on challenges and possibilities in Structural Engineering Design on Retaining Wall. A part from Structural Design, he gave information related to Structure Design and behavior analysis in this field. The discussion of Indian Standard Codes required for the practice of Bridge Engineering was covered in detail. Emphasis was laid on the adherence to the codal provisions.

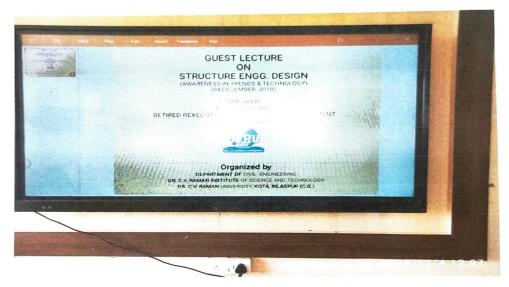

The design of bridge was covered in two parts – the design of substructure which includes soil investigation, design of foundation, design of piers, hydrological studies, and design of pier caps and bearings; the design of superstructure which includes the design of deck slab, beams, wearing surface, expansion joints, and certain functional elements like railings, lightings, footpaths etc.

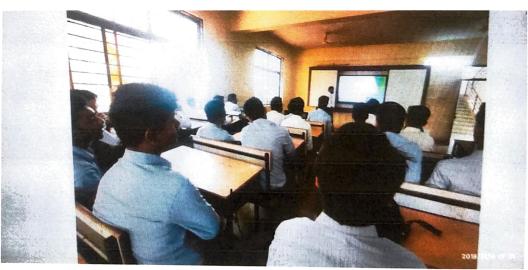

The students were able to relate to the classroom concepts while extracting knowledge from the experience of the resource person. Particular details and challenges that can rise in construction were discussed in detail including aspects of climatic conditions, risk factors, and disaster mitigation.

Learning Outcomes:-

- 1. Knowledge of application of codal provisions in practical design and construction of bridges and culverts
- 2. Recognition of preliminary essentials required prior to the design and construction of bridges and culverts
- 3. Identification and adoption of best techniques for construction in different environments.

In this event more than 55 students, faculty and staff members were present .The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

Circular

This is to inform that the Department of Civil Engineering is going to organize one day guest lecture on "PAVEMENT DESIGN" dated on 23rd May 2018 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate.

Kindly circulate this information to all the students, faculty and staff members of other institutions also.

Name of the program: Guest Lecture on Pavement Design

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 23rd May 2018

Detailed Report

The Department of engineering branch of civil has organized a one day guest lecture on **Pavement Design**. This program included an guest lecture by the guest, Ms. Vidya Fulzele, ASSTT. PROF. R.I.T. RAIPUR, C.G.

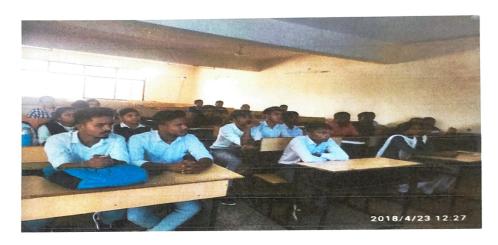

Ms. Fulzele has delivered very thought full Knowledge in the field of **Pavement Design**. In his deliberation he has given very important information of **Pavement**.

This lecture covers a brief history of highway engineering, highlighting the developments of road construction. The highway development and classification of Indian roads are also discussed. The major classes of roads include National Highway, State highway, District roads, and Village roads. Finally, issues in highway alignment are discussed. Pavements form the basic supporting structure in highway transportation. Each layer of pavement has a multitude of functions to perform which has to be duly considered during the design process. Different types of pavements can be adopted depending upon the traffic requirements.

Improper design of pavements leads to early failure of pavements affecting the riding quality also. Highway engineers must take into account future traffic flows, design of highway intersections/interchanges, geometric alignment and design, highway pavement materials and design, structural design of pavement thickness, and pavement maintenance. The modern roads by and large follow Macadam's construction method.

Use of bituminous concrete and cement concrete are the most important developments. Various advanced and cost-effective construction technologies are used. Development of new equipments helps in the faster construction of roads. Many easily and locally available materials are tested in the laboratories and then implemented on roads for making economical and durable pavement.

In this event more than 55 students, faculty and staff members were present .The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

SUMMARY REPORT

Name of the program:

Expert talk on Green Computing

Organized by:

Jointly Organized by Department of Computer Science and

Engineering & IQAC, Dr. C.V. Raman University

Date:

05th June, 2018

Detailed Report:

The Department of Computer Science and Engineering was organized one day expert talk on the very interesting area which was Green Computing dated 05th June, 2018. The programme started at 11:00 am in Computer Lab. Dr. Rajkumar Patra, Professor, CMR Technical Campus, Hyderabad, invited as Expert for this event. He was heartily welcomed by Ms Shubhangi Pathak, Assistant Professor, Department of Computer Science and Engineering, Dr. C.V. Raman University, Bilaspur(C.G.).

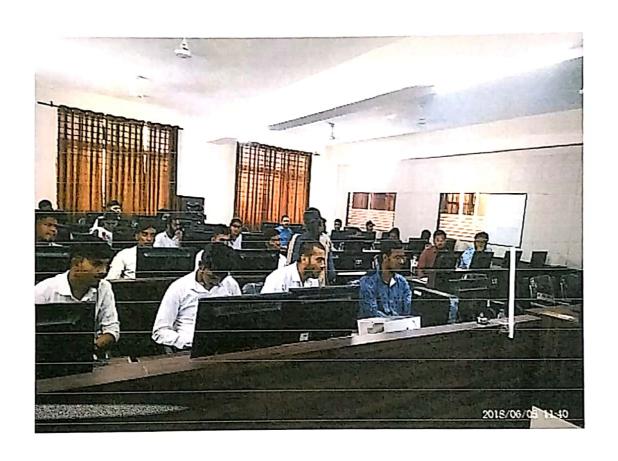

Dr. Rajkumar Patra session was very interactive and students participated enthusiastically. In the beginning Dr. Patra started the session by introducing Green Computing in very simple words. He said that Green computing is the environmentally responsible and eco-friendly use of computers and their resources. In broader terms, it is also defined as the study of designing, engineering, manufacturing, using and disposing of computing devices in a way that reduces their environmental impact. He also shared the benefits and importance of green computing with the participants. Apart from this, Dr. Patra consistently delivered very thoughtful lectures on green computing techniques to create awareness amongst devices. In his speech, he had given very important information to protect the environment. It was a great learning experience as per the feedback received from the participants, the lecture helped them to understand about Green Computing. Throughout the session, the students and the faculty associated with him with great

enthusiasm and he also asked him a lot of questions. More than 90 students, faculty members were present in this event. At the end of the session Mrs. Yukti Kesharwani, Assistant Professor Department of Computer Science and Engineering presented a appreciate of token to Dr. Rajkumar Patra.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Head, Department of Computer Science and Engineering, Dr. C. V.Raman University, Bilaspur (C.G.).

A Report

Cyber Security

Guest lecture on the topic **Cyber Security** was organized on 23-07-2018, under the auspice of Department of Linguistics at Dr. C. V. Raman University. Aforementioned guest lecture let the participants came to know about the theft and fraud, online fraud, Cyber-enabled abuse, online image abuse, affected devices etc. Dr. Manisha Dwivedi, Head, Department of Linguistics welcomed our keynote speaker Dr. Amit Singh, Assistant Professor, Government College, Mungeli, Bilaspur (C.G). She welcomed all the participants then she handed over the session to our keynote speaker Dr. Amit Tiwari.

Dr. Amit Tiwari started the session by giving a brief introduction about Cyber Security. He said Cyber Security is security as it is applied to information technology. This includes all technology that stores, manipulates or moves data such as computers, data networks, and all devices connected to or included in networks, such as routers and switches. He said that all information technology devices and facilities need to be secured against intrusion, unauthorized use, and vandalism. He insisted that the users of information technology should be protected from theft of assets, extortion, and identity theft, loss of privacy and confidentiality of personal information.

He also talked on some points as:

- Security
- Computer security
- Internet security
- Network security
- Data security
- Cryptography
- Steganography
- Cyber threats

He talked about the art of secret writing or code. He explained how a plaintext message is

converted by the sender to "cipher text" by means of a mathematical algorithm that uses a secret

key. The receiver of the message then reverses the process and converts the cipher text back to

the original plaintext. Then he gave us some information about steganography, the art of hidden

writing. The secret message is hidden within another object, such as a digital photograph. He

gave the example of the portrait of Monalisa to put his views.

Then our keynote speaker spoke on hoe to secure networked computers, mobile devices and

terminals. He talked about securities like:

Antivirus software

Windows defender

Internet security Association and key management protocol.

• Firewall computing

Network security services

Security log

Router security

Dr.Amit Singh spoke on the above points, and then he concluded the session by taking a

feedback from the participants. All the participants gained a huge knowledge about the spreading

cyber crime and came to know about how to be secure.

At the end of the session Mr.Prakash Mishra gave vote of thanks to our keynote speaker and he

also thanked all the participants for making the session a success.

The Expert Talk On

Cannizzaro reaction and its applications with new trends and technology

On 12-08-2018

Organized By Department Of Chemistry

Detailed Report

The expert talk on Cannizzaro reaction and applications with new trends and technology organized by department of chemistry on 12-08-2018. the keynote speaker for the talk was Dr Gauri Shankar Roy Mahapatra Associate Professor, School of Science and Humanities, Haldia Institute of Technology Haldia (WB). The topic was Cannizzaro reaction and its applications. 45 students participated in the talk. Talk started with the welcome speech by Dr Jayati Chatterjee Mitra Head of the department. The summary of talk was included the detailed about the Cannizzaro reaction its mechanism and application. The combination of crossed Cannizzaro reaction and aldol condensation is used in the industry to prepare polyols. Polyols are very useful and find many industrial applications. Mr Mahapatra interacted with the students and delivered very significant lecture on the topic, the topic was very important for the chemistry students and they have learnt new applications also.

Question answer session was also very nice and students asked many question regarding cross Cannizzaro reaction and expert angered all the questions very nicely.

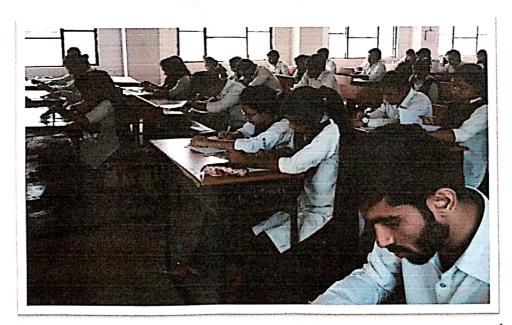

Vote of Thanks given by Dr Milan Hait Assistant Professor department of chemistry

REPORT ON

ONE DAY GUEST LECTURE

RECENT TRENDS ON TRICHODERMA AND PSEUDOMONAS IN AGRICULTURE

DATE 13/08/2018

Department of Life Science from Dr.C.V. Raman University organized a one day Guest Lecture on 13/08/2018 on titled "Recent Trends on Trichoderma and Pseudomonas in Agriculture" lecture delivered on conference hall. Guest lecture focused on branches, application and area of research of science. The programme started at 2:30 pm with in-lighting candles and Saraswati vandana the welcome address by Dr. Shweta Sao. The Speaker was Dr. Avinash kumar Sharma Asst. Prof. Govt. N.P.G. Science College Raipur (C.G.)

Dr. Avinash kumar Sharma delivered lecture

He gave some knowledgeable lecture on plant-beneficial pseudomonades that colonize roots of agricultural crops provide important services to the agro ecosystem as they promote plant growth and health by suppressing soil borne diseases, by stimulating plant immune defenses, and by improving nutrient availability in soil and Trichoderma spp. significantly suppress the growth of plant pathogenic microorganisms and regulate the rate of plant growth. Recent works have shown that common plant disease such as root rot disease, damping off, wilt, fruit rot and other plant diseases can be controlled by Trichoderma spp. Vote of thanks given by Dr. Amit Sharma.

SUMMARY REPORT

Name of the program:

Guest Lecture on Internet of Thing (IoT)

Organized by:

Jointly Organized by Department of Computer Science and

Engineering & IQAC, Dr. C.V. Raman University

Date:

03rd September, 2018

Detailed Report:

The Department of Computer Science and Engineering was organized one day Guest Lecture on the topic "Internet of Thing (IoT)" dated 03rd September, 2018. The programme started at 11:00 am in 'C' Block Computer Lab. Mr. Vishnukant Soni, Head, Department of Computer Science & Engineering LCIT, Bilaspur, invited as Guest for this event. He was heartily welcomed by Mrs Yukti Kesharwani ,Assistant Professor , Department of Computer Science and Engineering , Dr. C.V. Raman University ,Bilaspur(C.G.). Mrs Yukti Kesharwani introduced the Guest to the audience. Dr. Rohit Miri (HOD, CSE Dept.) welcomed Mr. Vishnukant Soni with a bouquet. The session was then taken over by the Mr. Vishnukant Soni.

Mr. Soni had given very interesting and interactive lecture on IoT. He started his session by saying that Internet of Thing is one of the most demanding area of research now a days. Later he explained IOT and its history in very simple terms that, it refers to the collective network or connected devices and technology that facilitates communication between devices and the cloud as well as the devices themselves. He also described its evolution and outlining its future. Mr. Soni mentioned that over the past few years, IoT has become one of the most important technologies of the coming year. Now that we can connect everyday objects-kitchen appliances, cars, thermostats, baby monitors-to the internet via embedded devices, seamless communication is possible between people, processes, and things.

The Guest Speaker explained the state of art for IOT. He spoke about the challenges and issues involved in IOT. He explained the layered architecture for IOT to ensure security. He gave a brief description about the datacenters and impact on datacenters. He elaborated on what is SDDC and its architecture. He motivated the students by speaking about the Research Directions in IoT and the opportunities that are available in the field of IOT.

It was a great learning experience as per the feedback received from the participants, the lecture helped them to understand about IoT. The students and faculty associated with him with great

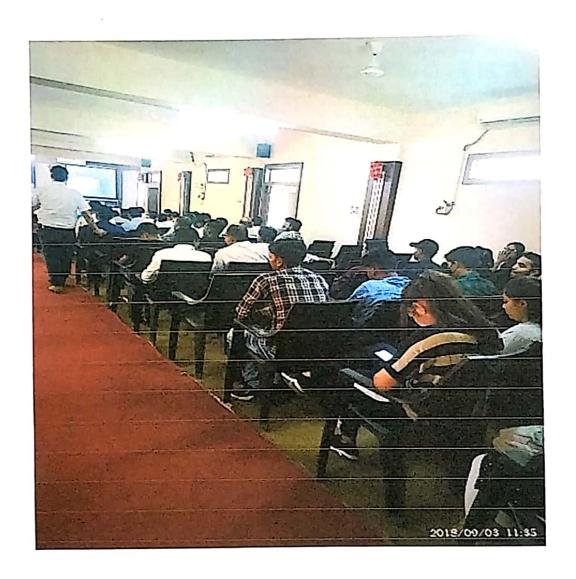

enthusiasm throughout the session. The program ended with a Q&A session, where the Speaker cleared the doubts of the students. More than 63 students, faculty members were present in this event.

At the end of the session Mr. Vivek Shukla Assistant Professor, Department of Computer Science and Engineering presented a appreciate of token to Mr. Soni.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Head, Department of Computer Science and Engineering, Dr. C. V.Raman University, Bilaspur (C.G.).

Circular

This is to inform that the Department of Civil Engineering is going to organize one day Expert Talk on "EDM" dated on 11th September 2018 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate.

Kindly circulate this

information to all the students' faculty and staff members' of other institutions also.

Name of the program: Expert Talk on EDM

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 11th September 2018

Detailed Report

The Department of civil engineering has organized a one day Expert talk on **EDM**. This program included an expert talk by the guest, **Mr.L.N.Swarnakar**, **Director**, **GS Survey Associate**, Bilaspur, and Chhattisgarh

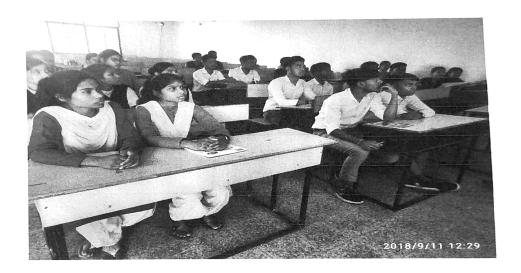

Mr. Swarnkar has delivered very thought full Knowledge in the field of TOTAL STATION. Total station is an electronic/optical instrument used in modern surveying and building construction that uses electronic transit theodolite in conjunction with electronic distance meter (EDM). It is also integrated with microprocessor, electronic data collector and storage system. The instrument is used to measure sloping distance of object to the instrument, horizontal angles and vertical angles. This Microprocessor unit enables for computation of data collected to further calculate the horizontal distance, coordinates of a point and reduced level of point. Data collected from total station can be downloaded into computer/laptops for further processing of information. Total stations are mainly used by land surveyors and civil engineers, either to record features as in topographic surveying or to set out features (such as roads, houses or boundaries). They are also used by archaeologists to record excavations and by police, crime scene investigators, private accident Reconstructions and insurance companies to take measurements of scenes.

After the theory class filed measurement was started. The final year students were grouped into group, they started to do work with the total station.

OUTCOMES: After the workshop the students can able to do following measurement

- Area calculation.
- Length, height, distances calculation.
- Horizontal and vertical angle calculation.
- · Project mapping.

In this event more than 55 students, faculty and staff members were present .The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

BRIEF REPORT OF THE PROGRAM

One Day Invited Lecture on "Virtual Reality" was organized by Department of Information Technology & Computer Science and Internal Quality Assurance Cell (IQAC), Dr. C.V.Raman University, Kota, Bilaspur (C.G.) on 1st October, 2018.

The main objective of this program is to provide knowledge of Virtual Reality and its applications in various fields to the students so that they can develop the necessary skills and better understanding for Virtual Reality.

This program was inaugurated by Mr. Gaurav Shukla the Honorable Registrar of Dr. C. V. Raman University, Bilaspur (C.G.). Dr. Ragini Shukla, Dean of IT & CS Department and Dr Manish Upadhayay were present as special guests in this program. In order to enrich all the participants with her knowledge, Ms. Anupama Pandey, Assistant Professor, D. P. Vipra College, Bilaspur (C.G.), was invited as an expert. 67 students were participated in this invited lecture. Mr. Suraj Keshari, Assistant Professor was in-charge of this program.

At the beginning of the program, Mr. Gaurav Shukla, Dr. Ragini Shukla, Ms. Anupama Pandey, faculty and staff members of department and all the participants were warm welcomed by Mr. Abhinav Shukla, Head of IT & CS Department. After this, Mr. Ayush Agrawal, Assistant Professor of IT & CS Department, introduced to Ms. Anupama Pandey and discussed the objectives and schedule of the program.

In the beginning of the program, Ms. Anupama Pandey defines the Virtual Reality and differentiates the Virtual Reality (VR) and Augmented Reality (AR). After this, she explained the various features and benefits of Virtual Reality. She explained the application of Virtual Reality include entertainment (e.g. video games), education (e.g. medical or military training), Automobile Sectors, etc. She described the various forms of Virtual reality and methods used to create virtual reality programs in detail.

At the end of the program, the participants asked many questions to the expert and all once are satisfied with suitable answers. In the end, Mr. Vineet Awasthi, Assistant Professor, IT & CS Department expressed gratitude to all the participants of the workshop.

This report has been varied by HOD of Department of IT & CS.

A REPORT

Global Trends in ICT and Education

Guest Lecture on Global Trends in ICT and Education was conducted on 10-01-2018, under the auspice of Department of Linguistics. The chief objective is to study the impact of the various global trends on students. The importance of wireless technology in today's communication was discussed.

Dr. Ved Prakash Mishra, Dean, Faculty of Arts, CVRU welcomed Mrs. O. P. Kashyap, Assistant Prof., Govt. College, Baloda and hand over the session to her.

Day-Wednesday Date: 10-01-2018

Mrs. O. P. Kashyap spoke on the latest trends adapted globally. She presented his views on cloud computing. She talked about the challenge on providing the ubiquitous connectivity to access information sitting in cloud. She spoke about the trends expected to continue and to challenge many of the delivery models fundamental to formal education as it is practiced in most countries. She presented the global trends in ICT and Education. She spoke on the many points like:

- Mobile Learning
- Cloud computing
- One-to-one Computing
- Ubiquitous learning
- Personalized Learning
- Redefinition of Learning spaces
- Teacher generated open content
- Smart portfolio assessment
- Teacher Mentors

She spoke on the above points; she said that new advancements in hardware and software are making mobile "smart-phones" indispensible tools. The challenge will be providing the connectivity to access information sitting in the "cloud". She said that the trend in classrooms around the world is to provide an information appliance to every learner and create learning environments that assume universal access to the technology.

She also said that this trend requires a rethinking of the traditional 40 minutes lesson. In addition to hardware and internet access, it requires the availability of virtual mentors or teachers and opportunities for peer to peer and self paced learning. She said that education systems are increasingly investigating the use of technology to better understand a students' knowledge.

She also threw light on the nature of ICT and continues his words that ICT is in constant evolution. However, 2020 was a perfect storm that accelerated the growth of a number of trends and shone a spotlight on the critical role technology now plays in reacting to, and mitigating the impact of, unanticipated worldwide crises. Having the right properly-maintained infrastructure in place has never been more important for individuals, companies, governments and NGOs.

The participants were made up to date with the global trends in ICT and Education.

Finally vote of thanks was given by Dr. Manisha Dwivedi, Head, Department of Linguistics. She thanked Mrs. O. P. Kashyap for giving such a useful information and guidance.

She also thanked the participants for their active participation and sharing their feedback.

Report of One day Informative Talk on "Understanding Automotive Industry"

Program Date: 03/10/2018

Venue: Smart Classroom- DF-05

An informative talk session on "Understanding Automotive Industry" had been organized by the department of mechanical engineering and IQAC of Dr. C. V. Raman University, Bilaspur.

The automotive industry is served by a number of industry associations. These associations are tasked with providing standards for how automotive companies exchange information electronically with each other. Dr. Devesh Shrivatava, Assistant Professor, BIT Durg gave invited informative talk on Automotive Industry said as a large part of all economies, auto manufacturing gets a lot of attention. Two areas where it was receiving the most attention in 2018 include the production of electric cars and international tariffs.

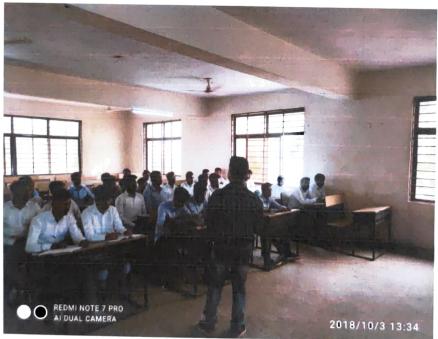

He explained the existing technology is provided. The assembly systems are unable to cope with the requirements of mass customization and need to be enriched with new technologies for a higher flexibility potential.

Hon'ble Vice Chancellor Dr. R. P. Dubey expressed their views on current scenario of automotive industry. Need to resolve it. Mr. Nitin Shukla expressed their views for student to take challenge as such industry problems for better carrier opportunities.

More than 85 participants were present in this program. Mr. Nitin Shukla, Mr. Narendra Kumar Patel, Mr. Abhijeet Gupta, Mr. Amit Kacchwaha, Mr. Manoj Dewangan, Mr. Sandeep Kumar Sharma, Mr. Dilip Kumar Yadaw were present in the program all along.

At the end Mr. Amit Kumar Kacchwaha gave vote of thanks.

Kargi Road Kota, Bilaspur, Chhattisgarh

Report on

Name of Programme- One day National seminar on Information security Awareness programme

Organized by- Department of Social Science and IQAC Date- 03rd October, 2018

Detailed Report:

A one day national seminar was organized by the Department of social science and IQAC Cell on 03rd October, 2018 on the topic of Information Security Awareness.

The main Speaker at the event was Ms Richa Handa, Assistant Professor, Department of computer science D.P. PG college Bilaspur Chhattisgarh.

In this one day seminar Richa Handa Madam explained benefits of awareness programme and also said Information Security Awareness Program is an organized effort to make employees and customers aware of risks to personal and institutional information and information technology, and to provide them with the skills and knowledge necessary to avoid those risks, while the program can be focused on one specific group (e.g., leadership), to be effective in its maturity the program should address all stakeholders, including leadership, employees, customers (i.e., students), and partners (i.e., external service providers

Department of Social Science Dr. C.V. Raman University Karal Road Kota, Bilasour (G.G.) 45 students participated in the program and at the end of the programm, Professor Kajal Moitra gave a brief description of the program and thanked all the guests.

Dr. C. V. Raman University Department of Commerce and Management Report on Awareness on Technology

Academic Year 2018-19

To cultivate student learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students The program was initiated to create the awareness of Computers since their usage have almost become universal and a part and parcel of every bodies daily lives and also important in the field of education.

Mr. Asish Rajput, CTO ELANAR Technocrates Private Limited, Bilaspur. He took a session on Software Development Lifecycle & Methodologies on 24th Oct.'2018.

Number of beneficiaries are given below:

Year	No. Of Students
2018-19	35

Dr. Niket Shukla

Head

Dept. of Commerce and Management

Date: ...2.6...12.2018

Notice

All the respected Deans and HODs of their respective department are hereby informed that the Department of Physics is going to conduct AN INTERACTIVE TALK ON "RECENT TRENDS IN MATERIAL TECHNOLOGY" 31 OCTOBER 2018. We are going to conduct various events in this occasion.

We request you to please circulate this information to all the students of your department as well encourage them to participate in the events.

The detail of the events has been attached herewith.

Thanking you!

REPORT OF AN INTERACTIVE TALK ON "RECENT TRENDS IN MATERIAL TECHNOLOGY"

Prog Date: 31.10.18 Date: 02.11.18

An Interactive talk on "Recent trends in Material Technology" had been organized by the Department of Physics and IQAC of Dr. C.V. Raman University, Bilaspur in association with IAPT, RC-10.

The importance of elements is very important for the human being. It is well known that more than 118 elements in the periodic table. Material Science and Biomaterial Science has become burning topic in research field.

The keynote speaker was Dr. H. S. Tewari, Professor of Physics, GGU, Bilaspur (Central University)

Dr. Tewari expressed his views on recent trends in material technology with the help of his impactful presentation. He presented nicely and stated the research map of in the area of material research. Although he gave examples of research centers and NPL, PRL and distinguished research centre of material science which is related with this. The number of participation is 95 in this event. Especially research scholars have learnt a lot.

Honorable Vice- Chancellor expressed his pleasure on such type of topic and instructed to organize such type of events frequently in future as well. Dr. A. K. Shrivastava explained the details of the element in the later part.

All the faculty members were present. Dr. M. Z. Khan, Dr. Namita Bhardwaj, Mr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. D.V.K. Narasingham, Mr. Sushil Sharma, Mr. Nitesh Kumar, Mr. Rajesh Tiwari, Ms Priyanka Shukla all were present.

At the very last Mr. D. V. K. Narasingham concluded the session with his vote of thanks.

The list of 90 attendees is below:

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Mathematical Analysis.

Program Date: 18-11-2018 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava

Keynote Speakers: Prof(Dr.) Barun Yadav, CEC, Bilaspur. **Audience:** UG and PG students and Faculty members.

[Program Details]

A Guest lecture on Mathematical Analysis was organized by Department of Mathematics for UG and PG students on 18-11-2018 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) Barun Yadav.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Deepika Sahu and Miss Aarti, Students from Mathematics Department welcomed the all guests.

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) H. N. Sharma, started his session with the introduction of Mathematical Analysis and one by one he gives the basic of several topics of applied mathematics. Prof(Dr.) H. N. Sharma, also motivate PG students for NET/SLET examinations and explain the role and weighted of Mathematical Analysis in this exams. He taught each and every basic about the subject by taking relevant examples & tried to clear the concepts. He focuses on NET/SLET examinations syllabus based some MCQ's. He also cleared the doubts of students by taking real time examples.

In this program total 77 numbers of students and all faculty member of Mathematics were present.

At the end, Anchors Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

The Expert Talk On

New Trends and Technology in Symmetry of Elements

On 22 November 2018

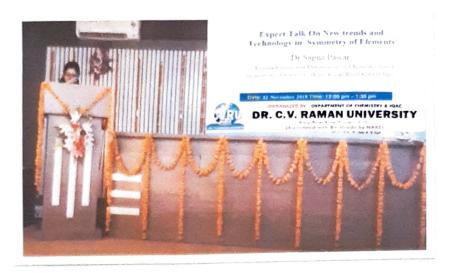

Organized By Department of Chemistry Detailed Report

The expert talk on New Trends and technology in Symmetry of Elements organized by department of chemistry on 22 November 2018. The keynote speaker for the talk was Dr Sapna Pawar Assistant Professor Department of Chemistry, Govt Niranjan Kesharwani College, Kargi Road Kota Bilaspur (CG). The talk started with the welcome speech by Dr Jayati Chatterjee Mitra Head of the Department of Chemistry. She gave brief introduction about the keynote speaker and invited the speaker Dr Sapna Pawar for her talk 68 students attended the symmetry operations five type talk lecture. summary including identity, reflection, inversion, proper rotation, and improper rotation. The improper rotation defined as the sum of a rotation followed by a reflection. The Lecture also covered the point groups. It was very nice and significant lecture. Dr Pawar explained each and every aspects of the topic and answered all the questions asked from students.

In the end of talk vote of thanks given by Dr Rashmi Verma Assistant professor department of chemistry.

Report of Guest Lecture on

Topic: Technology transfer in agriculture

In order to lecture session Department of Rural Technology, Dr. C. V. Raman University, Bilaspur organized a Guest Lecture on the topic "Technology transfer in agriculture" for the M. Sc. Rural Technology and PGDRD 2018-19 Batch Students on 10th Dec 2018. It was a very informative and interactive session. The Guest Speaker for the session was Dr. Rajesh Kapoor who is currently designated as the Energy Scientist, Seva Shikshan Sansthan, HP.

Dr. Kapoor has over 40+ years of diverse functional experience which includes Cultivar Development, Farm management, Agriculture Project Management, Agri-Business Development & Agronomic advisory across India, Energy plantation and research etc.

The aim of the guest lecture series was to equip students with the latest theories and practices in the modern agricultural field. This guest lecture session had aim to pool the ideas of academicians and farm enterprises for enriching the student's community.

He began the lecture by stating a quote "Soil is a living ecosystem, and is a farmer's most precious asset. A farmer's productive capacity is directly related to the health of his or her soil" - Howard Warren Buffett. According to him, farmers are solely responsible for any countries growth and development. The speaker stressed in clear directions that the students must have strong knowledge about Agriculture and rural development, which are very important.

Lecture delivered by Dr. Rajesh Kapoor at Auditorium Hall.

He also informed the students about the various career opportunities in Agriculture as well as rural technology graduates in the fields of Research, Consulting, Entrepreneurship & ABM. Further, he also elucidated various career opportunities in Livelihood mission, agricultural projects etc. After delivering his lecture he encouraged students to clear their doubts.

It was a very informative and interactive session where students came to know about their career choices in agriculture projects, Agriculture based entrepreneurship & Livelihood projects.

Report on Awareness on Technology

Academic Year 2018-19

To cultivate student learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students The program was initiated to create the awareness of Computers since their usage have almost become universal and a part and parcel of every bodies daily lives and also important in the field of education.

ON 17 th Dec.'18 **Ms. Richa Handa**, Assistant Professor, D.P. Vipra College, Bilaspur was invited to explain students regarding the **internet and email use.** In this regard she explained the following things:

- sending and receiving information, notes, memos, documents and messages.
- as a marketing tool, to promote an organisation or to facilitate e-commerce.
- as a recruitment tool.
- for web-based training

Number of beneficiaries are given below:

Circular

This is to inform that the Department of Civil Engineering is going to organize one day guest lecture on "HIGHWAY MATERIAL" dated on 2nd May 2019 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate.

Kindly circulate this

information to all the students' faculty and staff members' of other institutions also.

Name of the program: Guest Lecture on Highway Material

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

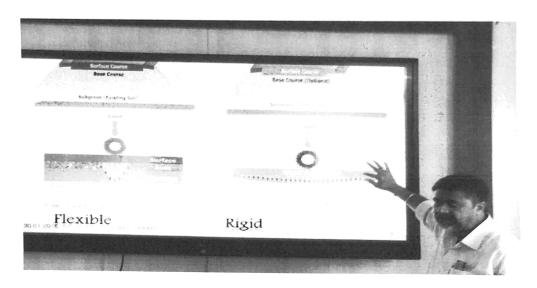

Date: 2nd May 2019

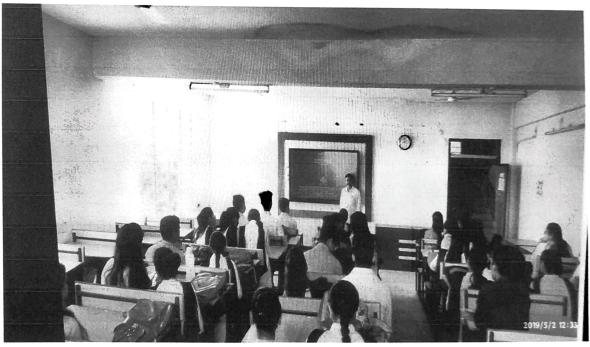

Detailed Report

The Department of civil engineering has organized a one day guest lecture on Highway Material. This program included a guest lecture by the guest, Dr. M.K. Tiwari (HOD of Civil Engineering Department) Shri Shankaracharya Institute of Engineering and Technology Bhilai, Durg, Chhattisgarh

Dr. Tiwari has delivered very thought full Knowledge in the field of Highway Material. In his deliberation he has given very important information of Pavement. This lecture covers a brief Pavement Structure Materials Sub base - The proposed sub base layer is to consist of river gravel (shingle), sand, soil blend with a 4 day soaked CBR of 30% and a maximum PI of 6%. Other possibilities include stabilizing the sand soil blend proposed for the improved sub grade above. Base Material -While it is theoretically possible to produce a base course by stabilizing low quality 19 soils, it is good practice to start with a material that is of sub base quality. This is especially important as stabilized pavement layers tend to crack, especially ones with a high percentage of stabilizers, and while this does not affect a stabilized layer's performance to any large degree, the cracks will allow the entry of water into the pavement structure and will weaken it. Surfacing Materials - The aggregate materials for road surfacing found in the project area, and likely to be available for use in future contracts, were found to be suitable for use as sealing aggregate in asphalt concrete seals

In this event more than 55 students, faculty and staff members were present .The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

GUEST LECTURE

ON

SNAKE AWARENESS

DATE: 06/02/2019

Department of Life Science from Dr. C. V. Raman University organized one day Guest Lecture dated 06/02/2019 on Snake Awareness at Seminar hall. Guest lecture focused on snake conservation. The programme started at 12:00 noon with the welcome address by Dr. R.K. Singh with enlisted candles. Shri Aman Kumar Toppo, Asst. Prof., S.S.G.R. Govt. College Sargaon Mungeli (C.G.) was our guest speaker.

Welcome of our guest by Dr. R.K.Singh

Shri Aman Kumar Toppo gave the lecture about snake awareness. It was one of the effective measures to help people live peacefully with animals. He said about the deaths due to poisonous snake bite are common in rural part of India. Most people kill the snake after it bites someone, and treated patient by some Baba with mantra & some herbal remedies. Often the patient is taken to hospital too late to be saved. He told real thing was that we can avoid such deaths with first aid & early intervention of proper treatment in well equipped hospitals. During lecture he specially focused on misconceptions and false belief about snakes, which are major cause for increase in mortality of snakes. Snakes are important part of nature & helpful for maintaining ecological balance thus we need to save them. Vote of appreciation was delivered by Dr. Shweta Sao.

Notice

All the respected Deans and Hods of their respective department and students of the Mechanical Engineering are hereby informed you that Mechanical Engineering Branch is going to organize interactive session on "Productivity through Technologies" on 12/02/2019. All the students can register their name in the department.

Students can get knowledge about this technology.

Thanking you!

Report of an Interactive Session on "Productivity through Technologies"

Program Date: 12/2/2019

Venue: Smart Classroom DF-05

An interactive session on recent scenario of energy storage systems entitled as "Productivity through Technologies" had been organized by the department of

mechanical engineering and IQAC of Dr. C. V. Raman University, Bilaspur.

The responsibility for increasing productivity should weight more heavily on managers and business owners.Mr. Sandip Kumar Sahu, Asst. Prof., GEC

Bilaspur, delivered a lecture on Productivity through Technologies and provided

the Knowledge of awareness of Productivity through Technologieswhich is very

useful. He explained the proper application of Productivity through Technologies

He said the benefit of the use of Productivity through Technologiesincreased productivity due to technology has become not only a convenience, but a necessity.

Hon'ble Vice Chancellor R. P. Dubey also addressed for energy management and instructed to follow applications, Mr. Harsh Pandey inspired listener to follow proper application of Productivity through Technologies.

More than 100 participants were present in this program. Mr. Nitin Shukla, Mr. Narendra Kumar Patel, Mr. Abhijeet Gupta, Mr. Amit Kacchwaha, Mr. Manoj Dewangan, Mr. Sandeep Kumar Sharma were present in the program all along.

At the end Mr. Sandeep Kumar Sharma gave vote of thanks.

REPORT

Name of the program: Guest Lecture on Educational Planning and

Management

Organized by: Department of Education

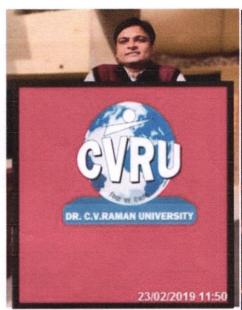

Dr. C.V.Raman, University Date: 23rdFebruary, 2019

Detailed Report: Department of Education, Dr. C.V. Raman University, organized a Guest Lecture on "Educational Planning and Management" on 23rdFebruary, 2019. The program was inaugurated by Mr. Gaurav Shukla, Registrar of Dr. C.V. Raman University, Bilaspur (C.G.).

The guest lecture gathered eminent speaker: Mr. Sipesh Jain, Assistant Professor, Govt. College, Kota, Bilaspur (C.G.). The lecture was attended by 111 B.Ed. and M.Ed. students and faculty members. The guest speaker was heartily welcomed by Mr. Krishna Kumar Pandey. The session was very interactive and students participated ethusiastically. The lecture aimed at educating the student- teachers about the importance, meaning and scope of communication, thereby, providing them a wider perspective about using various advanced methods and technological tools in order to reach out to their students effectively. In the beginning of the lecture, Mr. Sipesh Jain acknowledged the crowd about Educational Planning and Management with suitable examples. He explained various concepts and principles of Educational Planning and Management. Students absorbed the information & shared their experiences on the issues. The lecture was finally concluded by creating an interactive discussion platform.

The vote of thanks was given by Mr. Krishna KumarPandey, in-Charge of Awareness program.

As per the feedback received by the students, it was remarkable experience; the lecture helped them in their understanding.

BRIEF REPORT OF THE PROGRAM

One Day Invited Lecture on "Artificial Intelligence" was organized by Department of Information Technology & Computer Science and Internal Quality Assurance Cell (IQAC), Dr. C.V.Raman University, Kota, Bilaspur (C.G.) on 8th March, 2019.

The main objective of this program is to provide knowledge of Artificial Intelligence and its applications in various fields to the students so that they can gain the elementary knowledge about Artificial Intelligence.

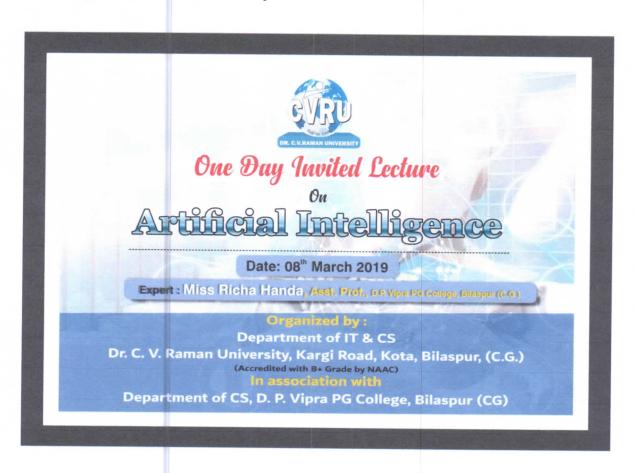

This program was inaugurated by the Dr. Ragini Shukla, Dean of IT & CS Department. Dr. Manish Upadhyay, Principal, Dr. C. V. Raman Institute of Science & Technology of this university was present as special guests in this program. In order to enrich all the participants with her knowledge, Ms. Richa Handa, Assistant Professor, D. P. Vipra College, Bilaspur (C.G.), was invited as Guest Lecturer. 78 students were participated in this invited lecture.

At the beginning of the program, Dr. Ragini Shukla, Dr. Manish Upadhay, Ms. Richa Handa, faculty and staff members of department and all the participants were warm

welcomed by Mr. Abhinav Shukla, Head of IT & CS Department. After this, Mr. Suraj Keshari, Assistant Professor of IT & CS Department, introduced to Ms. Richa Handa and discussed about the objectives and schedule of the program.

Ms. Richa Handa started her lecture by defining Artificial Intelligence (AI). She tells how AI falls under Computer Science and describes the AI with suitable example. After this, she explained the various AI Problems like- Problem Solving, Planning, Perception, Vision, Natural Language Processing (NLP), etc. Ms. Handa discussed AI problems in detail with examples.

At the end of the program, the participants asked many questions to the expert regarding Artifical Intelligence and all once are quite satisfied with respective answers. In the end, Mr. Rahul Pandey, Assistant Professor, IT & CS Department expressed gratitude to all the participants of the workshop.

This report has been varied by HOD of Department of IT & CS.

SUMMARY REPORT

Name of the program:

Expert talk on Intellectual Property Rights

Organized by:

Jointly Organized by Department of Computer Science and

Engineering & IQAC, Dr. C.V. Raman University

Date:

12th March, 2019

Detailed Report:

The Department of Computer Science and Engineering was organized one day Expert talk on the topic "Intellectual Property Rights" dated 12th March, 2019. The programme started at 11:00 am in 'C' Block Computer Lab. Dr. R.R. Janghel, Assistant Professor, NIT Raipur, invited as Guest for this event. He was heartily welcomed by Mr Vivek Shukla ,Assistant Professor , Department of Computer Science and Engineering, Dr. C.V. Raman University ,Bilaspur(C.G.). Mr Vivek Shukla introduced the Guest to the audience. Dr. Rohit Miri (HOD, CSE Dept.) welcomed Dr. R.R. Janghel with a bouquet. The session was then taken over by the Dr. R.R. Janghel.

Dr. R.R. Janghel session was very interactive and students participated enthusiastically. The session started with a brief introduction of Intellectual Property Rights. Describing the term by Dr. Janghel in very simple language, he said that its rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time. The speaker provided basic knowledge on the concepts of Patent, Copyright, Trademark, Design, limitations and other intellectual property rights. The Expert lecture gave the students an insight into the practical perspective on Commercialization and Licensing of IP. The speaker explained the concepts with the use of examples in order to enrich the knowledge of the students. Through this the students have received a practical expertise about the commercialization aspects of IP which will be beneficial for them in the coming years.

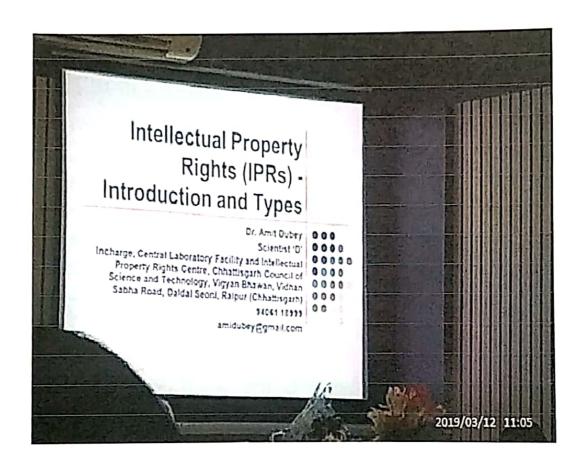

Dr. langhel had created awareness among the faculty and students of CSE departments of the University. It was a great learning experience, as per the feedback received from the participants, the lecture helped them to understand about Intellectual Property Rights. Throughout the session, the students and the faculty associated with him with great enthusiasm and he also asked him a lot of questions. More than 63 students, faculty members were present in this event

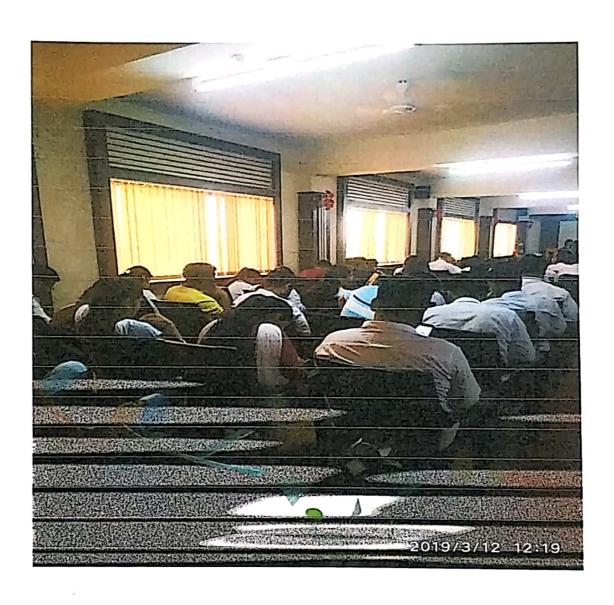

At the end of the session Mr. Praveen Chouksey Assistant Professor, Department of Computer Science and Engineering presented a appreciate of token to Dr. R.R. Janghel.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Head, Department of Computer Science and Engineering, Dr. C.V. Raman University, Bilaspur (C.G.).

DR. C. V. RAMAN UNIVERSITY, KOTA, BILASPUR (C.G)

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Linear Algebra

Program Date: 21-03-2019 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava

Keynote Speakers: Prof(Dr.) G. K. Singh, Professor of Mathematics, VGC, UP

Audience: UG and PG students and Faculty members.

[Program Details]

A Guest lecture on Linear Algebra was organized by Department of Mathematics for UG and PG students on 21-03-2019 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) G. K. Singh.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Ranu Gupta and Miss Pritee Podwal, Students from Mathematics Department welcomed the all guests.

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) G. K. Singh, started his session with the introduction of Applications of complex Analysis. Prof(Dr.) G. K. Singh, also motivate PG students for NET/SLET examinations and relate the weighted of Linear Algebra in this exams. He taught each and every basic about the subject by taking relevant examples & tried to clear the concepts. He focuses on NET/SLET examinations syllabus based some MCQ's. He also cleared the doubts of students by taking real time examples.

In this program total 66 numbers of students and all faculty member of Mathematics were present.

At the end, Anchors Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

Report on

Name of Programme- One day National seminar on Role of IPR for Academia.

Organized by- Department of Social Science and IQAC Cell Date- 30th March, 2019

Detailed Report:

A one day national seminar was organized by the Department of social science and IQAC Cell on 30th March, 2019 on the topic of Role of IPR For academia.

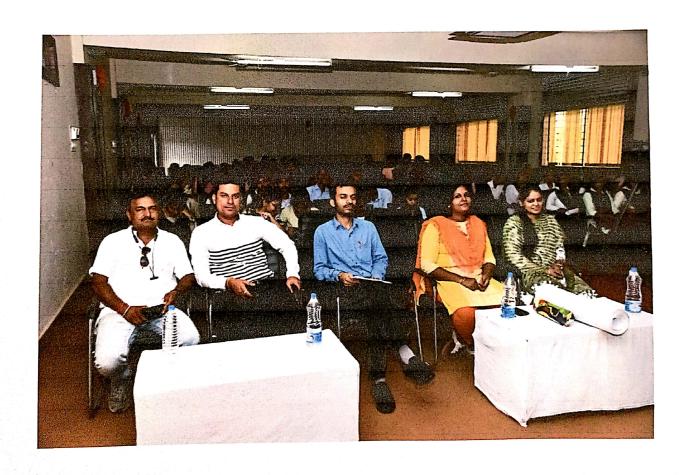

The main Speaker at the event was Mr.Anil Kumar Prasad, Assistant Professor, Amrawati university Amrawati Maharastra.

Prof Prasad explained in his talk Intellectual property rights (IPR) have been defined as ideas, inventions, and creative expressions based on which there is a public willingness to bestow the status of property. IPR provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc. Patent is a recognition for an invention, which satisfies the criteria of global novelty, non-obviousness, and industrial application. IPR is prerequisite

for better identification, planning, commercialization, rendering, and thereby protection of invention or creativity. Each industry should evolve its own IPR policies, management style, strategies, and so on depending on its area of specialty. Pharmaceutical industry currently has an evolving IPR strategy requiring a better focus and approach in the coming era.

35 students participated in the program and at the end of the programm, Professor Kajal Moitra gave a brief description of the program and thanked all the guests.

Notice

All the respected Deans and HODs of their respective department are hereby informed that the Department of Physics is going to conduct AN INTERCTIVE SESSION ON "FERROMAGNETC MATERIALS & APPLICATION" on 05 JUNE -2019. We are going to conduct various events in this occasion.

We request you to please circulate this information to all the students of your department as well encourage them to participate in the events.

The detail of the events has been attached herewith.

Thanking you!

REPORT OF AN INTERACTIVE SESSION ON "FERROMAGNETIC MATERIALS & APPLICATIONS"

Prog Date: 05.06.2019 Date: 07.06.2019

An Interactive talk Session on "Ferromagnetic Materials & Applications" had been organized by the Department of Physics and IQAC of Dr. C.V. Raman University, Bilaspur in association with IAPT, RC-10.

The keynote speaker Dr. H. S. Tewari, Professor of Physics, GGU, Bilaspur (Central University) expressed his views on Ferromagnetic Materials and their domains with the help of his impactful presentation. He presented nicely and stated the research map of in the area of these materials. He also talked about the facilities available in their lab at Central University.

He talked about the importance of magnetic materials such as Ferromagnetic, Pyromagnetic, Ferromagnetic, Anti-ferromagnetic material and their behavior in applied field. Material Science has become burning topic in research field.

The number of participation is 91 in this event. Especially research scholars have learnt a lot.

Honorable Vice- Chancellor expressed his pleasure on such type of topic and instructed to organize such type of events frequently in future as well. Dr. A. K. Shrivastava summarizes the whole talk later on.

All the faculty members of the Physics Department and Science Faculty were present including Dr. M. Z. Khan, Dr. Namita Bhardwaj, Mr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. D.V.K. Narasingham, Mr. Sushil Sharma, Mr. Nitesh Kumar, Mr. Rajesh Tiwari, Ms Priyanka. At the very last Mr. Umakant Shrivastava gave vote of thanks.

The list of attendees is below:

A Report

Digital Payment System

Guest lecture on **Digital Payment System** was organized on 7/01/2019, under the auspice of Department of Linguistics at Dr. C. V. Raman University. Dr. Manisha Dwivedi, Head, Department of Linguistics welcomed all the participants and our keynote speaker Mr. Nishant Lal, Department of Computer Science, D.L.S, College, Bilaspur (C.G). She handed over the session to our keynote speaker Dr. Nishant Lal.

Dr. Nishant Lal started by giving a brief introduction about digital payment method. He said that Digital payment methods are often easy to make, more convenient and provide customers the flexibility to make payments from anywhere and at anytime. These are a good alternative to traditional methods of payments and speedup up transaction cycles. He said post demonetization; people slowly started embracing digital payments and even small time merchants and shop owners started accepting payments through the digital mode.

Then he talked about the types of Digital payment methods used in our country:

- Banking cards
- USSD
- Aadhar Enabled payment system (AEPS)
- UPI
- Mobile wallets
- Bank pre paid cards
- Point of sale
- Internet banking
- Mobile banking
- Bharat interface for money (BHIM) app.

He talked on the above mentioned payment methods. Then he gave us the benefits of Digital payments .He said that:

Digital payment system is faster, easier, and more convenient .It speeds up the
payment process .There is no need to stand in line to withdraw money from an ATM.
Many services like digital wallets, UPI, etc works on this basis.

• He said that digital payment system economical and less transaction fee.

• We can have a digital record of our transactions.

We got walvers, cash backs and discounts.

He said that Digital payment system is one stop solution for paying bills.

While concluding he said that Digital payments are slowly gaining popularity all over the world and there are many apps that are being launched in this sector. It has become a hassle-free and secure way to make payments. At the end of the session he let the participants asked questions related to the session and he also insist them to accept this digital payment system.

The above lecture on Digital payment system proved very beneficial for all the participants as this let them fully understand the importance of Digitalization and it will also proved to be beneficial for our countries growth.

At the end of the session Dr. Manisha Dwivedi thanked Mr. Nishant Lal for providing such useful information and she also thanked all the participants.

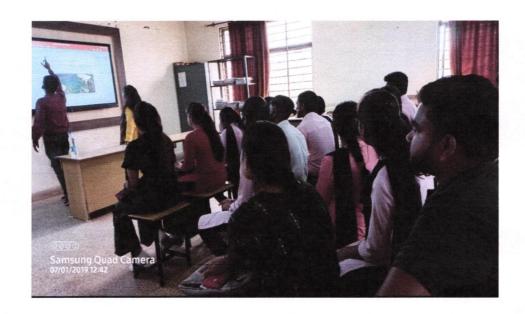

Dr. Manisha Dwivedi

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Integral Transforms.

Program Date: 10-08-2019 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava

Keynote Speakers: Dr. Bhawna Agarwal, RNTU, Bhopal. **Audience:** UG and PG students and Faculty members.

[Program Details]

A Guest lecture on Integral Transforms was organized by Department of Mathematics for UG and PG students on 10-08-2019 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Dr. Bhawna Agarwal.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Jyotimayee Sha and Miss Barkha Sharma, Students from Mathematics Department welcomed the all guests.

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) H. N. Sharma, started his session with the introduction of Mathematical Analysis and one by one he gives the basic of several topics of applied mathematics. Prof(Dr.) H. N. Sharma, also motivate PG students for research in the field of Integral Transforms, special function and Fractional Analysis. He taught each and every basic about the Transforms by taking relevant examples & tried to clear the concepts. He focuses on different types of transforms and relate with special functions. He also cleared the doubts of students by taking real time examples.

In this program total 72 numbers of students and all faculty member of Mathematics were present.

At the end, Anchors Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

Department of Electrical Engineering and IQAC Expert talk On" Trends of Electric Vehicles in India"

Department of Electrical Engineering organized an Expert talkOn" Trends of Electric Vehicles in India" On 22-Aug-2019.

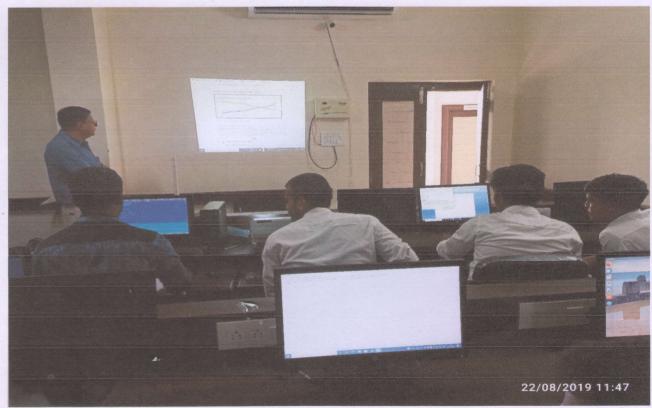

The speaker for the event was Professor Mr. Neelesh Patel, Assistant Professor is a Electrical engineering Department, DMAT, Raipur. He explained briefly about Electric Vehicle Technology which is an evolving technology in recent trends. He explained the various types, working modules of electric vehicles and made a comparison between the IC engine and the IOT based electric vehicle. He also clarified the job roles of electrical engineers in the automobile domain. He defined about the Battery Management System of the electric vehicle and its importance in the economic aspect over the conventional vehicle systems. He enriched the students with the courses related to EV Technology.

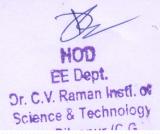

The lecture also highlighted how the global number of electric vehicles is exponentially rising, due to strong marketing efforts and governmental incentives and this shift of consumers from internal combustion engine vehicles to electric vehicles is a shift from petroleum to the primary sources that generate electricity. The objective of this Expert talkwas to introduce the audience to the fundamental aspects of different electric vehicle systems.

Post an hour-long knowledgeable speech the session was open for questions and discussion. The session concluded with a vote of thanks by Assistant Professor Amit Agrawal. The event also included a feedback session for the participants, and the responses were mostly positive. Overall the event was a success and provided valuable insights into the topic.

ONE DAY GUEST LECTURE

INSECT DIVERSITY

Dated on 07/09/2019

Department of Life Science from Dr.C.V. Raman University organized a one day Guest Lecture on 07/09/2019 on Insect Diversity on conference hall. Guest lecture focused on insect which was clean and safe the environment. The programme started at 1:30 pm with the welcome address by Dr. Shweta Sao. The Guest was Mrs. Sunita Diwedi, Asst. Prof. D.L.S. Post Graduate, College, Bilaspur (C.G.).

Mrs. Sunita Diwedi delivered lecture

She delivered her special talk about Honey Bee, mostly resides in tall trees in dense forests, but also builds nests on urban buildings. Honey bee a supply of flowers in their habitat, since this is their food source. She explained that the Dragon fly was slow-flowing and it's a very common dragonfly Found in the fields and parks. It is distributed in Asia, India, Pakistan, Afghanistan etc. She explained about that the Monarch Butterfly habitat was open fields, grassland, gardens and meadows with milk weed. This butterfly larva feed on milkweed. Adult gather nectar from flowers. She gave information about Wasps enable it to live in a wide range of habitats from very humid areas to artificial environment such as gardens and human structure, grassland, shrub lands. They feed on nectar and sweet fruits. She also gave the knowledge about Lady Beetle which was commonly associated with infesting grasses and also several crops. Vote of thanks delivered by Dr. R.K. Singh.

Report of Guest Lecture on Rural technology and Holistic Farming

Department of Rural Technology, Dr. C. V. Raman University conducted an online guest lecture on 08.05.2020. More than 70 Students from M. Sc. Rural Technology and PGDRD and life sciences were present at this knowledge sharing session. This Lecture was delivered by Dr. Satendra Kumar Nirala, Assistant Professor, Guru Ghasidas Vishwavidyalaya, Bilaspur (C. G.). He has more than 15 year's work experience in life science research, rural development and Farming and farm based industries. The guest lecture was scheduled to start at 02:30 pm. He began his lecture with an introduction to the farming system in India. He emphasized today's technology, the use of advanced technology in the agriculture field and allied sciences.

OVERVIEW

In his lecture, he explained all the processes that were involved in the farming system. The processes involved were Introduction, sustainable agriculture; positive and negative aspects of modern and sustainable farming system, organic farming, agroforestry, In-situ and Ex-situ practices, crop pest management etc. He explained the process flow in detail and elucidated the testing methods employed in cultivation. He disclosed some modern techniques that are used in holistic farming.

He also threw light on how the chemical pesticides affect plant and human life. He finally concluded his lecture by pointing out the correlation between farmer's requirements and industrial production. After his lecture, the students were given time to interact with the dignitary.

Dr. S. K. Nirala delivered his lecture on virtual mode

BRIEF REPORT OF THE PROGRAM

One Day Invited Lecture on "Google Form and Google Class Room" was organized by Department of Information Technology & Computer Science and Internal Quality Assurance Cell (IQAC), Dr. C.V.Raman University, Kota, Bilaspur (C.G.) on 7th October, 2019.

The main objective of this program is to provide the essential knowledge and training of Google Form and Google Class Room to the faculty members so they can improve their teaching skills especially for online teaching.

This program was inaugurated by Mr. Gaurav Shukla, Honorable Registrar of Dr. C. V. Raman University, Bilaspur (C.G.). Prof. (Dr) Manish Upadhay, Principal, Dr. C.V. Raman Institute of Science & Technology was present as special guests in this invited lecture. Mr. V. Victor, Assistant Professor, D. P. Vipra PG College, Bilaspur (C.G.), was invited as an expert for this program. Total 90 students are presented in this program. Mr. V. Anurag Rao was in-charge of this program.

Mr. Gaurav Shukla, Honorable Registrar, Prof. (Dr.) Manish Upadhay, Mr. V. Victor and faculty member of the department was welcomed by Mr. Abhinav Shukla, Head of IT

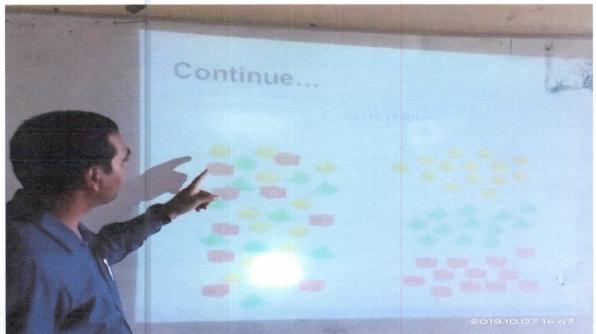

& CS Department. After this, Mr. Anurag Rao, Assistant Professor of IT & CS Department, was given a brief introduction of Mr. V. Victor and also discuss the objectives and schedule of the program.

Mr. V. Victor started her lecture by introducing various online teaching tools in education. He describes, how web based teaching tools plays important role in efficient and effective delivery of classes online. After this, Mr. Victor introduces Google Form and Google Class Room. He demonstrates how to create Google Form and Google Class Room and explains how to use each option in detail.

At the end of the program many questions were asked by the participants regarding Google Form and Google Class Room and all are satisfied with respective answers. At the end, Mr. Rahul Pandey, Assistant Professor, IT & CS Department expressed gratitude to all the participants of the program.

This report has been varied by HOD of Department of IT & CS.

Notice

All the respected Deans and Hods of their respective department and students of the Mechanical Engineering are hereby informed you that Mechanical Engineering Branch is going to organize interactive session on "Digital Transformation and Industrial Revolution" on 14/10/2019. All the students can register their name in the department.

Students can get knowledge about this transformation and revolution.

Thanking you!

Report of an Interactive Session on "Digital Transformation and Industrial

Revolution"

Program Date: 14/10/2019

Venue: Smart Classroom: DF-05

An interactive session on recent scenario of energy storage systems entitled as "Digital

Transformation and Industrial Revolution" had been organized by the department of mechanical

engineering and IQAC of Dr. C. V. Raman University, Bilaspur.

To capitalize on this shift to industry and effective create and monetize solutions, interprises

must embed new digital technologies and capabilities and their legacy assets . Mr. Leeladhar

Rajput, Asst. Prof., GGU Bilaspur, delivered a lecture on Digital Transformation and Industrial

Revolution and provided the Knowledge of awareness of Digital Transformation and Industrial

Revolution which is very useful. He explained the proper application of Digital Transformation

and Industrial Revolution.

He said the benefit of the use of Digital Transformation and Industrial Revolution

increased.Digital technologies are dramatically reshaping difffrent industries. Revolution due to

technology has become not only a convenience, but a necessity.

Hon'ble Vice Chancellor R. P. Dubey also addressed for energy management and instructed to

follow applications, Mr. Harsh Pandey inspired listener to follow proper application of Digital

Transformation and Industrial Revolution.

More than 100 participants were present in this program. Mr. Nitin Shukla, Mr. Narendra

Kumar Patel, Mr. Abhijeet Gupta, Mr. Amit Kacchwaha, Mr. Manoj Dewangan, Mr. Sandeep

Kumar Sharma were present in the program all along.

At the end Mr. Amit Kumar Kacchawaha gave vote of thanks.

Department of Electrical Engineering and IQAC Report on BijliBachao Campaign "Reduce Consumption of Electricity"

Bijli Bachao Campaign "Reduce Consumption of Electricity"was conducted by Department of Electrical Engineering and IQAC, Venue Dr. C.V Raman University ,kargi road kotaBilaspur. On16-Oct-2019.

The objective is to enhance awareness level amongst the public on energy efficiency and inform them about the virtues of adopting energy conservation. People are also made aware of the quality and standard issues of energy intensive appliances.

The resource person was Dr. Abhishek Verma, BIT Durg. Thirty six of EE branch participated in the program and enriched their knowledge and skill in BijliBachao Campaign "Reduce Consumption of Electricity". The resource person started his lecture with the brief introduction of BijliBachao Campaign. He also suggest following points to conserve Energy

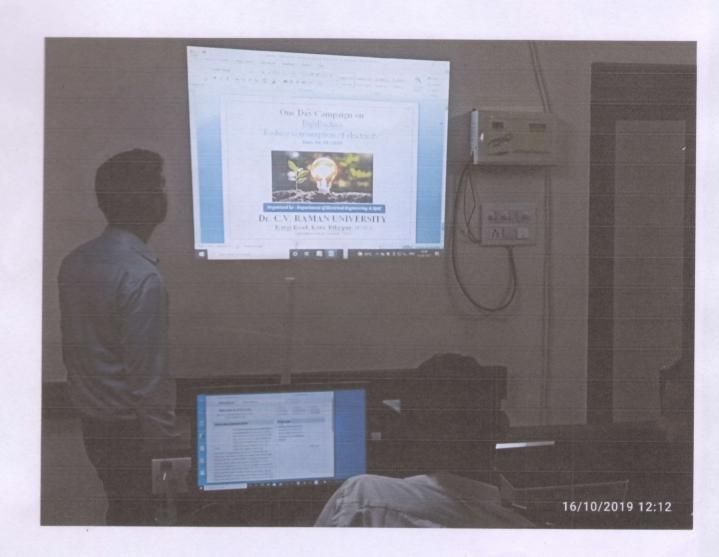

- Walk, bike or roll to school use the car less often.
- Turn off lights when the room is empty or when natural light is sufficient.
- Put computers, monitors, printers, photocopiers and other electronics on standby or sleep mode when not in use and turn them off at the end of the school day.
- Use blinds/curtains to either keep heat out in summer or let heat in (sunlight) in winter.
- Close windows during heating and cooling seasons to avoid heating/cooling the outdoors.
- Keep areas in front of vents on walls, ceilings, or windowsills free of obstruction.
- Wear a sweater if cold; dress in layers to maintain personal comfort during any season.
- Use a power bar for multiple electronics and then turn off the power bar at the end of the day to avoid phantom energy loss.

 At home, buy energy efficient appliances, take shorter showers, use compact fluorescent light bulbs, have a full load when using washing machines or dishwashers, and use an outdoor clothesline.

Dr. Abhishek Verma, appreciated the efforts of Electrical Engineering Department for organizing this kind of Awareness program, He commended the students for being active learners throughout his lectures. Mrs. Durga Sharma, HOD of EEshared her views along with the guest and addressed several innovative means of conserving the energy in an efficient manner. Dr. R.P. Dubey, Vice chancellor Dr. C.V Raman University appreciated the EE department for conducting this kind of program to create awareness among students.

Name of the program: Expert Talk on Public Health Engineering

Organized by: Jointly Organized by Department of Civil Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 16th October 2019

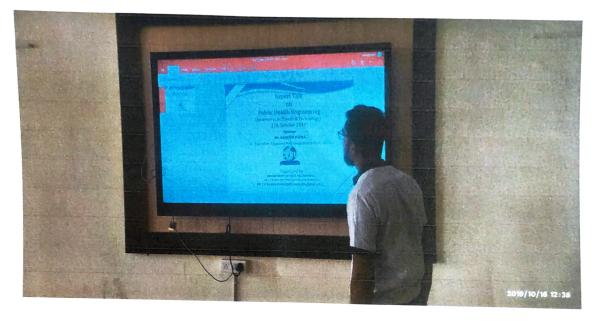

Detailed Report

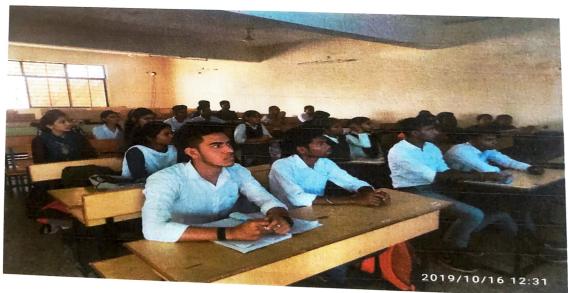

The Department of civil engineering has organized a one day Expert Talk on Public Health Engineering. This program included an Expert Talk by the guest, Mr. Nadeem Pasha Ex. Executive Engineer, PHE Department C.G.

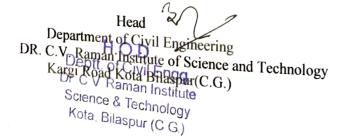

Mr. Nadeem has delivered very thought full Knowledge in the field of Highway Material. In his deliberation he has given very important information of Pavement.

This lecture covers a brief Pavement Structure Materials **Sub base** - The proposed sub base layer is to consist of river gravel (shingle), sand, soil blend with a 4 day soaked CBR of 30% and a maximum PI of 6%. Other possibilities include stabilizing the sand soil blend proposed for the improved sub grade above. **Base Material** -While it is theoretically possible to produce a base course by stabilizing low quality 19 soils, it is good practice to start with a material that is of sub base quality. This is especially important as stabilized pavement layers tend to crack, especially ones with a high percentage of stabilizers, and while this does not affect a stabilized layer's performance to any large degree, the cracks will allow the entry of water into the pavement structure and will weaken it. **Surfacing Materials** - The aggregate materials for road surfacing found in the project area, and likely to be available for use in future contracts, were found to be suitable for use as sealing aggregate in asphalt concrete seals

In this event more than 55 students, faculty and staff members were present .The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

Report on One Day Awareness Programme

Speaker: Dr. Pushpraj Singh, Associate Professor, Dept. of Rural Technology, GGV, Bilaspur

(C.G.)

Date : 08.11.2019

Venue: Auditorium Hall, CVRU

Topic: "Remote sensing application in Rural Technology"

Participants: Students of M. Sc. Rural Technology and PGDRD.

The guest lecture held on 8^{th} Nov 2019 from 12 pm - 01:30 pm gave a deep insight into "Remote sensing application in Rural Technology". The interactive session focused on effective communication and participation and involvement of students in the session so that the agenda of the whole lecture is reached out to the students effectively.

Dr. P. R. Singh delivered his lecture on Remote Sensing

The speaker gave an extremely insightful talk on the application of remote sensing and GIS in rural technology. He shared his profound knowledge about GPS, PGIS, GIS software etc. The students thoroughly enjoyed and gained ample awareness by the end of the session. The platform was open for questions at the end of the session and the guest effortlessly answered all the queries. The students also met the guest speaker personally and gained about project work in the remote sensing field.

Department of Law REPORT

Name of Program: Guest Lecture on the Impact of Technology on Legal Education
Organized by: Department of Law

Date: 15th November 2019,

Time: 11:00 pm

Co-ordinator: Mr. R. P. Choudhary, Head, Department of Law

Detailed Report: Guest Lecture on The Impact of Technology on Legal Education conducted on 15th November 2019 a total of 63 participants of law students actively participated in the programme.

The programme was followed with the brief introduction of invited guest Mr. Yashvant Singh Thakur (Ex-Deputy Advocate General, Government of Chhattisgarh) by the co-ordinator Mr. R. P. Choudhary (Head Department of Law) to all participants. The resource delivered his lecture on the topic "Impact of Technology on Legal Education" specifically he explained telling about impact of technology and its significance that effective use of technology means new clients, stronger work product, and more efficient use of time for law students, it means better job prospects and a smoother transition into practice. Technology is truly transforming the practice of law.

He gave some suggestions for the uses of technology in the legal education are as follows:

- Impact of technology to hire more efficient and qualified faculty.
- Technology helps to select and develop educational materials.
- Technology provides new way of teaching learning in legal field
- Better infrastructure can be made possible to access by legal faculty and students with the help of technology.
- With the help of technology it is convenient to establish centre for legal field and education.
- At present, how technology is improving the standard of the legal profession.

He concluded the lecture with the quote of Abraham Lincoln "We can complain because Rose bushes have thorns, or rejoice because thorn bushes have roses" and said that involvement of technology in legal education is an inseparable part.

This lecture was followed by a brief question-answer session where the students asked several questions which were nicely answered by the guest with enthusiasm. After the completion of the program Mr. R. P. Choudhary, Department of Law gave Vote of thanks to all the attendees and appreciated the lecture delivered by the guest.

This report is certified by Head of Department

A REPORT

ICT in English Language and Education

Guest Lecture on **ICT in English Language and Education** was conducted on 14-12-2019 under the auspice of Department of Linguistics by Dr. Anurag Mishra, Assistant Professor, Govt. Venkat Sanskrit College, Rewa (M.P.) in order to develop and enhance the communication skills of the participants. It also helped them to understand cross cultural language.

Session-1

The keynote speaker Dr. Anurag Mishra said that English speaking strengths by practicing new tools for improving communication. He also spread light on the role of ICT in higher Education. He said that Information and Technologies have become commonplace entities in all aspects of life. Across the past twenty years the use of ICT has fundamentally changed the practices and procedures of nearly all forms of Endeavour. He said that Education is a very socially oriented activity and quality Education has traditionally been associated with strong teachers having high degrees of personal contact with Learners. The use of ICT and English Language in education lends itself to more student centered learning settings. But with the world moving rapidly into digital media and information, the role of ICT in education is becoming more and more important and this importance will continue to grow and develop in the twentieth century. He said that Higher education systems have grown exponentially in the last five decades to meet the demands of quality education for all. This aspect has further gained momentum due to swift advancements in information and communication Technology (ICT). Demand for skilled and competent labour is ever increasing in the contemporary globalised society.

He said in order to increase the access to higher Education and improving English language usage it is necessary to make ICT at an affordable cost. The last two decades have witnessed the inclusion of developments in ICT'S in higher education systems around the world. Even then he urged to develop a higher technology in the management and delivery of learning programmers is daunting.

urged to develop a higher technology in the management and delivery of learning programmers

is daunting.

Now a day's students were learning English language through English Labs. In these Labs

Students learn phonetics. He said that ICT's have the potential to accelerate enrich and deepen

skills, to motivate and engage students, to help relate school experience to work practices, create

economic viability for tomorrow's workers, as well as strengthening teaching. The use of ICT in

Learning English language will not only enhance learning environments but also prepare next

generation for future lives and careers students using ICT for learning English language become

immersed in the process of learning and as more and more students use computers as information

sources and cognitive tools. He told that ICT changes the characteristics of problems and

learning tasks, and hence play an important task as mediator of cognitive development,

enhancing the acquisition of generic cognitive competencies as essential for life in our

knowledge society.

Then he spoke on the challenges of ICT in higher Education and language learning. He then

presented the four most common mistakes in introducing ICT's into teaching:

*Installing learning technology without reviewing student needs and content availability.

*Imposing technological systems from the top down without involving faculty and students.

*Using inappropriate content from other regions of the world without customizing it

appropriately.

*Producing low quality content that has poor instructional Design.

He concluded by saying that the adoption and the use of ICT in Education have a positive impact

on teaching, learning, and research.

Finally vote of thanks was given by Dr. Manisha Dwivedi she thanked Anurag Sir for providing

such useful information and for giving their precious time.

A special Talk on Inorganic Materials : Trends in Chemical Sciences

 $\mathbf{B}\mathbf{y}$

Prof Debashish Roy

Indian Institute of Technology, Kharagpur (WB)

Organized By
Department of Chemistry
Date 04-01-2020

Report of the Event

Department of chemistry and IQAC jointly organized a special_talk on_Inorganic materials: Trends in chemical sciences by Prof Debashish Roy , Department of chemistry, Indian Institute of Technology, Kharagpur. The key expertise of Prof Debashish Roy is inorganic synthesis. Dr Jayati Chatterjee Mitra Head Department of Chemistry given brief introduction about the Resource person. 67 students and research scholars were attended the program. Faculty members of science were present in the Invited talk. The talk is totally based on inorganic material and its synthesis and Prof Debashish Roy given special focus on coordination complexes. Lots of research aspects of co-ordination complexes also explained by the expert. The Program is very significant for the faculties, research Scholars and students. In question answer session lots of questions were asked by students, research scholars and faculties. It was excellent session.

In the end of the talk vote of thanks delivered by Dr Rashmi Verma from Department of Chemistry.

Department of Chemistry Dr. C.V. Raman University Kota, Bilaspur (C.G.) - 495113 Photographs and list of students are attached herewith

Notice

All the respected Deans and HODs of their respective department are hereby informed that the Department of Physics is going to conduct AN INTERCTIVE SESSION ON "SCOPE OF LASER TECHNOLOGY" on 24 JAN. -2020. We are going to conduct various events in this occasion.

We request you to please circulate this information to all the students of your department as well encourage them to participate in the events.

The detail of the events has been attached herewith.

Thanking you!

REPORT OF AN INTERACTIVE SESSION ON "SCOPE OF LASER TECHNOLOGY"

Prog Date: 24.01.2020 Date: 27.01.2020

An Interactive Session on "Scope of Laser Technology" had been organized by the Department of Physics and IQAC of Dr. C.V. Raman University, Bilaspur in association with IAPT, RC-10.

With the time spam ray optics reached as Laser and Fibre Optics. The successive development of light has proven tremendous changes in technology. Dr. Nabi Tiwari Professor of Physics, Chouksey Engineering College Bilaspur were on the way to conducting Ph.D. viva-voce examination in the campus.

There was an opportunity of Department of Physics and after acceptance of Dr. Tiwari delivered a lecture on scope of laser technology. Really he viewed likely the scope of laser's importance in technology. Chromo logically he discussed from optics in laser. The contribution of laser in the field of medical, engineering, war, astronomy etc. he explained very nicely.

Hon'ble Vice Chancellor Dr. R. P. Dubey Sir also shared his video about laser Dr. A. K. Shrivastava disclosed about laser properties and characteristics in briefly.

All the faculty members were present in this programme. There were 103 students were present.

Dr. M. Z. Khan, Dr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. D.V.K. Narasingham were present. Lastly Mr. Vikas Mishra concluded the programme with vote of thanks.

The list of students present is given below:

S. No.	NAME	PROGRAMME	SEM.
1	Arpita Behera	M.Sc. (Physics)	I
2	Babulu Behera	M.Sc. (Physics)	I
3	Baldev	M.Sc. (Physics)	I
4	Bharti Singh	M.Sc. (Physics)	I
5	Akhilesh Singh Rajput	M.Sc. (Physics)	I
6	Anjali Rathore	M.Sc. (Physics)	I
7	Anubhav Sahoo	M.Sc. (Physics)	I
8	Archana Jaiswal	M.Sc. (Physics)	I
9	Bhavana Vastrakar	M.Sc. (Physics)	I
10	Deepak Singh Rajput	M.Sc. (Physics)	I

REPORT OF ONE DAY INTERACTIVE LECTURE ON "Oil and Gas Plant

Piping Design and HVAC"

Program date: 7/02/2020

Program Venue: Room No DF-05

An interactive session on recent scenario of oil and gas Distribution systems entitled as "Oil and

Gas Plant Piping Design and HVAC" had been organized by the department of Mechanical

Engineering and IQAC of Dr. C. V. Raman University, Bilaspur.

The resource person is Mr. Gyan Prakash Gupta, Asst. Prof., LCIT Bilaspur. The objective of this

program is to provide the students the Detailed knowledge of HVAC Design for Oil & Gas

Facilities.

Mr. Gyan Prakash Guptadiscusses the complexities of HVAC design for offshore oil and gas

installations and how to go about carrying out the selection of a proper system and related

equipment. He explained HVAC design for such facilities needs special considerations not only

to minimize the potential loss to capital investment due to fire, explosion, and corrosion but also

to isolate the personnel from a life-threatening environment.

Our Honourable Vice Chancellor Prof . R.P. Dubey Sir is the Chairman of the event. During

delivering his lecture he stressed about need and importance of Oil and Gas Plant Piping Design

and HVAC. Mr. Nitin Shukla, Assistant Professor & Head Department of Mechanical

Engineering suggested Role of a Piping Engineer in various fields of industry.

Mr. Abhijeet Kumar Gupta, Mr. Amit Kachhawaha, Miss Shivani Sharma, Mr. Sandeep Sharma,

Mr. Narendra Patel, Mr. Manoj Deawangan, Mrs. Joeeta Mukherjee Ghosh were present from

the department along with many others from other departments. The students of UG PG were

involved all along. All total attendees were more than 100.

At the end Dr. Harsh Pandey gave vote of thanks.

Report on One Day Awareness Programme

Speaker: Dr. Pushpraj Singh, Associate Professor, Dept. of Rural Technology, GGV, Bilaspur

(C.G.)

Date : 08.11.2019

Venue: Auditorium Hall, CVRU

Topic: "Remote sensing application in Rural Technology"

Participants: Students of M. Sc. Rural Technology and PGDRD.

The guest lecture held on 8^{th} Nov 2019 from 12 pm - 01:30 pm gave a deep insight into "Remote sensing application in Rural Technology". The interactive session focused on effective communication and participation and involvement of students in the session so that the agenda of the whole lecture is reached out to the students effectively.

Dr. P. R. Singh delivered his lecture on Remote Sensing

The speaker gave an extremely insightful talk on the application of remote sensing and GIS in rural technology. He shared his profound knowledge about GPS, PGIS, GIS software etc. The students thoroughly enjoyed and gained ample awareness by the end of the session. The platform was open for questions at the end of the session and the guest effortlessly answered all the queries. The students also met the guest speaker personally and gained about project work in the remote sensing field.

Name of the program: Guest Lecture on Autoclaved Aerated Concrete (AAC)
BLOCK

Organized by: Jointly Organized by Department of Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 18th February 2020

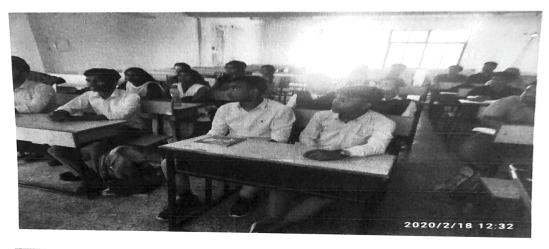

Detailed Report

The Department of Engineering branch of civil has organized a one day Guest lecture on Auto claved Aerated Concrete (AAC) BLOCK This program included a guest lecture by the guest, Mr. Rakesh Sahu, Sub Engineer, RES Department Chhattisgarh

Mr. Sahu has delivered very thought full Knowledge in the field of Autoclaved Aerated Concrete (AAC) BLOCK Material. In his deliberation he has given very important information of Material. They are also brief The use of recycled materials helps investors to save significantly on production costs, not Only from raw material extraction cost but also in the production process. Especially, recycling waste materials helps reducing energy, fuel, and labor costs. Besides, the transportation of recycled materials is also less expensive than the transportation of raw materials. The workload involved in the recycling of materials is minimal but with economic and technical efficiency. Autoclaved aerated concrete (AAC - Autoclaved aerated concrete) has been widely applied in construction works in Vietnam and is considered a reasonable replacement of fired bricks due to lower volume density, and better soundproofing - insulation. The main materials used to make AAC concrete include ground quartz sand, cement, lime, gypsum, aluminum powder, and some other technological additives. However, due to the depletion of natural sand, the partial or complete Replacement of natural sand in AAC concrete production plays an important signification. In this study, the AAC waste after the autoclaving process was reused to replace the ground natural sand. The research results show that the AAC waste bricks could be reused with a content of up to 25% to replace the natural sand in AAC fabrication.

The main properties of products such as compressive strength, bulk volume density, and drying shrinkage meet the technical requirements of ASTM C1693. The main properties of products such as compressive strength, bulk volume density, and drying shrinkage meet the technical requirements of ASTM C1693. The maximum ratio to make use of AAC waste bricks to replace crushed sand in autoclaved aerated concrete is 25%, but the actual rate at factories is 5%.

In this event more than 55 students, faculty and staff members were present. The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, DR.C.V. Raman University Kargi Road Kota Bilaspur(C.G.)

DEPARTMENT OF INFORMATION TECHNOLOGY & COMPUTER SCIENCE

A One Day Invited Lecture on

"Data Analysis with Advance MS-Excel"

30th March, 2020

ORGANIZED BY

DEPARTMENT OF INFORMATION TECHNOLOGY & COMPUTER SCIENCE DR. C.V.RAMAN UNIVERSITY, KOTA, BILASPUR (C.G.) WITH

INTERNAL QUALITY ASSUARANCE CELL DR. C.V.RAMAN UNIVERSITY, KOTA, BILASPUR (C.G.)

BRIEF REPORT OF THE PROGRAM

One Day Invited Lecture on "Data Analysis with Advance MS-Excel" was organized by Department of Information Technology & Computer Science and Internal Quality Assurance Cell (IQAC), Dr. C. V. Raman University, Kota, Bilaspur (C.G.) on 30th March, 2020. Due to unforeseen circumstances of COVID-19 this program has been conducted in online mode.

The main objective of this program is to provide the essential knowledge and training of advance MS-Excel to the student and researchers so they can improve their Data Analysis skills especially for the research.

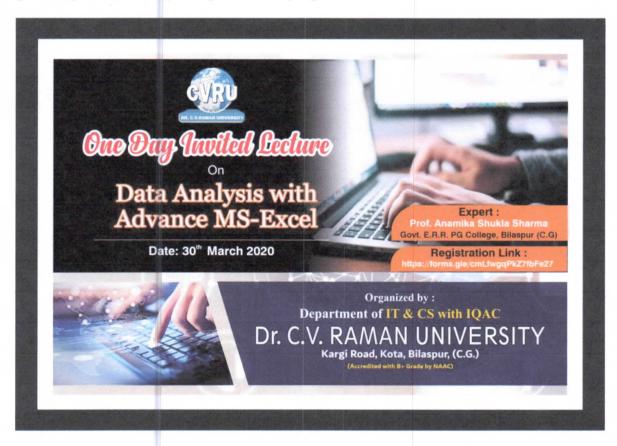

This program was inaugurated by Mr. Gaurav Shukla, Honorable Registrar of Dr. C. V. Raman University, Bilaspur (C.G.). Prof. (Dr) Manish Upadhay, Principal, Dr. C.V. Raman Institute of Science & Technology and Dr. Ragini Shukla, Dean IT & CS department were present as special guests in this program. Prof. Anamika Shukla Sharma, Assistant Professor, D. P. Vipra P.G. College, Bilaspur (C.G.) was invited as an expert for this invited lecture. In this awareness program, total 150 students of different classes of IT & CS

department were participated. Mr. Ayaz Ahamad Faridi was the in-charge of this invited talk.

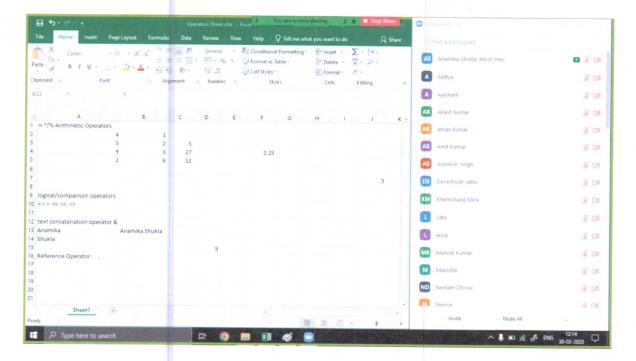

Mr. Gaurav Shukla, Honorable Registrar, Prof. (Dr) Manish Upadhay, Dr. Ragini Shukla, Prof. Anamika Shukla Sharmaand faculty member of the department have been welcomed by Dr. Abhinav Shukla, Head of IT & CS Department. After this, Mr. B. R. Sahu, Assistant Professor of IT & CS Department, was given a brief introduction of Prof. Anamika Shukla Sharma and also discussed the objectives and schedule of the program.

Prof. Anamika Shukla Sharma started her lecture by explaining use of spreadsheet software in Data Analysis in research and education. She differentiates MS-Excel and advance MS-Excel in detail. Prof. Sharma explained how data can be analyzed in different ways by using advance MS-Excel. She elaborates different functions and formula for analyzing collected data with suitable examples.

At the end of the program, participants asked many questions to the expert regarding Advance MS-Excel and all once was satisfied by specific answers. At the end, Mr. Rahul Pandey, Assistant Professor, IT & CS Department expressed gratitude to all the guest, expert mam and participants of the program.

This report has been varied by HOD of Department of IT & CS.

PLANT BREEDING

DATE: 07/04/2020

Guest lecture focused on Plant breeding organized by Department of Life Science from Dr. C.V. Raman University held on 07 April 2020 at conference hall. The programme started at 12:00 noon, welcome address given by Dr. Amit Sharma Dept. of Botany with the Saraswati Vandana in virtual mode. The Guest Speaker was Dr. R. P. Sharma, Asst. Prof., Agrasen College, Bilha, Bilaspur (C.G.).

He delivered lecture on Plant breeding, it refers to the protection and management of reproduction of plants in new varieties, in order to derive sustainable benefits for present and future generations. He said in his lecture that the Plant breeding to obtain resources for sustainable development excising diversity. He talked how breeders meet their breeding goals today as opposed to several decades ago. This requires basic knowledge on classical breeding methods and an understanding on molecular breeding as much as plant species have vanished in the last decade. He also talked another sector that was under threat to understand the developments in plant breeding and the state of the art breeding practices. He detailed the application of genetic analysis to development of plant lines better suited for human purposes. Plant Breeding and Selection Methods to meet the food, feed, fuel, and fiber needs of the world. He explained that the Genetic engineering to increase the effectiveness and efficiency of plant breeding. Dr. R. P. Sharma delivered lecture on plant breeding and vote of thanks delivered by Dr. Lata Sharma.

Report on Awareness on Technology Academic Year 2019-20

To encourage students for learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students. To create the awareness of Computers since their usage have almost become Omni present and a part of every bodies daily lives and also important in the field of education.it became also important at the time of pandemic to inculcate the habit of online learning among the students

On 19th May.'20 **Ms. Disha Sharma**, Assistant Professor, Amity University, Raipur, took an online session on Artificial Intelligence. She explained the features of **Artificial Intelligence**, features, importance.

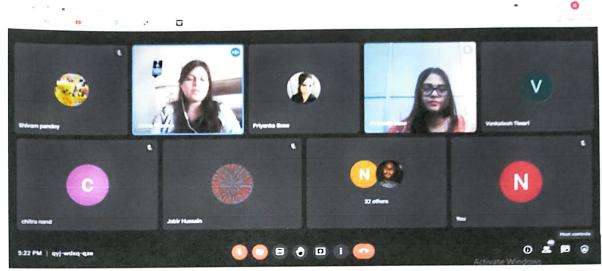

How one can deduct problems through A. I.?

Different Approaches and Tools of A. I.

Applications of A.I.

SUMMARY REPORT

Name of the program:

Expert talk on System Security

Organized by:

Jointly Organized by Department of Computer Science and

Engineering & IQAC, Dr. C. V. Raman University

Date:

11th May, 2020

Detailed Report:

The Department of Computer Science and Engineering was organized one day expert lecture on the very interesting area which was System Security dated 11-May-2020. The programme started at 11:00 am in virtual mode with the welcome address by Dr. Rohit Miri, the expert for the event was Dr. Upasna Sinha Assistant Professor J.K. College of Engineering, Bilaspur.

Dr. Sinha has delivered very thoughtful lecture on System SecurityTechnology to create awareness among the people those who constantly uses the electronic equipments. She began the session by introducing the important points of System security encompasses all facets of accessing information assets. From authentication, to software updates, anti-virus protection, and modifications - security is a key component to a device operating at its optimum. These best practices help to mitigate various security concerns.

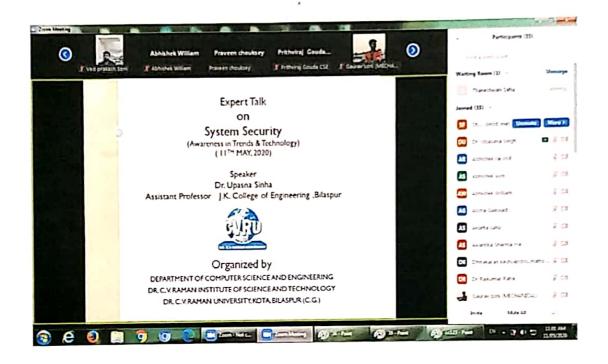

During Dr, Upasana speech, teachers and students asked many questions related to the current scenario and expressed a desire to hear them again. After the completion of the session Dr. Upasna Sinha took feedback from the students, then the students told that they learned a lot and enjoyed it too. In this event more than 53 students, faculty members were present.

At the end of the session Dr. S.R. Tandan Assistant Professor, Department of Computer science and Engineering presented a small token of appreciation to our valuable guests, to Dr. Upasana Sinha.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Head, Department of Computer Science and Engineering, Dr. C. V.Raman University, Bilaspur (C.G.).

SPEAKER TALK

on

"ADVERSE DRUG EFFECT AND DRUG INTERACTION"

ON 14 MAY,2020

GUESTS & SPEAKER

Mr. Pushpendra Patel,

Assistant Professor Siddhivinayak Institute of Technology and **Sciences**

Department Of Pharmaceutical Sciences and IQAC

DR. C.V. RAMAN UNIVERSITY

Kargi road, Kota ,Bilaspur (C.G)

"ADVERSE DRUG EFFECT AND DRUG INTERACTION" Date: 4/5/2020

PROGRAMME REPORT

Dr. C.V. Raman Institute of Pharmacy, Dr. C.V. Raman University, Kargi-Road, Kota, Bilaspur, Chhattisgarh had organized Guest lecture on "ADVERSE DRUG EFFECT AND DRUG INTERACTION" on 15thmay, 2020 as a part of Skill Development Programme.

The core concept of the guest lecture was to motivate the students, academicians and young researchers about the pharmaceutical adverse drug effect and drug-drug/drug-food interaction.

The concept facilitates the exchange of knowledge in terms of research and development and to endorse several educational institutions for preparing potential and efficient graduates. Thus the main objective of the guest talk is to provide a common platform to discuss and update the knowledge with respect to the trend setting areas like pharmaceutical advances and clinical research in pharmaceutical sciences.

The programme was held for one full day with Scientific and Innovative sessions. All the participants attended the lecture with lot of enthusiasm. Around 91 delegates were participated and it was conducted on Zoom online platform.

Prof. (Dr)Saket Singh Chandel, addressed the gathering. The Chief Guest addressed the participants with his valuable speech and enumerated about "The Importance of Pharmacy Profession".

The Session was revoked by Mr. Pushpendra Patel "Adverse Drug Effect and Drug Interaction" aspects in pharmaceutical formulations. All the delegates actively participated in interactions and raised various points which were clarified by the speaker. The Organizing Secretary Ms. Niteshwari Bhargavhas reported about full day events and expressed gratitude to all the resource persons, delegates, members of various committees and management of Dr. C.V.Raman institute of Pharmacy.

Thanking you With Regards

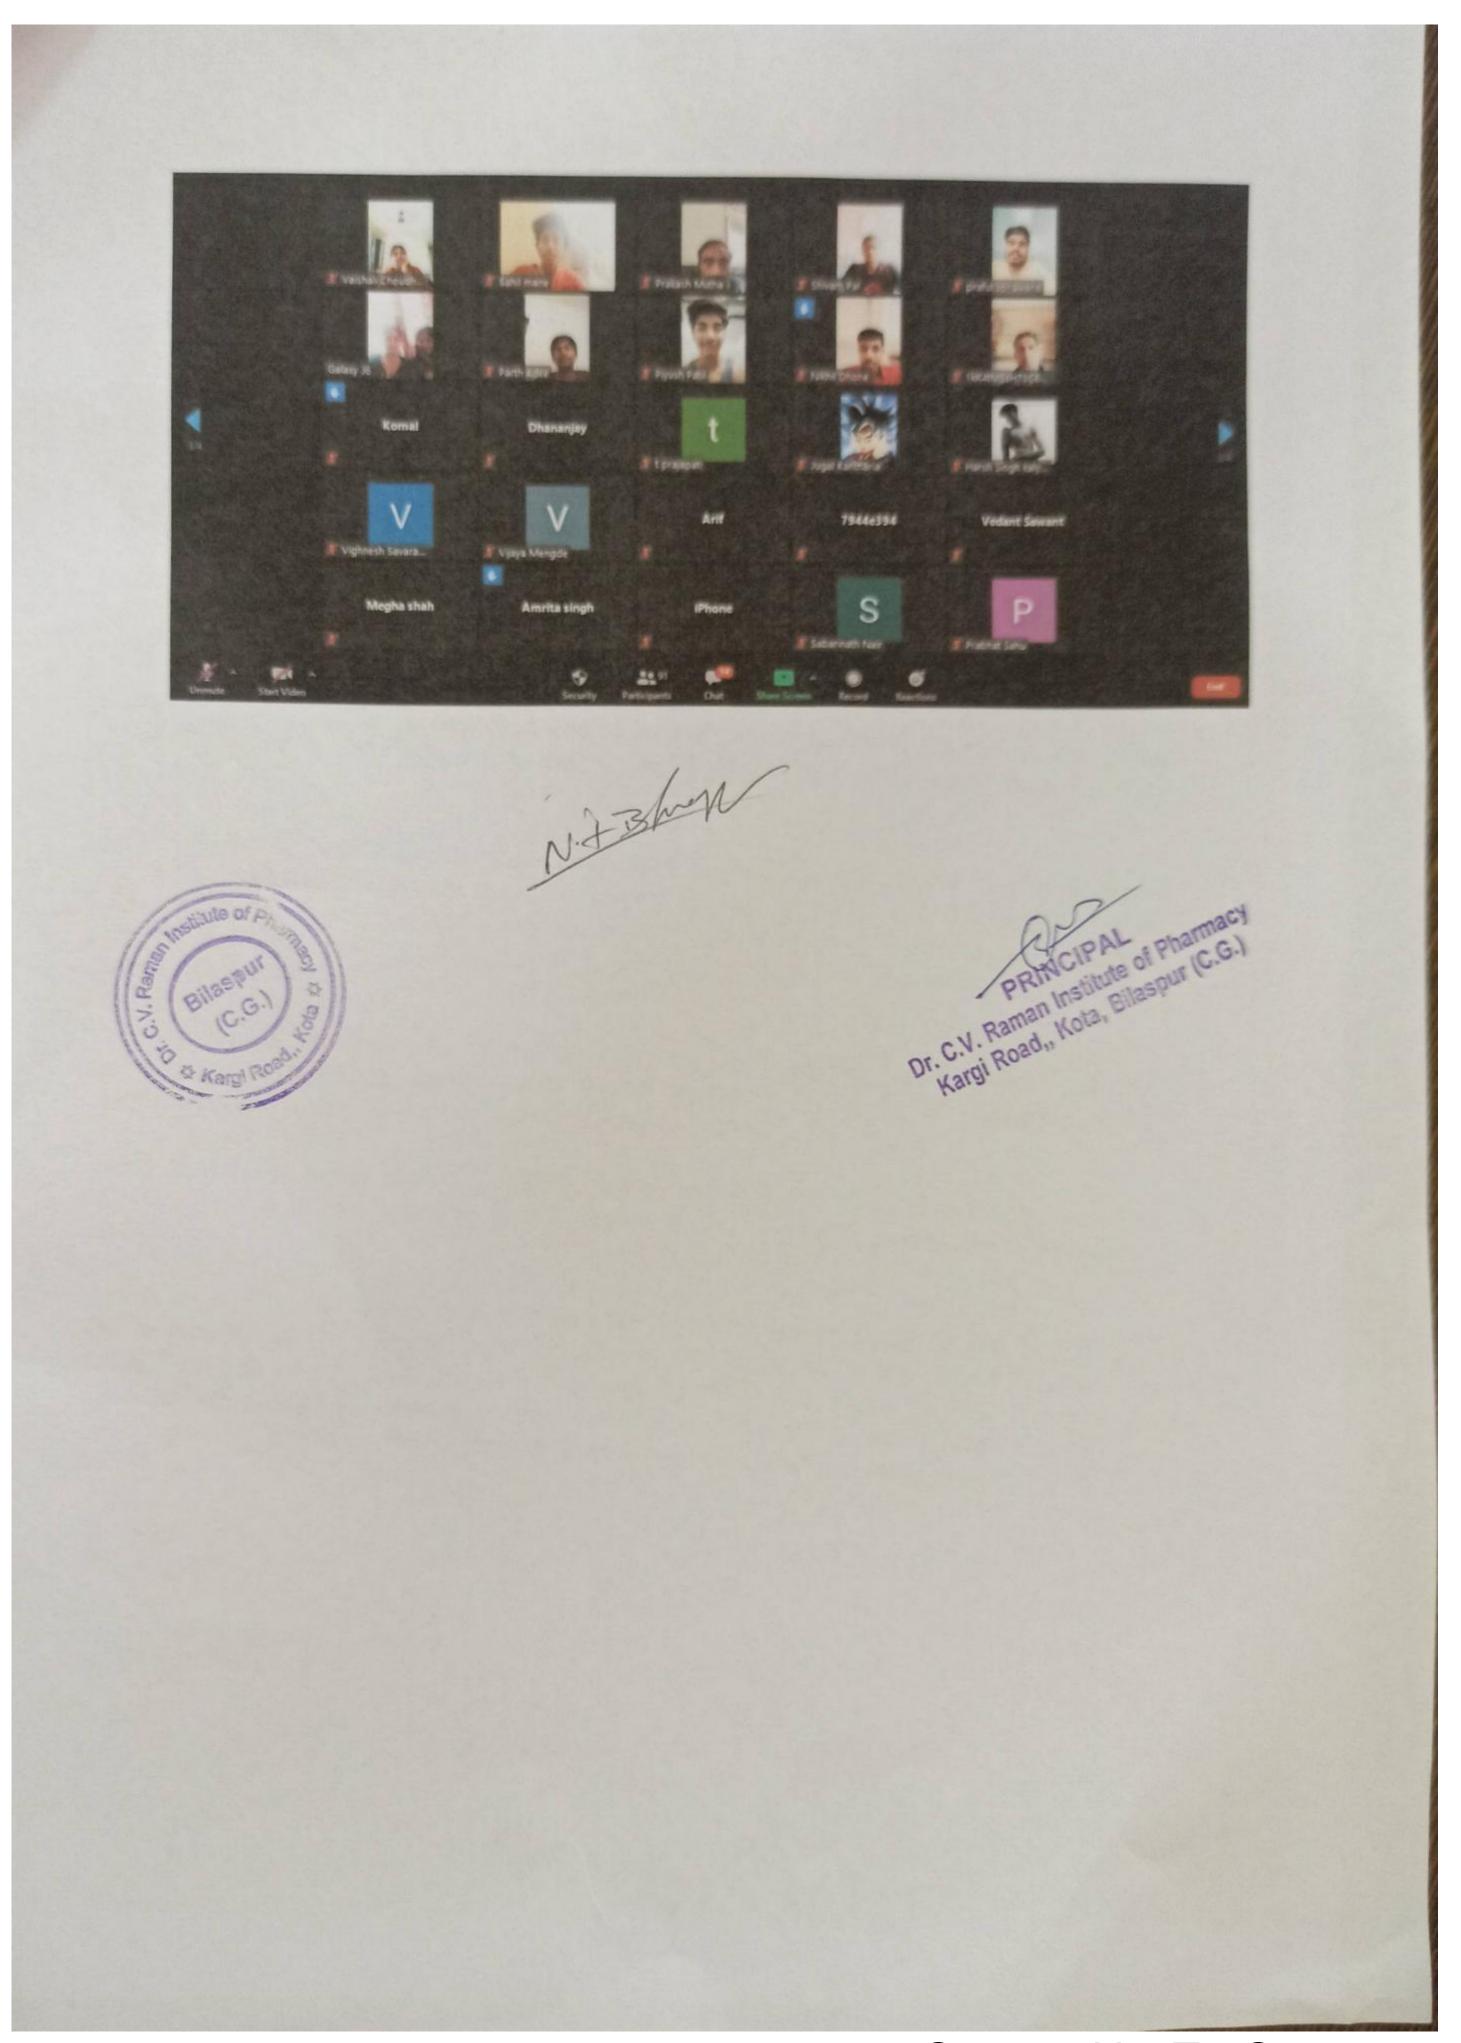

Prof. (Dr) Saket Singh Chandel

Principal & Convenor

Ms.NiteshwariBhargav

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Ordinary Differential Equations (ODE).

Program Date: 24-03-2020 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava **Kevnote Speakers:** Prof(Dr.) Dilip Kr. Jaishawal, Professor of Mathematics, SRSU(UP)

Audience: UG and PG students and Faculty members.

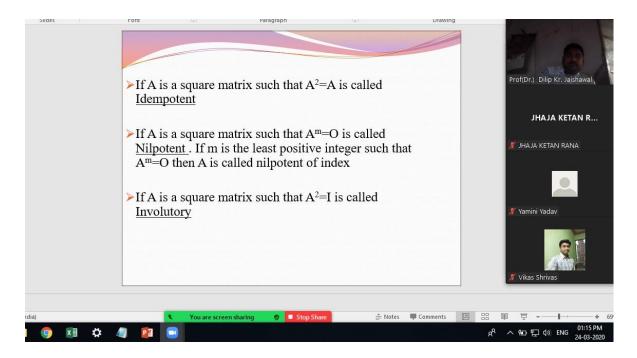

[Program Details]

A Guest lecture on Ordinary Differential Equations(ODE) was organized by Department of Mathematics for UG and PG students on 24-03-2020 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) Dilip Kr. Jaishawal.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Krishna Dutta.and Miss Lisha Sahani, Students from Mathematics Department welcomed the all guests.

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) Dilip Kr. Jaishawal, started his session with the introduction of Ordinary Differential Equations(ODE) and one by one he gives the basic of several topics of applied mathematics. Prof(Dr.) Dilip Kr. Jaishawal, also motivate PG students for research in the field of Integral Transforms, special function and Fractional Analysis. He taught each and every basic about the Transforms by taking relevant examples & tried to clear the concepts. He focuses on different types of Ordinary Differential Equations(ODE). He also cleared the doubts of students by taking real time examples.

In this program total 70 numbers of students and all faculty member of Mathematics were present. At the end, Anchors Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

DR. C.V.RAMAN UNIVERSITY, KOTA, BILASPUR (C.G.)

BRIEF REPORT OF THE PROGRAM

One day Invited Lecture on "Active Presenter" was organized by Department of Information Technology & Computer Science and Internal Quality Assurance Cell (IQAC), Dr. C. V. Raman University, Kota, Bilaspur (C.G.) on 28th May, 2020. Due to unforeseen circumstances of COVID-19 this program has been conducted in online mode.

UGC is constantly trying to expand the use of online learning platforms to promote self-learning and research in higher educational institutions. Therefore, the main objective of this program is to increase the quality of online learning material creation, skills of students, research scholars and teachers by giving them information and training about Active Presenter.

This program was inaugurated by Mr. Gaurav Shukla, Honorable Registrar of Dr. C. V. Raman University, Bilaspur (C.G.). Prof. (Dr.) Manish Upadhay, Principal, Dr. C.V. Raman Institute of Science & Technology and Dr Ragini Shukla, Dean Department of IT & CS were present as special guests in this invited lecture. Dr. Sanat Kumar Sahu, Assistant Professor, Govt. K. G. P. College, Jagdalpur (C.G.), was invited as an expert for this invited lecture. A total 177 participants from the IT & CS department was participated in this invited lecture. Mr. Bisahu Ram Sahu was in-charge of this program.

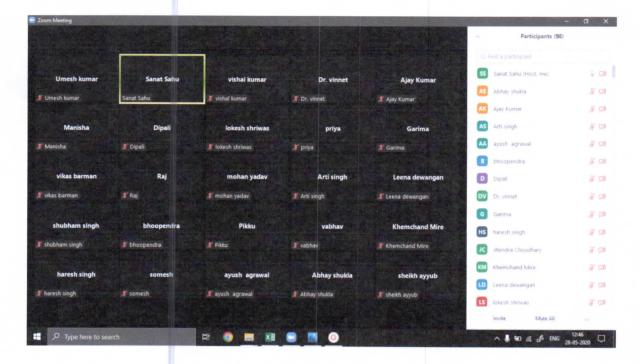

Mr. Gaurav Shukla, Honorable Registrar, Prof. (Dr.) Manish Upadhay, Dr. Ragini Shukla, Dr. Sanat Kumar Sahu, faculty member and students of the department was

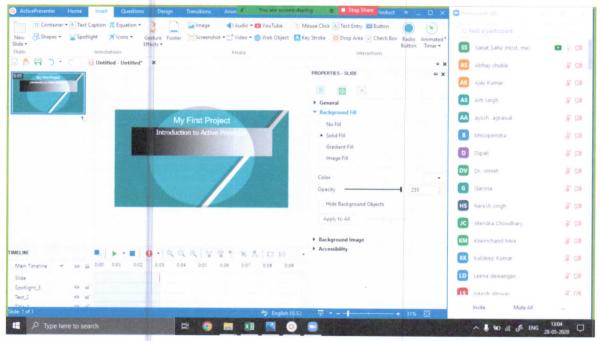

welcomed by Dr. Abhinav Shukla, Head of the Department. After this, Mr. Somesh Mishra, Assistant Professor of the Department, was given a brief introduction of our expert and discuss the objectives and schedule of the program.

Dr. Sahu first underlined the use and importance of video teaching materials in educational institutions. He told that which things needed to produce of quality teaching material. He told the student that Active Presenter is a free screen recorder and screencast video editor with all the necessary editing tools for recording screen & creating engaging screencast videos on Windows and macOS. After this, he explained each tools of the Active Presenter software by giving suitable example. He simply explained the video recording process in detail through an active presenter.

At the end of the program many questions were asked by the participants to the expert regarding Active Presenter and all once are satisfied with respective answers. At the end, Mr. Ayaz Ahmed, Assistant Professor, IT & CS Department expressed gratitude to all the guest, expert and participants of the program.

This report has been varied by HOD of Department of IT & CS.

Department of IP and CS

A Report

The Role of Technology during Covid-19

Novel corona virus is the most recent pandemic, which has struck more than 210 countries and territories all over the world placing states in a perilous position. Technology helped a lot during this time. The present report dealt with the role of Technology during Covid-19, and the main concern of organizing the above mentioned E-Guest lecture is to throw a light on the help provided by technology during this critical time. Hence E-Guest Lecture on the topic "The Role of Technology during Covid-19 was organized on 06-10-2020, under the auspice of Department of Linguistics. Dr. Gurpreet Bagga welcomed all the participants and our keynote speaker Mrs. Subhi Shrivastava, Assistant Professor, Department of Computer Science, LCIT, Bilaspur (C.G). Then she handed over the session to Mrs. Subhi Shrivastava.

While starting the session Mrs. Subhi Srivastava spoke about the Technology and related system that are helpful in the disease identification, limiting disease spread and disease prevention. She said different new age technologies were adopted as an initial response strategy. She talked about Internet of medical things and other emerging technologies like drones, robots, autonomous vehicles, Bluetooth and global positioning system (GPS), which proved very helpful in handling the pandemic.

She told that in the current critical scenario of COVID-19, the most significant issue after the development of vaccine is an efficient way of reach ability to the patients. This can be done by the concept of IOT. Drones, Robots, and AVs technology not only ensure minimum human interaction but also can be beneficial to access contagious COVID-19 patients. Wearable's, making use of the Bluetooth and GPS technology, is another efficient way to monitor individual's health and their day to day stress levels in isolation.

She said that these technologies can add a consequential share in the new paradigm of Tele Medicine, either for prevention of disease or identification and monitoring of the masses, paramedical staff, symptomatic and asymptomatic COVID positives during the pandemic.

She said IOT can possibly affect every single sector of our life .The fields that will be affected by this technology include:

- Manufacturing and Production.
- · Health and Medicine.
- Transportation

IOMT combines medical devices and applications to connect the information technology systems of health care by using various networking technologies. She told that IOMT is making its pace with a big percentage of global healthcare organizations already making use of it. She told that IOMT is a smart platform ,which makes use of smart sensors ,smart devices, and innovative communication protocols in order to examine the biomedical signals and diagnosing the disease of patients without much human involvement. Then our keynote speaker presents some of the applications of IOMT:

- Remote monitoring of patients.
- Order tracking for medications.
- Transmitting the medical information monitored by the wearable's to the concerned healthcare professionals.

She also told that Robotic technology also helped a lot during COVID pandemic. Unmanned vehicles helped a lot, Bluetooth and GPS technology also proved very beneficial. She said that many other technological help is also there with us like Mobile application, Smart helmets, Smart ambulance system .While concluding she said that Covid-19 has drastically affected every aspect of our life .It has changed peoples way of viewing different things. The whole world is on the outlook for best alternative of the available technological solutions.

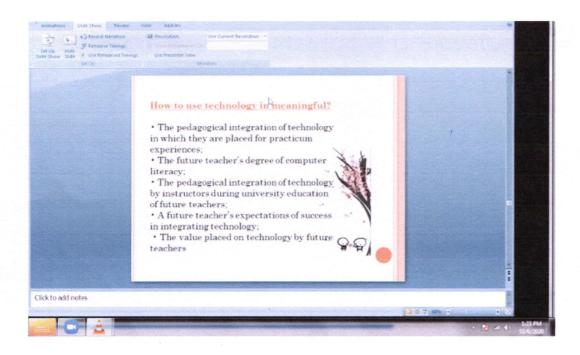

The participants gained a lot of knowledge from the above lecture. They came to know about the Technologies and its use in prevention, mitigation and restoration from aftermath of the disease spread.

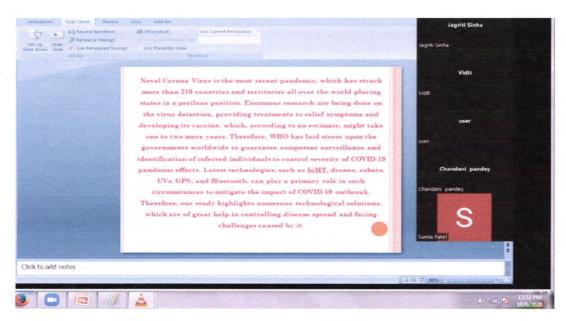

At the end of the session Dr.Om Prakash Tiwari thanked our keynote speaker Mrs. Subhi Shrivastava for providing such a useful information, he also thanked all the participants for

listening and learning the given information he urge them to spread the information to the mass for creating awareness related to technology.

Report of Invited talk on future prospects of technology adaptation in agriculture

Department of Rural Technology, CVRU Kota, Bilaspur virtually organized an Invited talk on "Future prospects of technology adaptation in agriculture" on 15th June 2020 from 10:00 AM to 12:30 PM on virtual mode. Eminent speaker Dr. Vivek Kumar, Sr. Scientist NIF, DST, Govt. of India delivered this lecture. More than 60 students from Dept. of Rural Technology and various faculties in the university have attained this lecture.

The speaker was heartily welcomed by Dr. Anupam Kumar Tiwari, Head of Department, Dept. of Rural Technology, CVRU. Dr. Vivek Kumar has 30+ years of rich experience in Agriculture, Agronomy, Livelihood mission, social development etc. The session was very interactive and students participated enthusiastically. In the beginning, Dr. Vivek gave an introduction on Agronomic practices, the world scenario of agriculture, the nature of Indian agriculture systems, Rural development through agriculture, traditional practices etc. Later he explained different cereal crops suitable for the Chhattisgarh region. He explained automated machines used in farm practices.

The vote of thanks was given by a student of the Rural Technology Department and Dr. Anupam Kumar Tiwari HoD, Dept. of Rural Technology presented a small token of appreciation to our valuable guests.

DEPARTMENT OF EDUCATION

REPORT OF THE ONLINE LECTURE

The purpose of this program was to introduce the basic idea and elaborate the concept of "Trash Management" among the students and to explain it's importance.

This Program was inaugurated through online by the honorable Prof. Pramod Kumar Naik, Dean Faculty of Education Dr. C.V.Raman University, Bilaspur (C.G.). In order to enrich all the participants with his knowledge, Dr.Sanjeet Sahu, Principal, SRS College of Education Dhaneli, Raipur was invited as an expert for the program. The entire session was very interactive and interesting. At the beginning of the lecture, Dr.Sahu said "Managing trash is essential for developing sustainable and livable cities but it remains a challenge for our country". He explained to the student teachers that children were backbone of the society and how as a future teacher were aware and suggest their students about trash management. Approx 103 Participants from Department of Education joined actively in this program. Mr. Krishnakant Pandey was coordinator of this program and presented the vote of thanks. The lecture was attended by 103 B.Ed. and M.Ed. students and faculty members.

Guest lecture on "Programmable logic controller"

Gue t I ture on "Programmable logic controller" was conducted by Department of Engine ringand IQ ". Venue Dr. C.V Raman University, Kargi Road Kota Bilaspur dated 14th Jul _ e0 n s glameet platform.

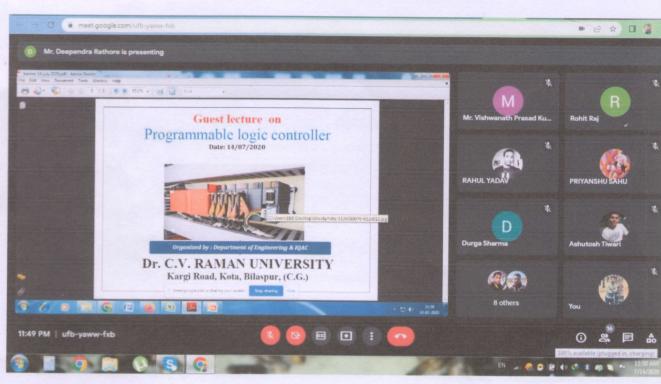

The r ur p r n wa Mr. Deependra Rathore, HOD, LCIT. Bilaspur. fifty students of the EE and EEE brancheo participated in the program and enriched their knowledge and skill in PLC.

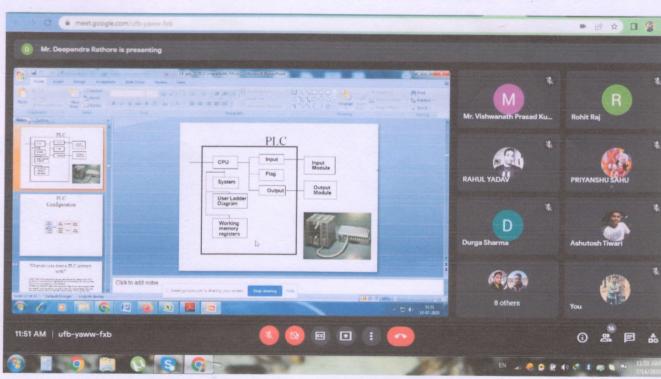

The motive of organizing this guest lecture was to provide detailed information to students regarding PLC, ladder logic development which will help students in implementing small ladder diagrams as per application and in their BE projects.

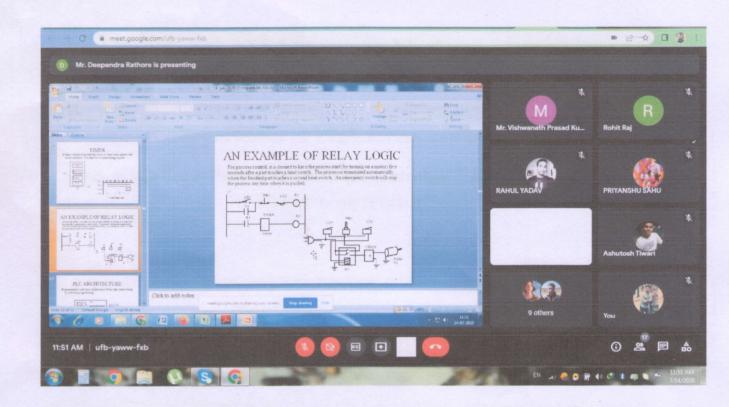

The session was very interactive and students participated enthusiastically. In the beginning Mr. DeependraRathore gave the introduction on PLC, History of PLC First Programmable Logic Controllers was designed, General PLC architecture, PLC operation sequence, Programming Languages of PLC, he also discussed about Ladder Logic diagram.

The vote of thanks was given by Mrs. Durga Sharma, HOD of electrical Engineering department.

CONSERVATION OF BIODIVERSITY OF CVRU CAMPUS

DATE: 03/08/2020

Department of Life Science from Dr.C.V.Raman University organized one day Guest Lecture on dated 03 August 2020 on "Conservation of Biodiversity of CVRU campus" at conference hall. Guest lecture focused on conservation of medicinal plants. The programme started at 12:00 noon with the Saraswati Vandana and the welcome address given by Dr. Shweta Sao HOD of Dept. of Life Science in virtual mode. The Guest Speaker was Dr. Snehal Moghe, Asst. Prof., Bilasa girls Autonomous College, Bilaspur (C.G.).

She delivered lecture on Biodiversity conservation refers to the protection and management of biodiversity in order to derive sustainable benefits for present and future generations. Biodiversity conservation is the protection and management of biodiversity to obtain resources for sustainable development. She talked as much as 42 per cent of terrestrial animal and plant species have vanished in the last decade.

She also talked another sector that was under threat freshwater ecosystem. Also she says human activities, including land use, natural resource extraction and pollution, are major reasons for this decline, apart from climate change. She detailed among plant species vary because of origin, mode of reproduction and traits of greater importance and adjustments were made to adapt to specific situations. She explained the mostly occurred plants in CVRU campus belonging to the family Cyperaceae. It was one of the largest families of the Monocotyledons. She detailed it was an assemblage of grass-like sedges growing at damp, marshy, waterlogged places, roadside ditches, paddy fields, around bank of muddyponds and sandy river belts. Dr. Snehal Moghe delivered lecture on Conservation of Biodiversity for this thanks to appreciation delivered by Dr. R. K. Singh.

Report on Awareness on Technology

To cultivate student learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students The program was initiated to create the awareness of Computers since their usage have almost become Omni present and a part of every bodies daily lives and also important in the field of education.

During the tough time of pandemic also we at cvru always thought of giving best to our students, in this regards an online programme was organized for the students for their assistance on **Steganography**. For this **Dr. Rajnish Ratna** Associate Professor, Management Studies, Gedu College of Business Studies (Royal University) Gedu, Chukha, Bhutan. delivered a lecture on 19th Aug.2020.

He explained

- What is steganography and how it works?
- What are the different types of steganography?
- What is steganography in cyber security?
- How steganography is used today?

"Virtual Classroom Management"

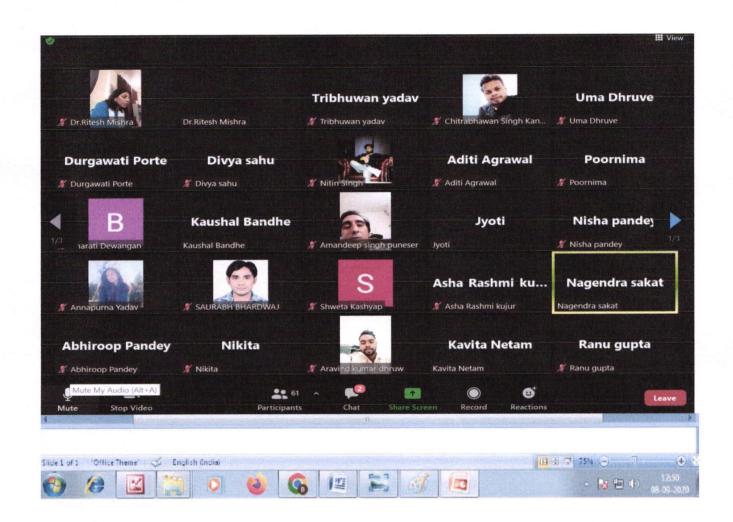

08/09/2020

ORGANIZED BY <u>DEPARTMENT OF EDUCATION</u> REPORT OF THE ON LINE LECTURE

One day online lecture on Virtual Classroom Management was organized by Department of Education, Dr. C. V. Raman University, Bilaspur, Chhattisgarh. This Online Program was inaugurated by the honorable Prof. Pramod Kumar Naik, Dean faculty of Education Dr. C.V. Raman University, Bilaspur (C.G.). In order to enrich all the participants with his knowledge, Ms Moutusi Bose was invited as an Expert for the Program. The entire online session was very interactive. At the beginning of the lecture, Ms. Bose defines that managing virtual classroom properly is essential for current pendamic situation but it remains a challenge for our country. She explained to the student teachers that children are most important stake holder of the society and now-a-days online teaching is the biggest challenge for all teachers. She suggested key elements for managing virtual classroom like how students will learn self-reliance; develop social-emotional skills, and master more content than they ever could in a live classroom.

Objective/Purpose of the Event:

The purpose of this program was to elaborate the concept of "Virtual Classroom Management" among the students as well as the faculty members and to explain its importance in current senerio. The objective of a Virtual Classroom is to improve access to advanced educational experiences by allowing students and instructors to participate in remote learning communities by using personal computers at home or at work and to improve the quality and effectiveness of education by using the computer to support.

Report on Awareness on Technology

Academic Year 2020-21

To aid students for learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students. To create the awareness of Computers since their usage have almost become Omni present and a part of every bodies daily lives and also important in the field of education.

Mr. Yashwardhan Agrawal, Sr. Engineer, Adani Power Ahmedabad took a session on Digitalisation on 17th Sept.'20. he demonstrated that in the pandemic time not only business but also the education, banking and medical field has under gone the revolution of Digitalisation. we have transform into a digitally empowered country. How it has drastically effected the education sector and gave rise to a E learning industry. To meet the challenges and create a sustainable future we require knowledge and close collaboration between the various actors in society. Our initiative seminar *Digitalisation* bring together experts from research, industry and the public sector to discuss the digitalisation progress and its potential consequences

Report on Expert talk On "Application of Microcontrollers in the World of Electricals"

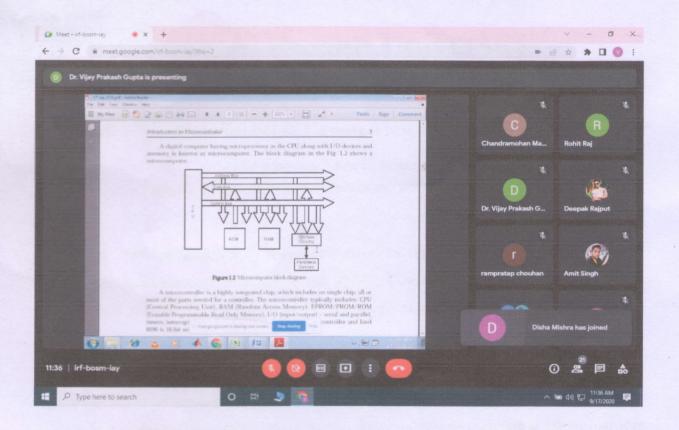

Expert talk On"Application Of Microcontrollers In The World Of Electricals" was conducted by Department of Engineering and IQAC, Venue Dr. C.V Raman University, kargi road kota Bilaspur. Dated 17th September 2020 on google meet platform.

The resource person was Dr. Vijay Prakash Gupta, Shree Rawatpura Sarkar University, Raipur. Forty Five students of the final year EE branch participated in the Seminar and enriched their knowledge and skill in "Application of Microcontrollers in the World of Electricals". He also discussed that how do microcontrollers work, the elements of a microcontroller, Microcontroller features, Types of microcontrollers and Microcontroller applications.

Dr. Vijay Prakash Gupta congratulated the students for enrolling in the Seminar in large numbers. The vote of thanks which was given by Mrs. Durga Sharma, HOD of EE. .

Department of Commerce and Management Report on Awareness on Technology

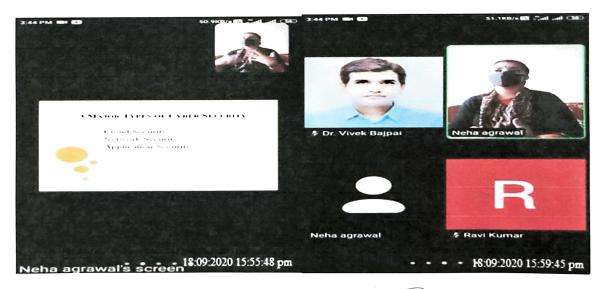

Academic Year 2020-21

To aid students for learning and development by supporting students in their academic, personal, and social growth university keep organizing different awareness, training programs for the students. To create the awareness on cyber security, the more worrying breaches are where student safety is compromised. It's an unfortunate fact that, while cybersecurity in Education is necessary to protect against financial loss and prevent disruption, it's also crucial to protect students from harm.

Ms. Neha Agrawal, Sr. Associate, cyber security A&T Corp. Raipur took a session on Cyber Security on 18th Sep'20. She explained why education is a target for cybercrime? How Education is targeted? what challenges are being faced by education?

Interaction With "ROLE OF PHARMACIST IN HOSPITAL" Date: 9th DECEMBER, 2020

PROGRAMME REPORT

Dr. C.V. Raman Institute of Pharmacy, Dr. C.V. Raman University, Kargi-Road, Kota, Bilaspur, Chhattisgarh had organized One-Day interaction meet on "ROLE OF PHARMACIST IN HOSPITAL" on 9th DECEMBER, 2020 as a part of Skill Development Programme.

The core concept of the Interaction Meet was to motivate the students, academicians and young researchers about the different roles of Pharmacist's in different fields e.g. pharmaceutical research and industrial field and hospital.

The concept facilitates the exchange of knowledge in terms of research and development and to endorse several educational institutions for preparing potential and efficient graduates. Thus the main objective of the interaction is to provide a common platform to discuss and update the knowledge with respect to the trend setting areas like pharmaceutical advances and clinical research in pharmaceutical sciences.

The lacture was held for one full day with Scientific and Innovative sessions. All the participants attended the session with lot of enthusiasm. Around 130 delegates were participated in the lacture and it was conducted on Zoom online platform.

Prof. (Dr)Saket Singh Chandel, addressed the gathering. The Chief Guest Prof. (Dr) S.S. Nayak, addressed the audience with his valuable speech and enumerated about "Role of Pharmacist in Hospital".

The Session was revoked by aspects in about "Role of Pharmacist in Hospital". All the delegates actively participated in interactions and raised various points which were clarified by the speaker. sessions were very fruitful and informative. The Organizing Secretary Ms. Niteshwari Bhargav has reported about full day events and expressed gratitude to all the resource persons, delegates, members of various committees of webinar and management of Dr. C.V.Raman institute of Pharmacy.

Thanking you

With Regards

Bilaspur

Expert Talk on Polymer Nanocomposites

Organized by

Department of chemistry and IQAC

On

16-10-2020

Report of the Event

Expert talk on Polymer Nano composites organized by Department of Chemistry, centre of excellence for advanced environmental research and IQAC on 16-10-2020. Dr Jayati Chatterjee Mitra Head of the Department of Chemistry and co-ordinator IQAC welcomed resource person , all faculty members and participants. Dr Mitra had given brief introduction about the invited talk. The resource person of the expert talk was Dr Janita Saji Department of Science and Humanities, School of Engineering and Technology CHRIST (Deemed to be University) Bengaluru . The abstract of the talk was Nanoscience break throughs in almost every area of sciences and nanotechnologies make life easier in this era. Nanoscience, nano chemistry and nanotechnology address an extending research area, which includes structures, devices, and systems with novel properties and functions due to the arrangement of their atoms on the nano meter scale. Nanotechnologies contribute to almost every field of science, including physics, chemistry, biology, computer science, materials science and engineering. This review shows principles and development of nanoscience and nanotechnology and represents the pre-modern as well as modern timeline era of discoveries and milestones in these fields. The session was about the recent advancement and application of Polymer nano composites. The session was very informative and interactive 100 participants joined the session and at the end of session lots of question were asked by students and scholars in question answer.

Dr Manish Upadhyay Professor and chairperson Centre of Excellence for Advanced Environmental Research (CAER) had given vote of thanks after successful completion of the event.

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Partial Differential Equations (PDE).

Program Date: 26-10-2020 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava

Keynote Speakers: Prof(Dr.) Barun Yadav, CEC, Bilaspur. **Audience:** UG and PG students and Faculty members.

[Program Details]

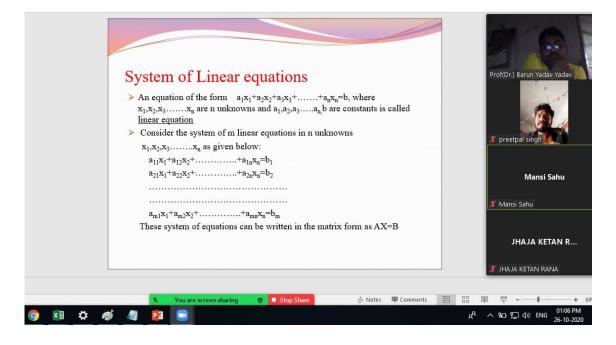

A Guest lecture on Partial Differential Equations(PDE) was organized by Department of Mathematics for UG and PG students on 26-10-2020 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) Barun Yadav.

The Program started as the chief guest and other dignitaries arrived in the seminar hall at 11:10 am. Miss Rashmi Nagesh and Miss Surabhi Sharma, Students from Mathematics Department welcomed the all guests.

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) Dilip Kr. Jaishawal, started his session with the introduction of Partial Differential Equations(PDE) and one by one he gives the basic of several topics of applied mathematics. Prof(Dr.) Dilip Kr. Jaishawal, also motivate PG students for research in the field of Integral Transforms, special function and Fractional Analysis. He taught each and every basic about the Transforms by taking relevant examples & tried to clear the concepts. He focuses on different types of Partial Differential Equations (PDE). He also cleared the doubts of students by taking real time examples.

In this program total 69 numbers of students and all faculty member of Mathematics were present.

At the end, Anchors Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

DEPARTMENT OF ENGINEERING

SUMMARY REPORT

Name of the program:

Guest Lecture on Cloud Computing

Organized by:

Department of Engineering , Dr. C.V. Raman University , Kota

Bilaspur(CG)

Date:

09th November, 2020

Detailed Report

The Department of Engineering was organized one day Guest lecture on the topic "Cloud Computing" dated 09-November-2020. The programme started at 11:00 am in virtual mode with the welcome address by Dr. RohitMiri, the expert for the event was Dr. Nilmani Verma, Assistant Programmer, NIC, Raipur CG.

Dr. Nilmani Verma gave a very interesting and interactive lecture on cloud computing concepts.. He explained in very simple words that cloud computing is a very demanding field these days and it is the delivery of computing services - including servers, storage, databases, networking, software, analytics, and intelligence over the Internet (the cloud) to offer faster innovation, flexible resources, and economies of scale. You typically pay only for cloud services you use, helping lower your operating costs, run your infrastructure more efficiently and scale as your business needs change.

Apart from this, while giving interesting information on cloud security. He said that Cloud security involves the procedures and technology that secure cloud computing environments against both external and insider cybersecurity threats. Cloud computing, which is the delivery of information technology services over the internet, has become a must for businesses and governments seeking to accelerate innovation and collaboration. Cloud security and security

management best practices designed to prevent unauthorized access are required to keep data and applications in the cloud secure from current and emerging cybersecurity threats.

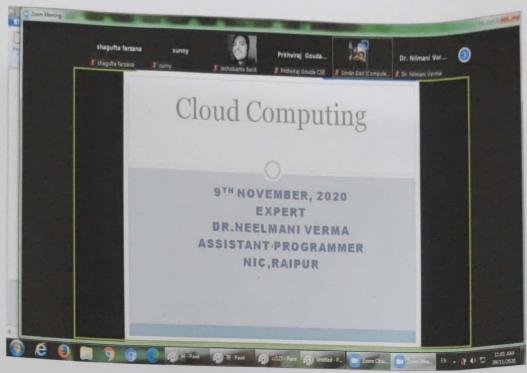

After the completion of the session Dr. NilmaniVerma took feedback from the students, then the students told that they learned a lot and enjoyed it too. In this event more than 61 students, faculty members were present.

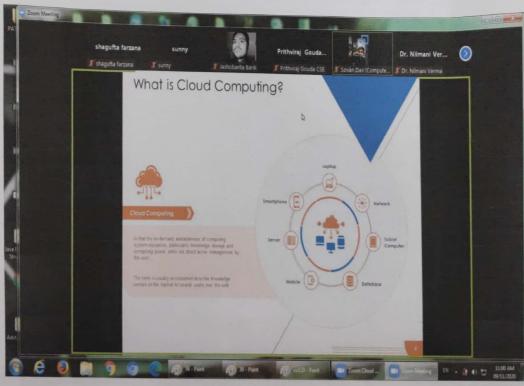

At the end of the session Dr. Rohit Miri on behalf of the department presented a appreciate of token to Dr. Nilmani Verma.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Branch Head, Computer Science and Engineering branch, Dr. C. V.Raman University, Bilaspur (C.G.)

of Science & Technology Kota, Bilaspur (C.G.) Principal

Dr.C.V. Raman Institute of Science and Technology

Circular

This is to inform that the Civil Engineering Branch of Department of Engineering is going to organize one day expert talk on "ROAD DEVELOPMENT & PLANNING" dated on 18 November, 2020 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate.

Kindly circulate this information to all the students' faculty and staff members' of other institutions also.

Name of the program: Expert talk on Road Development & Planning

Organized by: Jointly Organized by Department of Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 18Th November, 2020

Detailed Report

The Department of engineering branch of civil has organized a one day expert lecture on Road Development & Planning. This program included an Expert talk by the expert, Mr. S.K. Jain, Team Leader in CG Limited Jaipur (Rajasthan).

Mr. Jain has delivered very thoughtful Knowledge in the field of Road Development & Planning. In his deliberation he has given very important information i.e. this lecture covers a brief history of highway engineering, highlighting the developments of road construction.

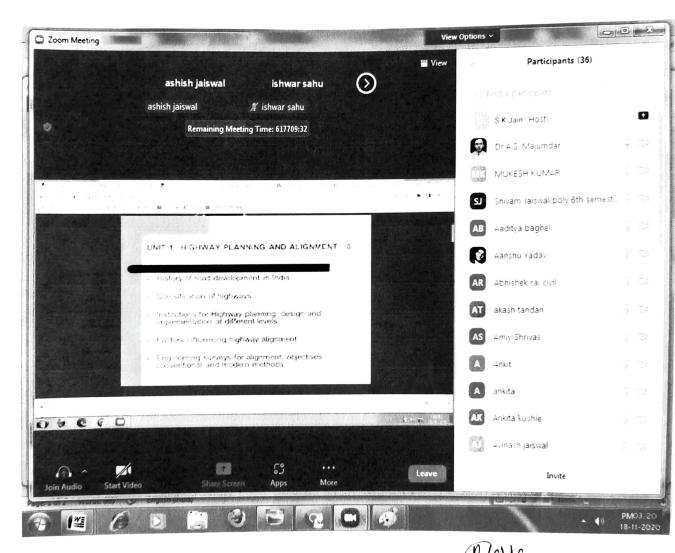

The highway development and classification of Indian roads are also discussed. The major classes of roads include National Highway, State highway, District roads, and Village roads. Finally, issues in highway alignment are discussed. The characteristics of cross-sectional elements are important in highway geometric design because they influence the safety and comfort. Camber provides for drainage, frictional resistance and reflectivity for safety etc. The road elements such as kerb, shoulders, carriageway width etc. should be adequate enough for smooth, safe and efficient movement of traffic. IRC has recommended the minimum values for all these cross-sectional elements. Pavements form the basic supporting structure in highway transportation.

Each layer of pavement has a multitude of functions to perform which has to be duly considered during the design process. Different types of pavements can be adopted depending upon the traffic requirements. Improper design of pavements leads to early failure of pavements affecting the riding quality also.

The following new road classification system was proposed:

- (1) Primary System, consisting of Expressways And National Highways;
- (2) Secondary System, consisting of State Highways consisting of other District Roads and VillageRoads and Major District Roads; and,
- (3) Tertiary System (Rural Roads), etc.

In this event more than 40 students, faculty and staff members were present. The event was concluded by vote of thanks which was given by the Dr. A.S. Majumdar, Head of civil engineering branch, Dr. C. V. Raman University Kargi Road Kota Bilaspur (C.G.)

Circular

This is to inform that the Civil Engineering Branch of Department of Engineering is going to organize one day guest lecture on "Structural Engineering Design on Retaining Wall" dated on 20 November 2020 to create awareness among students and faculty members of the University. So it is requested to all the faculties and students to take keen interested for this event and participate in the Event.

Guest Lecture on Structural Engineering Design On Retaining Wall

Organized by: Jointly Organized by Department of Engineering & IOAC, Dr. C.V. Raman University

Date: - 20th November, 2020

Detailed Report

The Department of Engineering branch of civil has organized aone day Guest lecture on the topic "Structural Engineering Design on Retaining Wall" This event was included guest lecture by the guest, Mr. Parimal Shukla, S.D.O, PWD Bilaspur (C.G.)

Mr. Parimal Shukla had given a very fruitful and informative lecture of Structural Engineering Design on Retaining Wall. He had delivered and focused on challenges and possibilities in Structural Engineering Design on Retaining Wall. Apart from Structural Design, he gave information related to Structure Design and behavior analysis in this field. The discussion of Indian Standard Codes required for the practice of Bridge Engineering was covered in detail. Emphasis was laid on the adherence to the codal provisions.

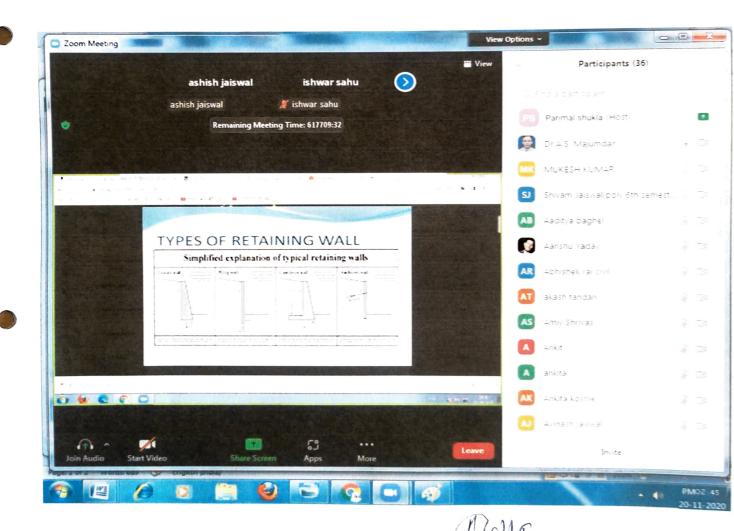

The design of bridge was covered in two parts – the design of substructure which includes soil investigation, design of foundation, design of piers, hydrological studies, and design of pier caps and bearings; the design of superstructure which includes the design of deck slab, beams, wearing surface, expansion joints, and certain functional elements like railings, lightings, footpaths etc.

The students were able to relate to the classroom concepts while extracting knowledge from the experience of the resource person. Particular details and challenges that can rise in construction were discussed in detail including aspects of climatic conditions, risk factors, and disaster mitigation.

Learning Outcomes:-

- 1. Knowledge of application of codal provisions in practical design and culverts construction of bridges and
- 2. Recognition of preliminary essentials required prior to the design and culverts construction of bridges and
- 3. Identification and adoption of best techniques for construction in different environments.

In this event more than 40 students and faculty members were present. The event was concluded by vote of thanks which was given by Mrs. Renu Tiwari, Assistant Professor, Branch of Civil Engineering, Dr. C. V. Raman University, Bilaspur (C.G.)

BRIEF REPORT OF THE PROGRAM

The One Day Invited Lecture on "ICT tools and applications" was organized by Department of IT & CS, and Internal Quality Assurance Cell (IQAC), Dr. C. V. Raman University, Kota, Bilaspur (C.G.) on 8th January, 2021. Due to unforeseen circuimstances of COVID-19 this program was conducted in online mode.

UGC is constantly trying to expand the use of ICT tools to promote effective and interactive teaching in higher educational institutions. Therefore, the main objective of this program is to provide information and training to teachers about the use of ICT tools.

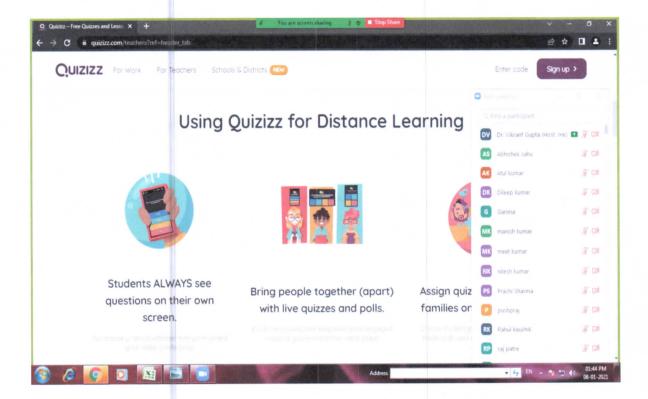

This program was inaugurated by Mr. Gaurav Shukla, Honorable Registrar, Dr. C. V. Raman University, Bilaspur (C.G.) and Prof. Manish Upadhay, Principal, Dr. C. V. Raman Institute of Science & Technology was present as special guests in this program. Dr. Vikrant Gupta, Assistant Professor, Batmool Ashram College, Raigarh (C.G.), was invited as an expert for this invited lecture. A total 169 participents from the IT department have been participated in this invited lecture.

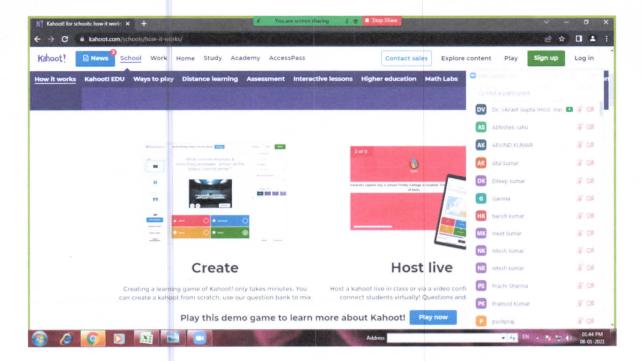

Mr. Gaurav Shukla, Prof. Manish Upadhay, Dr. Ragini Shukla, Dr. Vikrant Gupta, faculty members and students of the department was welcomed by Dr. Abhinav Shukla, Head of Department of IT & CS. After this, Mr. V. Anurag Rao, Assistant Professor of the Page 1 of 3

department, introduced Dr. Vikrant Gupta and also discuss the objectives and schedule of the program.

Dr. Gupta initially defines the fundamentals of ICT. After that, he explained some popular ICT tools and types of ICT tools as per their use and benifits. He also describes importance and role of ICT tools in education and research. The expert also explained how to use ICT tools in the classroom for innvovative teaching. He aslo explained to the students, how to use ICT toos for better learning and understaning.

At the end of the lecture many questions were asked by the participants regarding ICT tools. Dr. Gupta was also glad by answering of all the questions. In the end, Mr. B. R. Sahu, Assistant Professor (IT & CS Department) expressed gratitude to all the guest, expert and participants of the program.

The report has been verified by the HOD of the department.

Dr. C. V. Raman University Kargi Road Kota, Bilaspur (C.G.) Department of Law REPORT

Name of Program: Training Programme on Uses of Various E-Learning Platforms.

Date: 10th February 2021.

Time: 01:00 pm to 03:00 pm.

Co-ordinator: Mr. R. P. Choudhary, Department of Law.

Detailed Report:

A training programme on "Uses of Various E-Learning Platforms" conducted on 10th February 2021 a total of 29 participants of law students actively participated in the programme.

Mr. Ritesh Singh, Area Head Chhattisgarh, Regent Computronics Pvt. LTD, Ahmedabad explained briefly about the various platforms of e-learning and its advantages in education. So that students can understand how it is useful to them for learning. He further explained about various things as follows:

An online learning platform emphasizes and presents the learner's perspective whereas an online course platform takes the perspective of the online instructor/ teacher.

The two titles are often used interchangeably, and the real differences come from the person using the definition and the context of the conversation. From a students' perspective, a learning platform is a place to find educational content, search and buy courses, or whole educational programs. While from an educator's perspective, it is the place to deliver knowledge.

Using an **online learning platform** takes off a lot of the hard work of building an audience, marketing, and sales, but you may not have control over pricing, user data, and branding.

With an online course platform, you have greater flexibility and freedom in managing your learning resources. Also, you get to have a say in the design and look of the entire website that hosts your online courses and the course itself how it is presented and promoted. What

you are going to choose essentially comes down to your learning needs.

In conclusion students were trained with the practical knowledge of all process to go through e-learning platforms. The whole session was followed by solving doubts where, the students got knowledge about using various e-learning platforms. After the completion of the program Mr. R. P. Choudhary, Head, Department of Law thanked to all the attendees and appreciated the training programme led by the guest.

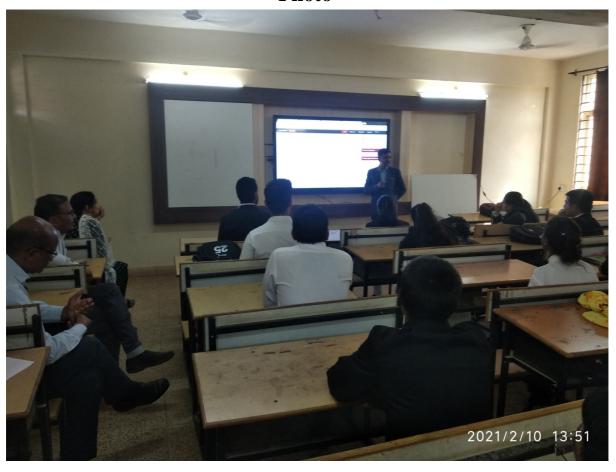

This report is certified by Head of department.

Notice

All the respected Deans and HODs of their respective department are hereby informed that the Department of Physics is going to conduct **ONLINE AWARENESS PROGRAMME ON NUCLEAR TECHNOLOGY & YOUTH on 22 FEBRUARY -2021**. We are going to conduct various events in this occasion.

We request you to please circulate this information to all the students of your department as well encourage them to participate in the events.

The detail of the events has been attached herewith.

Thanking you!

REPORT OF AN ONLINE AWARENESS PROGRAMME ON NUCLEAR TECHNOLOGY & YOUTH

Prog Date: 22.02.2021 Date: 24.02.21

An Online Awareness Programme on "Nuclear Technology & Youth" has been organized by the Department of Physics and IQAC of Dr. C.V. Raman University, Bilaspur in association with IAPT, RC-10. The knowledge of Atomic structure, nucleus, research reactor, atomic energy commission, Bhabha Atomic Research Centre, reactor map of India, contribution of nuclear reactor in different sector really are very important.

The resource person Dr. A. K. Jain, Nuclear scientist, Emeritus Professor, IIT, Roorkee delivered a maiden speech on nuclear technology & youth and splitted different aspects of importance of nuclear technology.

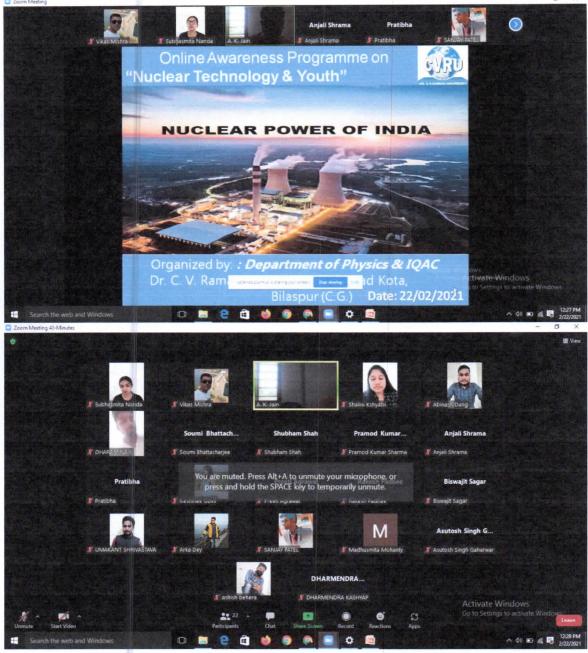

Nuclear physics and particle physics plays pivotal role in reactor physics. He started his lecture from atomic structure and stretched tile nuclear technology. He spotted the graph of India in relation to nuclear energy and depicted nicely. He encouraged and serves as a national integrity.

Mr. Gaurav Shukla, Registrar stressed the importance of nuclear technology in the benefit of human being. Dr. A. K. Shrivastava showed a map regarding working and service of reactor. All reactor are divided into five colours.

Dr. M. Z. Khan, , Mr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. D.V.K. Narasingham, Mr. Nitesh Kumar and Miss. Priyanka Shukla were present from the Department.

Lastly Mr. Vikas Mishra gave vote of thanks. The programme was conducted via online mode.

Department of Mathematics ACTIVITY REPORT

Program Name: Guest Lecture on Advanced Optimization Theory

Program Date: 25-02-2021 **Venue:** Seminar hall, B Block

Dignitaries on Dais: Registrar Shri Gaurav Shukla & Dean of Science Dr. A. K. Shrivastava

Keynote Speakers: Prof(Dr.) Subhashish Biswas, Professor of Mathematics, Kalinga University(Raipur)

Audience: PG students, Research Scholars and Faculty members.

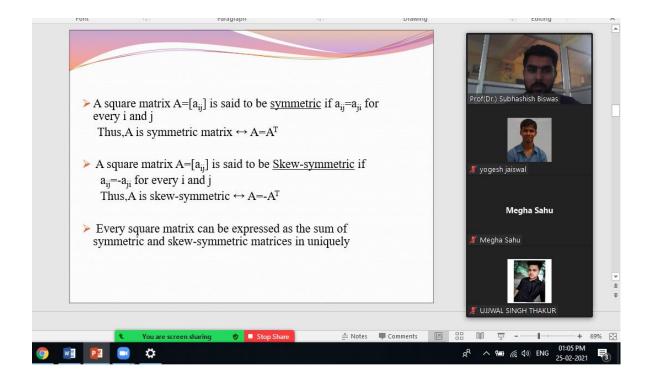

[Program Details]

A Guest lecture on Advanced Optimization Theory was organized by Department of Mathematics for UG and PG students on 25-02-2021 at 11:00 a.m. in the Seminar Hall. This program included a guest lecture by the expert, Prof(Dr.) Subhashish Biswas.

The Program started and join all the dignitaries in online mode at 11:10 am. Prof. P. L. Yadav from Mathematics Department welcomed the all guests .

Later in opening Speech our respected Registrar Shri Gaurav Shukla Sir motivated students & thanked our guest for sparing his precious time for the students. This motivation was continued by the Dean of Science Dr. A. K. Shrivastava and HOD with his words of wisdom for the students. To continue further program, the speaker Prof(Dr.) Subhashish Biswas, started his session with the introduction of optimization theory and one by one he gives the basic of several topics of applied mathematics. Prof(Dr.) Subhashish Biswas, also motivate PG students for research in the field of Advanced Optimization Theory. He taught each and every basic about the advanced optimization Theory by taking relevant examples & tried to clear the concepts. He focuses on different types of Advanced Optimization Theory. He also cleared the doubts of students by taking real time examples.

In this program total 67 numbers of students and all faculty member of Mathematics were present. At the end, Anchor Mrs. Yamini Yadav delivered vote of thanks to the dignitaries.

Report on

Name of Programme- Guest lecture on Artificial Intellegence.

Organized by- Department of Social Science and IQAC Cell

Date- 05th March, 2021

Detailed Report:

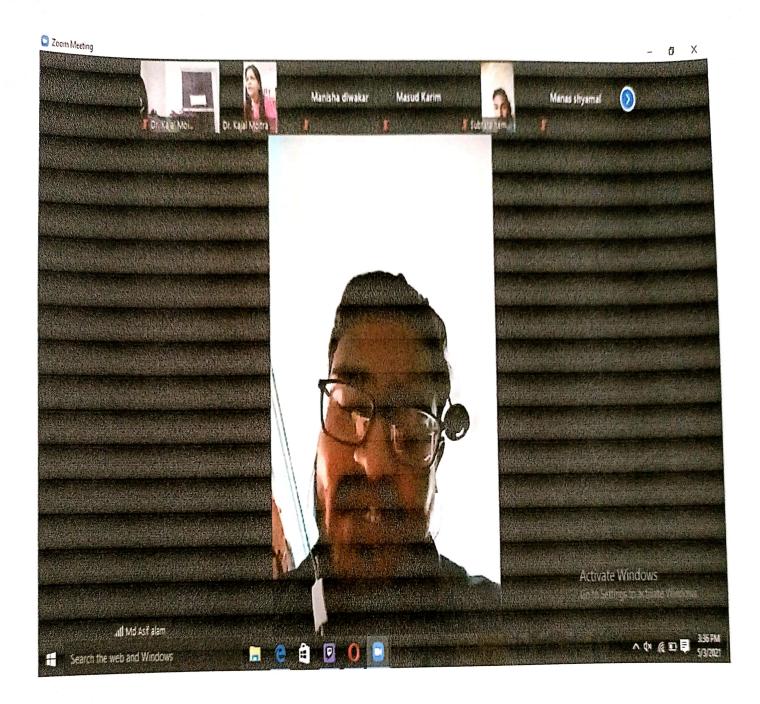

A Guest lecture was organized by the Department of social science and IQAC Cell on 30th March, 2019 on the topic of Role of IPR For academia.

The main Speaker at the event was Mr. Rohit Raja , Associate Professor, Department of CS and IT, Gurughasidas Central University.

Dr Raja explained in his talk that Undoubtedly, Artificial Intelligence (AI) is a revolutionary field of computer science, which is ready to become the main component of various emerging technologies like big data, robotics, and IoT. It will continue to act as a technological innovator in the coming years. In just a few years, AI has become a reality from fantasy. Machines that help humans with intelligence are not just in sci-fi movies but also in the real world. At this time, we live in a world of Artificial Intelligence that was just a story though for some years. We are using AI technology in our daily lives either unknowingly or knowingly, and somewhere it has become a part of our life. Ranging from Alexa/Siri to

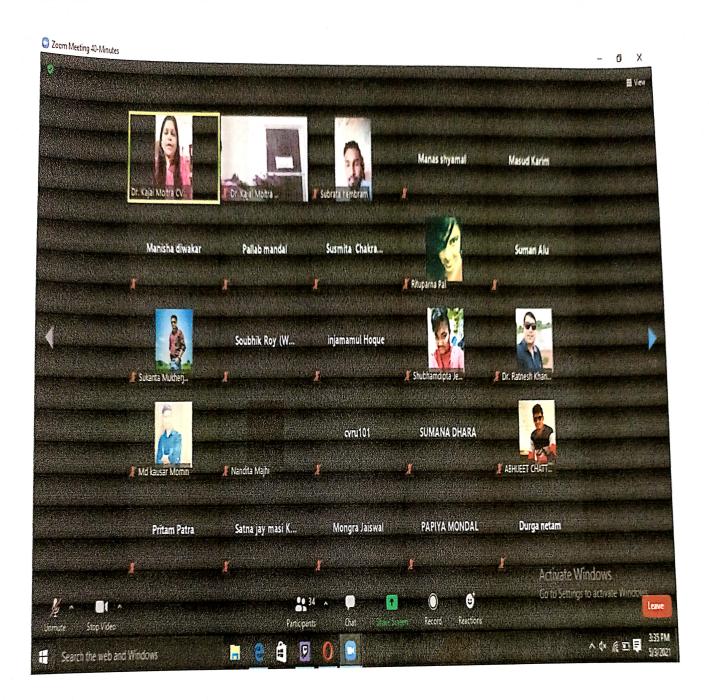

Chatbots, everyone is carrying AI in their daily routine. The development and evolution of this technology are happening at a rapid pace. However, it was not as smooth and easy as it seemed to us. It has taken several years and lots of hard work & contributions of various people to take AI at this stage. Being so revolutionary technology, AI also deals with many controversies about its future and impact on Human beings. It may be dangerous, but also a great opportunity. AI will be deployed to enhance both defensive and offensive cyber operations. Additionally, new means of cyber-attack will be invented to take advantage of particular vulnerabilities of AI technology.

52 students participated in the program and at the end of the programm, Professor Kajal Moitra gave a brief description of the program and thanked all the guests.

One Day National E- Seminar

WOMEN AND TECHNOLOGY

Date: 17/03/2021

Speaker: N.J. Bhatt, Scientist, Minal Sampat Vikram Sara bhai Space Centre Ahmedabad

Organized by: Department of Physics & IQAC

Dr. C.V. RAMAN UNIVERSITY

Kargi Road, Kota, Bilaspur, (C.G.)

(Accredited with B+ Grade by NAAC)

REPORT OF E-SEMINAR ON "WOMEN & TECHNOLOGY"

Prog Date: 17.03.2021 Date: 18.03.21

A one day National E - Seminar on recent topic entitled "Women & Technology" in the birth anniversary of Kalpana Chawla has been organized by the Department of Physics and IQAC of Dr. C.V. Raman University, Bilaspur in association with IAPT, RC-10.

Now a day's women have skilled in all areas. On the birth anniversary of astronaut Kalpana Chawla a programme has been organized to fulfillment of importance of women.

This programme has been organized by Department of Physics with the help of Vikram Sarabhai space exhibition, Space Application Centre, Ahmedabad, with the coordination of scientist N. J. Bhatt the scientist Minal Sampat demonstrated with audio-video clips of Kalpana Chawla. She said that Kalpana Chawla is the role model of Indian women because very few means she achieved the target and became India's pride. Before starting the programme scientist N. J. Bhatt showed virtual tour of the laboratory. There were 66 students present.

Hon'ble Vice Chancellor Dr. R. P. Dubey appreciated the type of ISRO- based activities. Dr. A. K. Shrivastava expressed about ISRO and young youths.

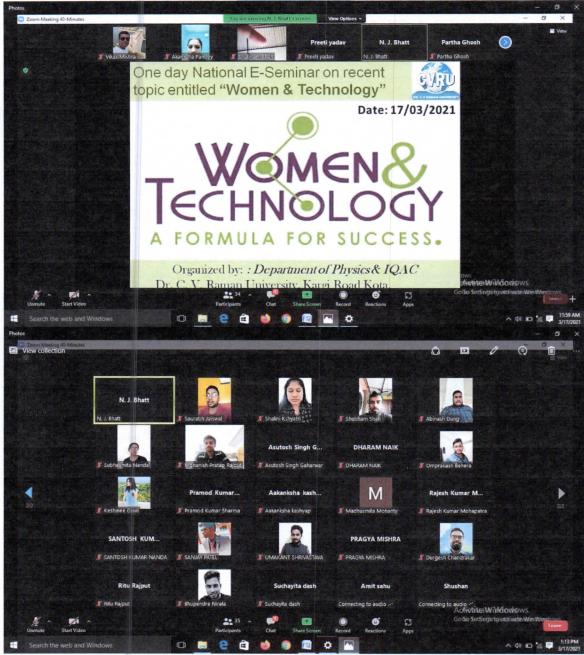

Besides these scientists N. J. Bhatt suggested through career counseling about ISRO based job.

Dr. M. Z. Khan, Dr. Ashutosh Pandey, Mr. Vikas Mishra, Mr. Umakant Shrivastava, Mr. D.V.K. Narasingham were present.

Dr. Amit Sharma gave vote of thanks.

This programme has been concluded via online mode. Very much Participants were present in Programme.

BRIEF REPORT OF THE SESSION

The One Day Interactive Session on "Programming Skill & Resource Planning" was organized by Department of IT & CS and Internal Quality Assurance Cell (IQAC), Dr. C.V.Raman University, Kota, Bilaspur (C.G.) on 14th May, 2021. Due to the unusual circumstances of COVID-19, this session was conducted in online mode.

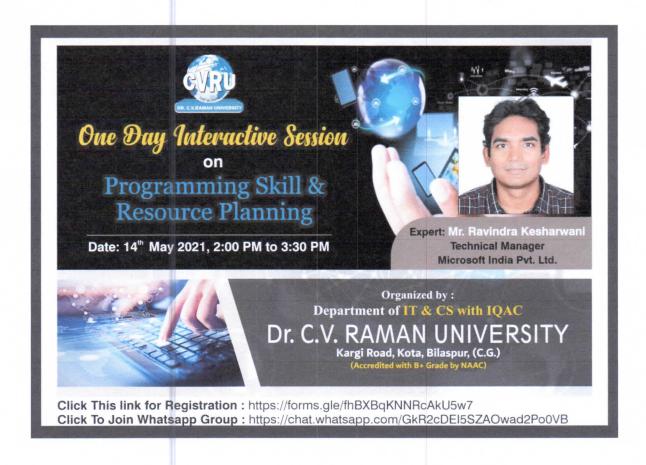

The main objective of that session was to develop the ability of programming skills in the students, research scholars and faculties and to train them for effective planning of available resources during application development.

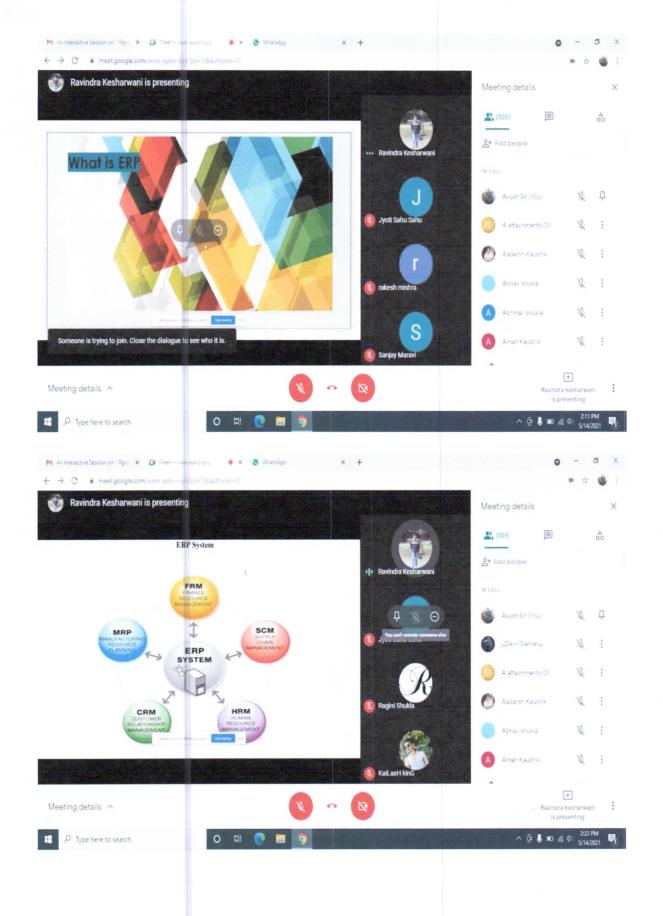

This session was presided over by Dr. Ragini Shukla, Dean of Department of IT & CS. Mr. Rakesh Mishra, Deputy Registrar of Examination Department of this university, was presented as special guests in this session. Mr. Ravindra Kesharwani, Technical Manager, Microsoft India Pvt. Ltd. (India) was invited as an expert. A total of 342 participants participated in this session.

The session was inaugurated by Dr. Ragini Shukla, Dean of IT & CS Department. After the inauguration, Dr. Ragini Shukla, Shri Rakesh Mishra, Mr. Ravindra Kesharwani, faculty and staff members of department and all the participants were welcomed by Dr. Abhinav Shukla, Head of Department. After this, Mr. Ayush Agrawal, Assistant Professor of department, introduced Mr. Ravindra Kesharwani and discussed the objectives and outline of the session.

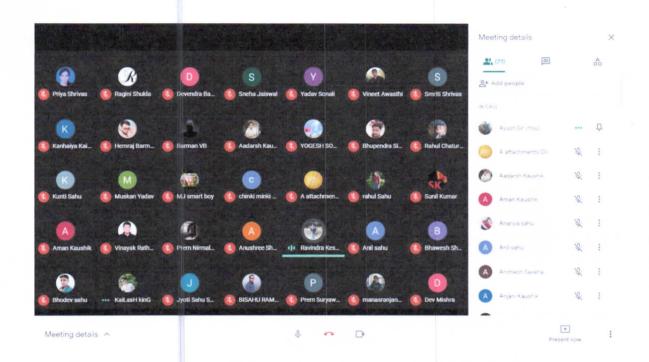

In the beginning of the session, Mr. Kesharwani explained, how we can develop programming capabilities within ourselves for application development which is complete, reliable and error-free. He has also provided the detailed information about the popular tools and platforms for software development. Mr. Ravindra Kesharwani introduced Enterprises Resource Planning (ERP) in detail and explained its basic concepts and principles. Along with this, he underlined its importance and applications in Software Industries in the present era. He described some popular and most frequently used approches to plan the available resources in efficient and effective manner.

At the end of the session many questions were asked by the participants to the expert regarding Programming skills and Resource Planning. The expert was also satisfied by answering the questions. In the end, Mr. Suraj Prasad Keshari, Assistant Professor (IT & CS Department) expressed gratitude to all the participants of the session.

BRIEF REPORT OF THE SESSION

One Day Interactive Session on "Database Concepts" was organized by Department of IT & CS and Internal Quality Assurance Cell (IQAC), Dr. C.V.Raman University, Kota, Bilaspur (C.G.) on 22th May, 2021. Due to the COVID-19 pandemic, this session was conducted in online mode.

The main objective of this session was to acquaint the students, research scholars and faculties with the basic concepts of the database so that they can develop the necessary skills and better understanding to work in the field of Database Management.

This session was presided over by Dr. Ragini Shukla, Dean of Department IT & CS. Mr. Rakesh Mishra, Deputy Registrar of Examination Department of this university, was present as special guests in this session. Mr. Tamradhvaj Dewangan, Team Leader, Mindtree. Ltd., New Delhi (India) was invited as an expert. A total of 242 participants participated in this session.

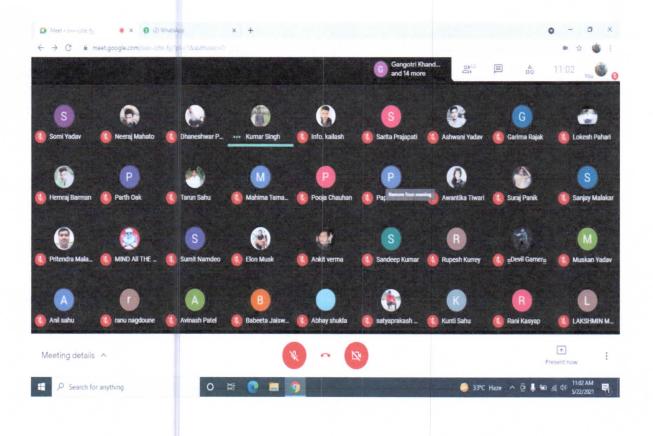

The session was inaugurated by Dr. Ragini Shukla, Dean of IT Department. After the inauguration, Dr. Ragini Shukla, Shri Rakesh Mishra, Mr. Ravindra Kesharwani, faculty

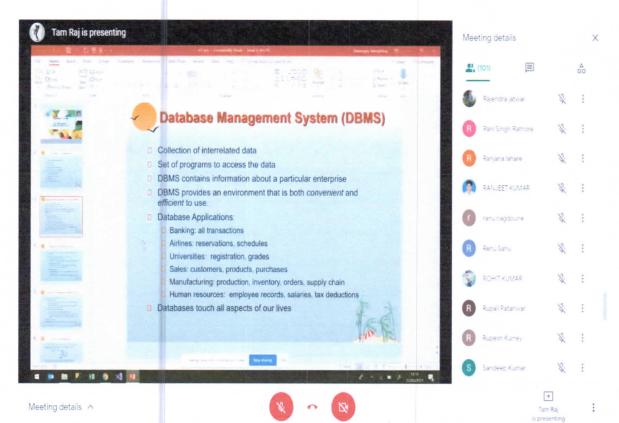

and staff members of department and all the participants were welcomed by Dr. Abhinav Shukla, Head of the Department. After this, Mr. Ayush Agrawal, Assistant Professor of the department, introcuded Mr. Tamradhvaj Dewangan and discussed about the objectives and outline of the session.

In the beginning of the session, Mr. Tamradhvaj Dewangani described the outline of his lecture. After this, He defines the database with suitable examples. Mr. Devangan explained the various applications and importance of database in present era. Mr. Devangan describes the file system used to store the data and its drawbacks before the database system. The concept of database system came into existence only due to the limitations of the file system. He explained various database models for database design and also discussed their merits and demerits. He told that the relational model is most popular and powerful database model in present era. He mentioned some RDBMS models. He also describes various SQL commands used for database management of with suitable examples.

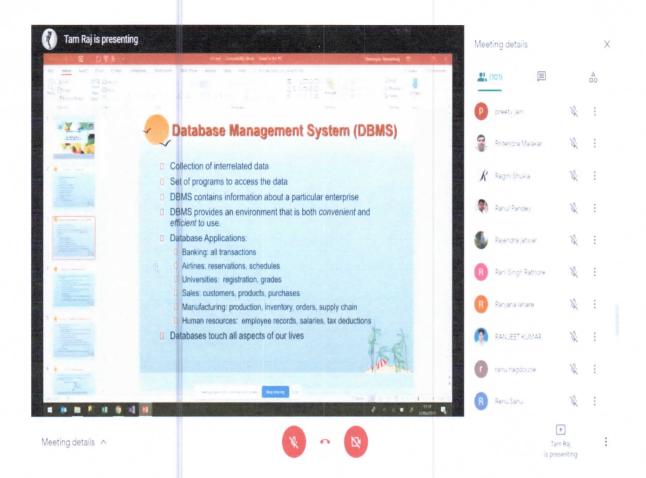

At the end of the session many questions were asked by the participants to the expert regarding database management. The expert sir was also satisfied by answering the questions. In the end, Mr. Suraj Prasad Keshari, Assistant Professor (IT Department) expressed gratitude to all the participants of the session.

Special Lecture on on Flame photometer and its analytical Skills

Organized By

Department of Chemistry and IQAC

On

10-06-2021

Report of the Event

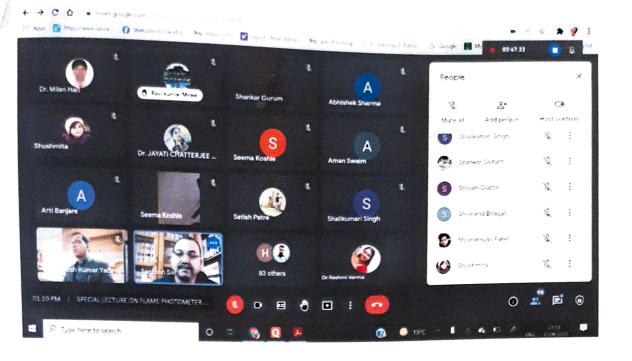

Department of chemistry and IQAC organized the online Special Lecture on flame photometer and its Analytical Skills on 10-06-2021. In inaugural session Dr Jayati Chatterjee Mitra welcomed resource person. A photoelectric flame photometer is a device used in inorganic chemical analysis to determine the concentration of certain metal ions, among them sodium, potassium, lithium, and calcium. Group 1 and Group 2 metals known for quite sensitive to Flame Photometry due to their low excitation energies. The keynote speaker of the lecture was Dr Santosh Sar Professor chemistry BIT Durg. The lecture conducted in two online Session 10.30 to 12.00 noon and 2.00 -5.00pm. Faculty member and all the participants. First technical Session totally focused on theory and instrumentation of Flame photometer. Total 100 Participants have joined the session and interacted with recourse person. In Second session Dr Sar explained nicely about the application of Flame Photometer in research by giving the examples. The second session is very informative session for the students of M.Sc. and Research scholars. At the end of the Session scholars, students and delegates were interacted with their question about the instrument.

Dr Jayati Chatterjee Mitra head of the department of chemistry and co-ordinator IQAC has been given vote of thanks after successful completion of the workshop.

Department of Law

REPORT

Name of Program: Training Programme on Uses of Legal Software (The Laws)

Organized by: Department of Law

Date: 21st June 2021

Time: 12:00 am to 01:30 pm

Mode: Online

Co-ordinator: Dr. J. K. Patel Head Department of Law

Detailed Report: Training Programme on Uses of Legal Software conducted on 21st June 2021 a total of 47 participants of law students actively participated in the training programme.

The training programme started with the brief introduction of invited trainer Mr. Ritesh Singh, Area Head Chhattisgarh, Regent Computronics Pvt. LTD (The Laws), Ahmedabad by the co-ordinator Dr. J. K. Patel (Head Department of Law) to all of the participants. The resource person gave a brief introduction on the topic "Training Programme on Uses of Legal Software (The Laws)" he gave detailed training about the uses of legal software.

Further Mr. Ritesh Singh explained the students, steps of using software, firstly he explained about the operating of system, from where software can be started or how to start software. Next students learned about the main window of the software when it opens.

Next he made the students familiar with all the options and menus of the software and its uses he gave current demos by using those all options practically. He explained the software in below given points:

How cases can be searched?

- What are the steps of finding Laws and Statutes in software?
- How company is prompt about its services and how many kinds of services it provides?
- All Bare Acts are available.
- More than 10 lakh judgements are available in the software.
- Various courts are enjoying services of software.

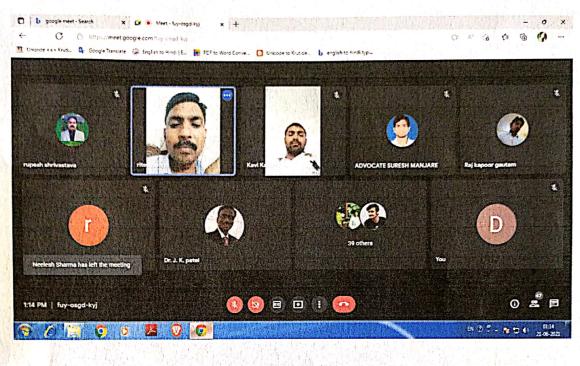

This training session was followed by some difficulties with students which were guided properly by Mr. Ritesh Singh to ease the students on operating the software. After the completion of the program, Vote of thanks was given by Dr. J.K. Patel Head Department of Law and thanked all the students who participated in this event and made it a big success.

This report is certified by Head of the Department.

DEPARTMENT OF EDUCATION

A

One Day

Online Guest Lecture

On

"Curriculum"

Organized by Department of Education

24/06/2021

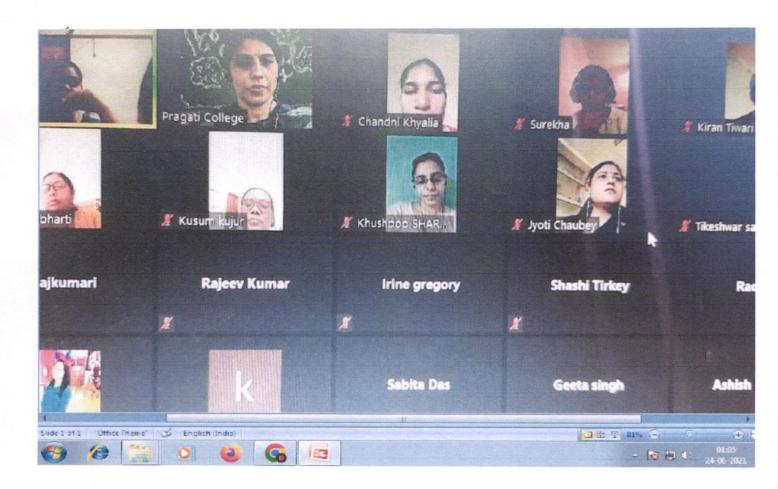

REPORT OF THE PROGRAM

The main objective of this program was to introduce the concept of "Curriculum" to the student teachers. The main purpose of this guest lecture (online) was to explain the key role and importance of Curriculum Development in education.

This Program was inaugurated by Dean Department of Education Prof. Pramod Kumar Naik of Dr. C. V. Raman University, Bilaspur (C.G.). Dr. Ritesh Mishra Asst. Professor of Pragati College Raipur was invited as an expert of this session. The whole session was very interactive and students actively participated as well as they asked and discussed so many key points related to curriculum with expert. The main purpose of the lecture was to provide better training to the teachers for authentic teaching situations. Preservice teachers should become familiarized with the application of curriculum development theory in their training programs. Expert presented detailed aspects of curriculum and discussed how the students of training colleges can be more prepared to face the challenges of course development by outlining their own experience designing a curriculum for any subject in school. Curriculum development is the process that teachers can experience designing a curriculum for any subject in school. Curriculum development is the process in which teachers can experience professional growth and empowerment. The lecture was attended by 90 students from B.Ed. and M.Ed. and faculty members.

At the end of the session expert answered all the queries of the students and followed by the end of the session, vote of thanks presented by Dr. Krishna Kumar Pandey.

Some of the glimpses of the online lecture based on the topic of curriculum Development are given below:

HOD
Deptt. of Education
Dr. C.V. Raman University

Virtual classrooms are meant to -

- · Replicate the experience of physical classrooms,
- · Benefits of file sharing,
- Instant feedback,
- Interaction,
- Distance learning situations.

Outcome of the Event:

Resource Persons with Profile Details	Торіс	Major Insights
Ms. Moutusi Bose, Assistant Professor, School of Education, Adamas University	Virtual Classroom Management	Some Points Discussed are as Follows: - Flexibility and Accessibility. Relationship Building. Participation in Online Discussions. Improved Technology Skills. Engaging Online Learning Platforms.

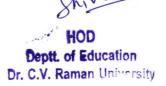

As Event Abstract:

Department of Education, Dr. C.V. Raman University, Bilaspur (C.G.) organized a One Day Online Invited Lecture On "Virtual classroom Management" on 05.09.2020 on online mode. Most of the faculty members of DOE and the students participated in the program. Ms. Moutusi Bose, Assistant Professor, School of Education, Adamas University was the speakers of this event. In this program, Ms. Bose broadly discussed virtual classroom refers to an online system that allows students and teachers to communicate and collaborate. The purpose of implementing classroom management strategies is to enhance prosocial behavior and increase student's academic engagement. Virtual learning environments provide new opportunities for students to participate in classes on their own schedule. They're able to learn at their own pace, providing a comfortable way for them to grow their skills. Virtual learning offers complete flexibility compared to the traditional school system. Approx 94 Participants from Department of Education joined actively in this Program and the session ended with vote of thanks by Mr. Krishna Kumar Pandey (Incharge of this program).

Report on

Name of Programme- Guest lecture on Fundamental of GPS
Organized by- Department of Social Science and IQAC
Date- 18 July, 2020

Detailed Report:

The Guest lecture Programme was organized by the Department of Social science and IQAC Cell on July 18th ,2020 on the topic of Fundamental of GPS.

The keynote speaker at the event was Mr. Rahul Chakraborty, who is the Chairman of Integrated Institute of advance research and technology West Bengal.

Mr. Rahul Chakraborty explained in his lecture GPS is a new and potentially valuable tool for improving the assessment of physical activity utilizes the Global Positioning System (GPS). Greater understanding of the nature of physical activity (or inactivity) is essential if we are to develop and implement effective interventions, Global positioning system (GPS) technology has the potential to improve our understanding of physical activity by providing location information. Researchers have begun to integrate GPS technology into

Weiber

physical activity-related studies, however because the technology is relatively new, only a handful of such research studies currently exist.

Mr. Rahul Chakraborty explained in his lecture how the GPS system has made its place as an important technology for research and how a lot of research will be done through GPS in the future. Faculty members and 34 students from the Social Science Department were present in the programme and got the latest information about GPS technology. 66 students participated in the program.

At the end of the program, Dr. Kajal Moitra. Head of the Department of Social Science, thanked Mr. Rahul Chokroborty and all the participants for participating in the guest lecture.

GUEST LECTURE

ON

ANIMAL BEHAVIOUR AND INTEGRATED FARMING

DATE: 08/08/2021

Departemt of Life Science from Dr.C.V.Raman University organized a one day Guest Lecture on 08/08/2021 on Animal behavior and integrated farming on conference hall. Guest lecture focused on conservation of animals. The programme started at 12:00 pm with Saraswati vandana and the welcome address by Dr. Shweta Sao with Saraswati Vandana. Shri Aman Kumar Toppo, Asst. Prof., S.S.G.R.Govt. College Sargaon Mungeli (C.G.) was our guest speaker.

Shri Aman Kumar Toppo delivered lecture

He explained that animal behavior plays a critical role in conservation efforts. Efforts to captivity breed endangered species hinge on understanding the species habitat requirements, mating behavior, and parent—offspring interactions. Conservation of species in the wild by creating sanctuaries is most successful if aspects of behavior such as territoriality, dispersal, and migration are factored into sanctuary design. Animal behavior gives biologists tools for measuring the level of disturbance that humans create for wild populations. He also explained that the Integrated Farming System (IFS) is an interdependent, interrelated often interlocking production systems based on few crops, animals and related subsidiary enterprises in such a way that maximize the utilization of nutrients of each system and minimize the negative effect of these enterprises on environment. Vote of thanks delivered by Dr. R.K. Singh.

Name of Programme- One day National Symposia on Geospatial Technology: Application & Management of Environment Issues.

Organized by- Department of Social Science and Centre for GIS and Remote Sensing and Centre for Exellence for Rural Technology and Entrepreneurship Date- 25th august, 2021

Detailed Report:

A One Day National Symposia was organized on 25 August 2021 under the joint aegis of Department of Social Sciences, Center for GIS and Remote Sensing and Center for Excellence for Rural Technology and Internship, CV Raman University.

At the beginning of the program, Professor Kajal Moitra, Head of the Department of Social Sciences and Center head of Centre for GIS and Remote Sensing, gave information about the outline of the program.

Head
Department of Social Science
Dr. C.V. Raman University
Kargi Road Kota, Bilaspur (C.G.)

The registrar of the university, Mr. Gaurav Shukla sir, presiding over the program, had said in his lecture that the contribution of geospatial technology in the field of research is important.

Dr. Seema Jalan of Mohanlal Sukhadia University, Udaipur, present as the keynote speaker, explained in detail about the present day management of geospatial technology and how new dimensions can be achieved by using technology.

Dr. Ismail Mandal of the Indian Institute of Engineering Science and Technology, West Bengal, who was present at the event, explained how geospatial technology and environmental issues are related to each other. We can solve environmental problems by developing geospatial technology.

At the end of the program, vote of thanks was given by Dr. Anupam Tiwari Sir, Head of the Center for Excellence for Rural Technology and Entrepreneurship. . 72 students participated in the program and all the teachers of the department were also present.

Department of Social Science Dr. C.V. Raman University Cargi Road Kota, Bilaspur (C.G.,

A REPORT

Post Covid and Relevance of Trending Technologies

E-Guest lecture on **Post Covid and Relevance of Trending Technologies** was conducted on 09/02/2021, under the auspice of Department of Linguistics by Dr. Alma Grace Tirkey, Assistant Professor, Govt. College, Baloda (C.G.) to create awareness among the students and scholars to speed up their technological competencies.

The keynote speaker Dr. Alma Grace Tirkey spoke on how to cope up with the trending technologies. She guided the students how to inherit Block chain Mechanism to education technology. She also guided our tutors to make an engaging healthy learning environment. She spoke on the application of digital technologies in influencing social and psychological wellbeing. She also talked on the intensities of using digital technologies among new post covid learners. The covid-19 pandemic has led to an inevitable surge in the use of digital technologies due to the social distancing norms and nationwide lockdowns. People and educational organizations all over the world have adjusted to the new ways of work and life. We have also explored possible scenarios of the digital surge and the research issues that arise. She told that an increase in digitization is leading firms and educational institutions to shift to work-from-home. Block chain technology will become important and will entail research on design and regulation's. She recap that the spread of the pandemic implemented lockdowns, shutting down activities that require human gathering and interactions-including colleges, schools, malls, temples, offices, airports, and railway stations. The lockdown has resulted in most people taking to the internet-based services to communicate, interact and continue with their job responsibilities from home.

Mostly the teachers and professors used the video and audio conferencing tools. The educational institutions will ramp up their technology infrastructure to account for the surge. This will lead to the increased investment in bandwidth expansion, Network equipment and software that leverages cloud services. Education is the main domain in which there is a dramatic shift to the online mode of transacting. Since the beginning of the lockdown, schools, colleges, and

universities around the world followed the online teaching mode for students. The pandemic has recalibrated how teacher's divide their between teaching, engaging with students and administrative tasks. Our keynote speaker told that faced with the pandemic, many countries have combined high-tech and low-tech approaches to help teachers better support student learning. Technology also enhanced government-teacher support, adapting existing coaching programs to be delivered remotely, created support for peer support programs.

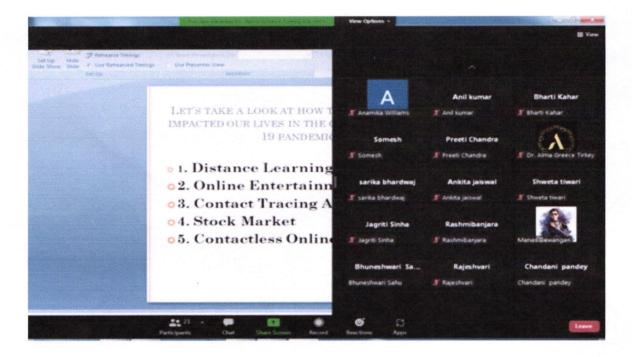

While concluding our keynote speaker Dr. Alma Grace Tirkey said that in the moment of crisis, educational organizations should think carefully about their choices regarding online learning and education technology. These choices can potentially echo in the future as new relations of power and control. She said that once colleges was in place, policymaker's assumed, teachers and students would use the information technologies regularly in classroom's and once computer's were used regularly in teaching process, the desired outcomes, divergent as they were, would naturally flow. Through this seminar participant's came to know that access to Technology would lead to instructional use and use would lead to achievement of the goals.

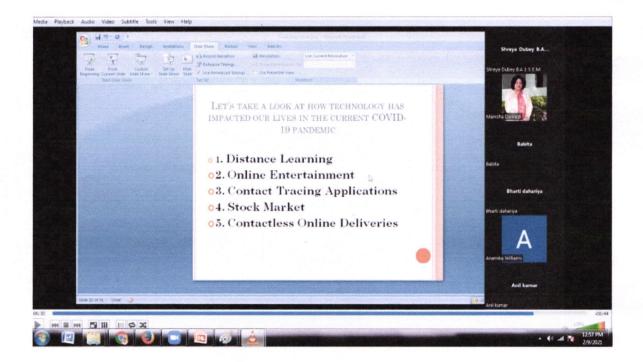

Finally vote of thanks was given by our and Head Dr. Manisha Dwivedi. She thanked Dr. Alma Grace Tirkey for the precious information he has given.

Organized by:

Jointly Organized by Department of Engineering

IQAC, Dr. C.V. Raman University

Date:

29th September, 2021

Detailed Report

The Department of Engineering branch of civil has organized a one day Guest lecture on the topic "Guest Lecture on Software STAAD-PRO" This event was included guest lecture by the guest Mr. Mahesh Tiwari, Director of CAD Center Bilaspur (C.G.)

Mr. Mahesh Tiwari had given a very fruitful and informative lecture of STAAD Pro. Software. He had delivered and focused on Function of an Advanced 3D Structural Analysis and Design. Quickly solved the most complex design and analysis problem.

STAAD. Pro is one of the most widely used structural analysis and design software products worldwide. It supports over 90 international steel, concrete, timber & aluminum design codes. It can make use of various forms of analysis from the traditional static analysis to more recent analysis methods like P-delta analysis, geometric non-linear analysis, Pushover analysis (Static-Non Linear Analysis) or buckling analysis.

It can also make use of various forms of dynamic analysis methods from time history analysis to response spectrum analysis. The response spectrum analysis feature is supported for both users defined spectra as well as a number of international code specified spectra.

Additionally, STAAD. Pro is interoperable with applications such as RAM connection. Auto pipe, SACS and many more engineering design and analysis applications to further improve collaboration between the different disciplines involved in a project. STAAD can be used for analysis and design of all types of structural projects from plants, buildings, and bridges to towers, tunnels, metro stations, water/wastewater treatment plants and more.

In this event more than 40 students and faculty members were present. The event was concluded by vote of thanks which was given by the Mr Kamlesh Bandhekar, Assistant Professor, Branch of Civil Engineering, Dr. C. V. RamanUniversity, Bilaspur (C.G.)

Name of Programme- One day international E-seminar Changing Paradigm in

social science: Technology & Management

Organized by- Department of Social Science and IQAC

Date- 6TH October, 2021

Detailed Report:

A one day International E- Seminar was organised on October 6, 2021 by the Department of Social Sciences and IQAC Cell of Dr CV Raman University.

The title of this one-day international e-seminar was "A Changing paradigm in Social Science: Technology and Management. The keynote speaker of the program was Prof. Sanjeev Kumar, Department of Business of Technology, Arhus University, Denmark.

At the beginning of the program, Professor Dr. Kajal Moitra, Head of the Department of Social Sciences, explained about the program outline.

The keynote speaker of the program, Professor Sanjeev Kumar, in his speech very interestingly explained the changing paradigm of Social Sciences studies.

Department of Social Science Dr. C.V. Raman University Kargi Road Kota, Bilaspur (C.G.) In his lecture, Professor Sanjeev Kumar explained how social science research is progressing with technology and management in present times, thereby opening up new approaches of research.

At the end of the program, Professor Rakesh Kumar Gupta, Department of Social Sciences proposed vote of thanks. 34 students participated in the program and all the teachers of the department were also present.

SUMMARY REPORT

Name of the program: Guest Lecture on Disaster Management

Organized by: Department of Engineering ,Dr. C.V. Raman University ,Kota

Bilaspur(CG)

Date: 12th November, 2021

Detailed Report:

The Department of Engineering was organized one day expert lecture on the very interesting area which was Disaster Management dated 12-November-2021 The programme started at 11:00 am in virtual mode with the welcome address by Dr. Rohit Miri,the expert for the event was Dr. A.K. Shrivas, Assistant Professor, Guru Ghasidas University Bilaspur CG.

Dr. Shrivaswas delivered very thoughtful lecture on risk management including difference between risk and disaster management to create awareness among the people. In his lecture he thoroughly explained the concept, types, causes and consequences of natural disasters. He pointed out that nature produces unpredictable events and man cannot prevent the happenings of the nature which are beyond his control even in this modern scientific era. these events occurs suddenly and results in large scale damages within short period. He also explained that disaster is not only created by nature but in large extent it is also created by human beings. He said that it is impossible to control the natural events but the effects can be minimized with proper management of these things. He also highlighted precautionary measures taken by Government and Non-Government agencies to overcome or control the disasters. Further, he explained the role of public and student community in controlling and smooth management of these disasters.

After the completion of the session Dr. A.K. Shrivas took feedback from the students, then the students told that they learned a lot and enjoyed it too. In this event more than 61 students, faculty members were present.

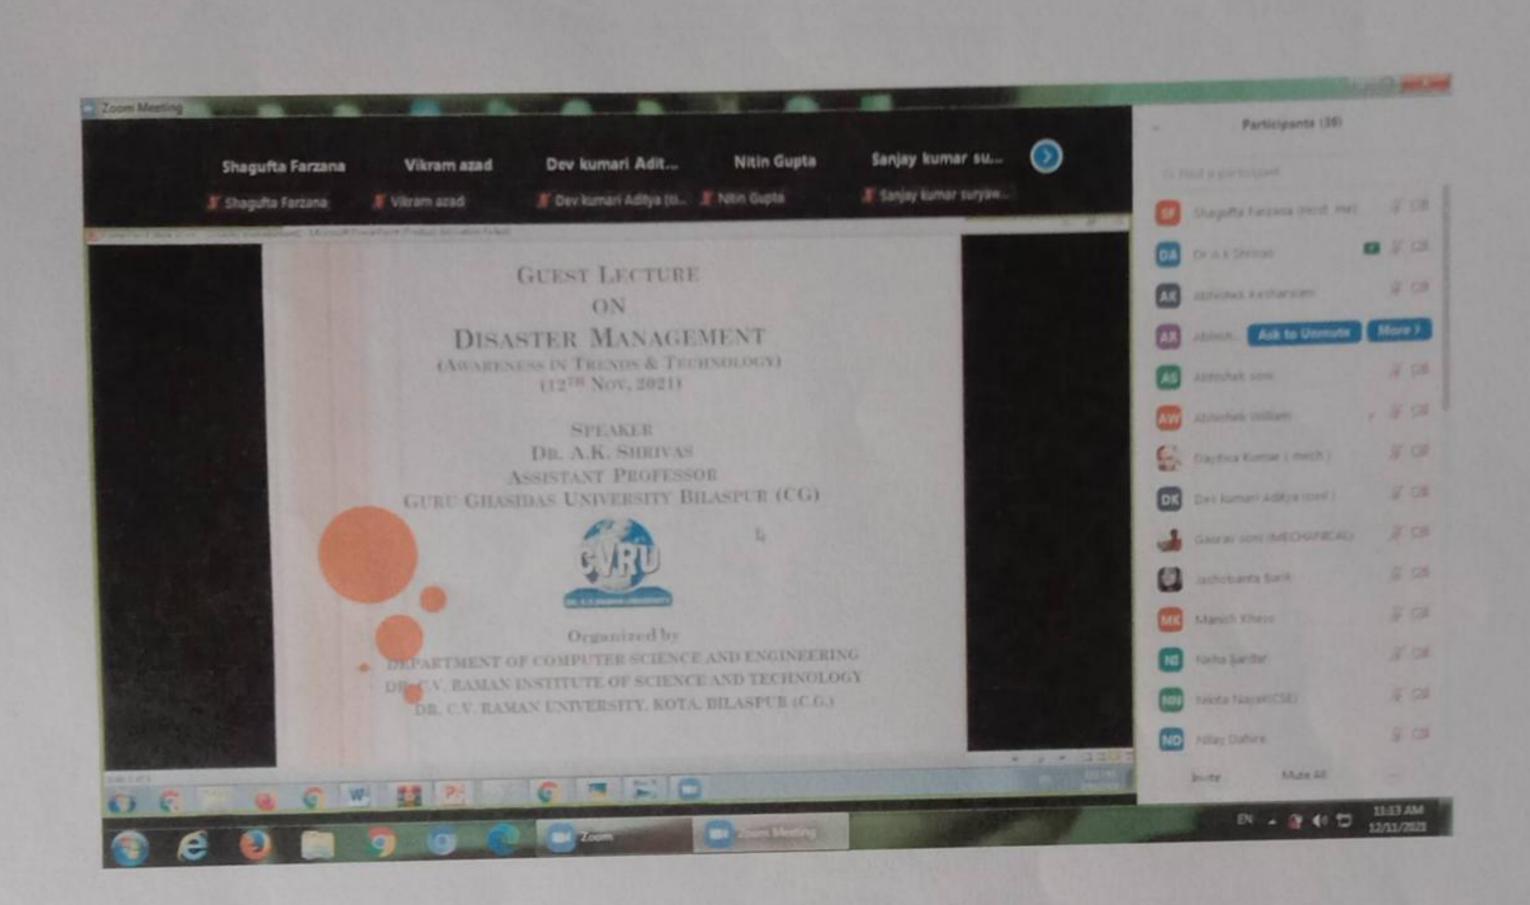

At the end of the session Dr. S. R. Tandan Assistant Professor, Department of Computer Science and Engineering presented a small token of appreciation to our valuable guests. to Dr. A.K. Shrivas.

The event was concluded by vote of thanks which was given by the Dr. Rohit Miri, Branch Head, Department of Engineering, Dr. C. V.Raman University, Bilaspur (C.G.).

Report of Invited talk on GIS and Remote Sensing Technology for Village Planning

Department of Rural Technology, CVRU, Kota Bilaspur (C.G.) organized a guest lecture by Dr. Hemant Sahu, GIS expert, Alumni of Indian Institute of Remote Sensing (IIRS) Dehradun, Uttarakhand on 17^{th} November 2021 from 12.30-02.00 p.m. The speaker spoke on the topic "GIS and Remote Sensing Technology for Village Planning".

The main purpose of his talk was to assure sustainable utilization of natural resources without compromising the future prospects. Dr. Hemant highlighted the history of GIS, components of GIS, different functions of GIS, GIS data management system etc. The speaker elaborates on natural resource mapping on a different manner. He teaches how to handle Remote sensing software for different objective. Our expert explained the challenges and job opportunity on remote sensing field. A total of 36 participants including masters and diploma students along with the faculty member of Dept. of Rural Technology, CVRU benefited from this invited lecture.

Dr. Hemant Sahu, GIS expert, shared his knowledge.

Name of the program: Expert talk on Cyber Crime

Organized by: Jointly Organized by Department of Engineering & IQAC Dr. C.V. Raman University, kargi Road Kota Bilaspur C.G.

Date: 23rd November, 2021

Detailed Report

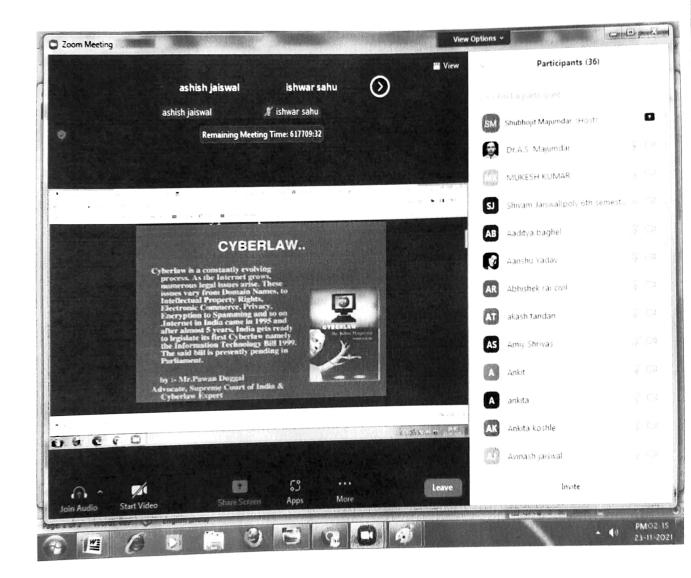

The Department of Engineering branch of Civil has organized a one day expert lecture on Cyber Crime. This program included an Expert talk by the expert, Mr. SHUBHOJIT MAJUMDAR Advocate, High court, Bilaspur C.G.

Mr. Majumdar has delivered very thoughtful awareness in the field of Cyber Crime and Law. In his deliberation he has given very important information related to cyber crime. Need of awareness among the students and all the people who were active in digital media, social networking sites apart from cyber crime and laws. Sir has focused special attention towards IT act and criteria of punishment for cyber crime.

They are especially focus in following cyber crime

- ➤ Internet fraud
- ATM fraud
- Wire fraud
- File sharing and piracy
- Counterfeiting and forgery
- Child pornography
- Computer viruses
- > Spam, steganography, and e-mail hacking
- Film and DRM
- > E-books and promotional piracy
- > Art theft
- ➤ Malware

In this event more than 40 students, faculty and staff members were present. The event was concluded by vote of thanks which was given by the Dr.A.S.Majumdar, Head of civil Engineering branch, Dr. C. V. Raman University Kargi Road Kota Bilaspur (C.G.)

ICUN led International Year of Periodic Table 2019 India Program

On 31 December 2019

Organized By
Department of Chemistry

Department of Chemistry Dr. C.V. Raman University Kota, Bilaspur (C.G.) - 495113

Detailed Report

Department of chemistry organized the periodic table march and seminar for the celebration international year of periodic table by UNESCO . 2019 has been designated by UNESCO as the International Year of the Periodic Table (IYPT), marking the 150th anniversary of the Mendeleev periodic table, which is an iconic image and a vital tool to all who learn and work in science, at all stages of their learning and careers. Keeping theme in the mind 2019 year celebrated in department .Students from M.Sc and B.Sc were participated for the same . On this occasion short term course was offered by the UNESCO And 53 faculties and students were completed the course. The seminar also organized by the department of chemistry and experts from chemistry field were delivered their talk on Periodic table.

Details of events are attached herewith

Subject: Letter of Appointment: IYPT 2019 India Program Coordinator

Hello Dr. Milan Hait,

This is to confirm your appointment as a Coordinator for ICUN led IYPT 2019 India Program. The year 2019 is proclaimed by UN General Assembly as International Year of the Periodic Table.

For details see: http://un.iarc.res.in/program/iypt

Your primary role as IYPT Coordinator is to drive participation in IYPT 2019 Certification Course and promote UN IYPT initiative in your area of influence. The detailed outline of the role is mentioned in the Coordinator Role Document.

Project:

IYPT 2019 India Program

Date of issue:

17-07-2019

Type of Association:

Coordinator

Type of Role:

Faculty Coordinator

Coordinator Code:

IYPT191CC064

Institute / Organization:

Dr. C. V. Raman University

City:

Bilaspur

We wish you all the very best.

Regards,

Anita Thakur

Education & Outreach

Anita Thakur

PS - This letter does Not indicate that the aforementioned Coordinatorship was successfully completed

Department of Chemistry Dr. C.V. Raman University Kota, Bilaspur (C.G.) - 495113

CERTIFICATE OF EXCELLENCE

IYPT 2019 INDIA PROGRAM

Awarded to

Dr. Milan Hait

for successfully completing the role and responsibility as IYPT 2019 India Program Coordinator.
